COMITÉ EJECUTIVO DEL FONDO MULTILATERAL
PARA LA APLICACIÓN DEL
PROTOCOLO DE MONTREAL
Octogésima sexta reunión
Montreal, 2 – 6 de noviembre de 2020
Pospuesta: 8 – 12 de marzo de 2021¹

PLAN ADMINISTRATIVO DEL BANCO MUNDIAL PARA 2021-2023

1. Este documento presenta el plan administrativo del Banco Mundial para 2021-2023² e incluye: las actividades previstas para la eliminación de las sustancias controladas bajo el Protocolo de Montreal (sustancias controladas) durante el período 2021-2023; los indicadores de desempeño del plan administrativo; y una recomendación para consideración del Comité Ejecutivo. La descripción del plan administrativo del Banco Mundial para 2021-2023 se adjunta al presente documento.

Actividades previstas durante el período 2021-2023

2. El Cuadro 1 establece, por año, el valor de las actividades incluidas en el plan administrativo del Banco Mundial.

¹ Debido al coronavirus (Covid-19)

² Dado las restricciones impuestas por la pandemia del COVID-19, las observaciones de la Secretaría sobre la presentación inicial del plan administrativo del Banco Mundial para 2021-2023 se trataron mediante deliberaciones bilaterales y numerosos intercambios de mensajes electrónicos. Todas las cuestiones se solucionaron satisfactoriamente.

Observaciones de la Secretaría

Producción de HCFC - preparación y etapa I de proyectos

3. Para India se incluye un total de \$EUA 128 400 para la preparación de proyecto y \$EUA 5,35 millones para el período de 2021 a 2023 para la etapa I del plan de gestión de eliminación de producción de los HCFC. Se presentó un pedido de auditoría técnica del sector de producción en India y será examinado por el Subgrupo sobre sector de producción en los márgenes de la 86ª reunión.

Producción de HCFC - etapa II

4. Para China se incluye un total de \$EUA 46,46 millones para el plan de gestión de eliminación de producción de los HCFC para China, desglosado de la manera siguiente: \$EUA 23,23 millones para 2021-2023 y \$EUA 23,23 millones para después de 2023. Estos valores corresponden al proyecto de Acuerdo presentado a la 86ª reunión.

5. En su 81ª reunión, el Comité Ejecutivo aprobó, entre otras cosas y de manera excepcional, \$EUA 24,29 millones (incluido gastos de apoyo del organismo) para el plan de gestión de eliminación de producción de los HCFC para China, y observó que esta cantidad se deduciría de la financiación de la etapa II.³

6. El pedido de financiación para la etapa II del plan de gestión de eliminación de producción de los HCFC para China se presentó a la 86ª reunión de acuerdo con la decisión 84/69 b).

Etapa III del plan de gestión de eliminación de HCFC - preparación de proyectos

³ Decisión 81/71b) y c).

7. Para los países con una etapa II aprobada de planes de gestión de eliminación de HCFC con objetivos de reducción por debajo de los objetivos de cumplimiento de 2025 (decisión 84/46 e)), en el plan administrativo de 2021-2023 se incluye un total de \$EUA 481 500 para la preparación de proyecto para la etapa III de planes de gestión de eliminación de HCFC.

Actividades relacionadas con HFC

8. Para dos países (Tailandia y Viet Nam) en el plan administrativo 2021-2023 se incluye un total de \$EUA 535 000 para las actividades de preparación de proyectos de reducción de HFC.⁴ De los dos países, sólo Viet Nam ha ratificado la Enmienda de Kigali y Tailandia ha presentado la carta requerida de su gobierno donde se indica la intención de hacer el máximo desempeño para ratificar dicha Enmienda.

Costos de la dependencia básica

9. Se espera que los costos⁵ de la dependencia básica aumenten a una tasa anual del 0,7 por ciento como ha sido acordado.

Ajustes propuestos por la Secretaría

10. Los ajustes al plan administrativo del Banco Mundial para 2021-2023 se basaron en las decisiones pertinentes del Comité Ejecutivo. Puede que se requieran otros ajustes dependiendo de una decisión de las Partes sobre el nivel de reposición del Fondo Multilateral para el trienio 2021-2023.⁶ Al examinar el plan administrativo revisado del Banco Mundial para 2021-2023, la Secretaría observó que no se incluyeron los ajustes siguientes:

Cuadro 2. Ajustes al plan administrativo del Banco Mundial para 2021-2023 (\$EUA 000)

Ajustes	2021-2023	Después de 2023
Valores del plan de gestión de eliminación de HCFC para reflejar los montos reales aprobados según los términos de los Acuerdos	(30)	0
Preparación de la etapa III de planes de gestión de eliminación de HCFC conforme a la decisión 71/42	(55)	0
Preparación de reducción de HFC conforme a la decisión 56/16 c)	(173)	0
Valores de fortalecimiento institucional después de 2023, quitados	0	(475)

11. El Cuadro 3 presenta los resultados de los ajustes propuestos por la Secretaría al plan administrativo del Banco Mundial para 2021-2023, que también se abordan en el contexto del plan administrativo refundido del Fondo Multilateral para 2021-2023.⁷

⁴ La financiación para la preparación de planes de ejecución nacionales para cumplir con los requisitos iniciales de la reducción de HFC podría proporcionarse, como muy pronto, cinco años antes de esas obligaciones, después de que un país hubiera ratificado la Enmienda de Kigali y en base a las directrices que se aprobarán en el futuro (decisión 79/46 b) iii)). Además, la decisión 84/46 f) permitió la inclusión de las actividades de preparación de la reducción de HFC en el plan administrativo para los países que no habían ratificado la Enmienda de Kigali, pero habían presentado una carta que indicaba la intención de su gobierno de hacer el máximo desempeño para ratificar la Enmienda de Kigali.

⁵ El costo de las dependencias básicas de 2021 del Banco Mundial se aprobó en el proceso de aprobación en el período entre sesiones para la 86ª reunión (UNEP/OzL.Pro/ExCom/86/37).

⁶ A falta de una decisión de las Partes sobre el nivel de reposición del Fondo Multilateral para el trienio 2021- 2023, y en vista de la decisión XXXII/1, el presupuesto indicativo para la asignación de recursos del plan administrativo para 2021-2023 se asumió al mismo nivel de reposición del trienio 2018-2020. Esta cuestión se trata en UNEP/OzL.Pro/ExCom/86/25.

* El objetivo de un organismo se reduciría, si no pudiera presentar un tramo debido a otro organismo principal o cooperante, de haberse acordado así por ese organismo.

** La preparación del proyecto no debería evaluarse, si el Comité Ejecutivo no ha tomado una decisión sobre su financiación.

RECOMENDACIÓN

13. El Comité Ejecutivo podría:

- a) Tomar nota del plan administrativo del Banco Mundial para 2021-2023, que figura en el documento UNEP/OzL.Pro/ExCom/86/30; y
- b) Aprobar los indicadores de desempeño para el Banco Mundial, según lo establecido en el Cuadro 4 del documento UNEP/OzL.Pro/ExCom/86/30.

2021-2023 BUSINESS PLAN

WORLD BANK GROUP

INVESTMENT AND NON-INVESTMENT OPERATIONS FUNDED BY THE MULTILATERAL FUND OF THE MONTREAL PROTOCOL

Presented to the
86th Meeting of the Executive Committee
of the Multilateral Fund

Submitted September 4, 2020
Resubmitted Jan 11, 2021

I. MULTILATERAL FUND TARGETS

A. Meeting the Objectives of the Multilateral Fund

1. The three-year rolling Business Plan for the World Bank has been prepared on the basis of approved and projected funding needs of client countries covering the years 2021-2023.

2. The objectives of the proposed 2021-2023 Business Plan for the World Bank are to:

- a) Assist Article 5 countries in sustaining and meeting the obligation pertaining to HCFC consumption and production phase-out – the 35% reduction in 2021 and also to meet the extended HCFC phase-out commitment under each country’s Agreement with the Executive Committee.
- b) Assist Article 5 countries in preparing strategy and implementation plan to meet initial reduction obligations for the phase-down of HFC in accordance with the Kigali Amendment.
- c) Ensure Article 5 partner countries’ implementation of institutional strengthening (IS) activities.

3. The proposed 2021-2023 Business Plan of the World Bank includes annual work programs of sector plans and national plans, previously approved, to phase out HCFCs, a revised Stage II gradual production phase-out plan, subject to approval by the 86th ExCom, as well as the renewal of the institutional strengthening activities. The Bank’s Business Plan also includes a project preparation and a stage I HCFC production phase-out sector plan for India to meet its HCFC production obligation, and in light of the decisions 79/46(b)(iii), the Bank’s Business Plan also includes a number of preparation activities for Kigali HFC phase-down management plan (KPMP).

4. The expected impact of proposed new investment activities for the 2021-2023 period are summarized in Table I – 1, below. It should be noted that activities planned for these years are included on an indicative basis, and that they may later be revised as part of individual project submissions or future year World Bank business plan submissions.

Table I-1: Expected impact of new investment activities anticipated to be requested by the World Bank for the years 2021-2023 (ODP tonnes)

	2021	2022	2023	Total
HCFC Production Phase-out Plan Stage II (China) ¹	0	5,286.57	0	5,286.57
HCFC Production Phase-out Plan (India)	13.20	26.40	26.40	66.00
Total (ODP tons)	13.20	5,312.97	26.40	5,352.57

5. Other than the ODP to be phased out from new investment activities proposed for the 2021-2023 period, additional phase-out of 1,403.96 ODP tons will be achieved by 2023 through the ongoing implementation of previously approved multi-year projects. This additional phase-out is summarized in Table I-2.

¹ Pending approval of stage II HPPMP for China by the 86th ExCom.

Table I-2: Expected impact of approved investment activities anticipated to be requested by the World Bank for the years 2021-2023 (ODP tonnes)

HCFC Sector Plans Stage II	638.63	41.79	723.54	1,403.96
Total	638.63	41.79	723.54	1,403.96

Strategic approach to HCFC phase-out and HFC-phase-down activities in the proposed 2021-2023 Business Plan

6. Balancing supply and demand of HCFC Production and Consumption: China is the world’s largest producer, consumer of HCFCs for ODS use. It is estimated that in 2018 China produced 81% of global production of HCFC-22, 99% of global production of HCFC-141b, and 84% of global production of HCFC-142b. While China consumes significant portion of its production, its exports accounted for 53% of global HCFC-22 consumption, 97% of global HCFC-141b, and 100% of global HCFC-142b consumption.

7. To assist China in meeting the production compliance targets in 2021, the World Bank had resubmitted stage II of the HCFC production phase-out plan for the ExCom’s consideration at its 86th Meeting. In preparing these plans, close consultations with other implementing agencies and with other Article 5 countries with high HCFC consumption had been carried out. It is critical that the production of HCFCs are reduced in order to synchronize with the expected demand in China and its exports market to avoid flooding the market with cheap HCFCs that could undermine the efforts to reduce consumptions of all Article 5 countries. In particular, the proposed stage II is planning to phase-out the production of HCFC-141b for controlled uses in 2026 in order to support the implementation of HPMPs in China and other A5 countries.

8. Support for the compliance with the Kigali Amendment: A number of Bank client countries are in the process of ratifying the Kigali Amendment to phasedown HFCs within the next few years. Findings from the implementation of HFC enabling activities indicated the needs to develop a flexible HFC quota allocation options and procedures. The traditional way of allocating quotas to ozone-depleting substance (ODS) importers in metric tons (MT) would not allow countries to apply full flexibility built into the KA. An HFC quota system is urgently needed that encourages phasedown of high-GWP HFCs without hindering development of sectors that require lower-GWP HFCs to grow, that is, sectors that may not yet have available viable technologies and alternatives. Furthermore, the impact from COVID-19 pandemic could depress the demand for HFCs and HFC-based equipment during the baseline years (2020–2022) and result in a lower HFC baseline. Countries could face earlier compliance issues and require more aggressive phasedown options if the demand is restored to normal levels after the baseline years. For the proposed activities to prepare KPMP, the Bank will update the countries’ HFC survey and HFC consumption projection for the immediate period (2024 – 2029) after the baseline years in case the demand quickly returns to pre-COVID-19 levels.

B. Resource Allocation in 2021

9. The proposed 2021 Business Plan includes deliverables of six investment activities in the following six countries: China, India, Indonesia, Jordan, Thailand and Vietnam. The total amount of funding requested for ongoing and new investment activities in the proposed 2021 Business Plan is US\$13.3 million.

10. The funding distribution for ongoing and new investment activities included in the proposed 2021 Business Plan is summarized below.

Table I-3: Summary of funding distribution for investment activities in the proposed 2021 World Bank Business Plan

	Total amount of funds requested in 2021 (US\$ 000s)*	Percent of total	Estimated impact in 2021 (ODP tonnes)	Percent of total
HCFC Sector Plans Stage II	12,255.00	91.97%	638.63	97.97%

Total	13,325.00	100.00%	651.83	100.00%

* Figures include agency support costs

11. The total deliverables contained in the proposed 2021 World Bank Business Plan, including investment, non-investment and preparatory activities amounts to US\$56.2 million (including agency support costs and core unit costs). The breakdown of the total deliverables is summarized below.

Table I-4: Summary of all activities included in the proposed 2021 World Bank Business Plan

Type of activity included in the proposed 2021 Business Plan	Number of activities	Amount requested (US\$ 000s)*

C. Resource Allocation Beyond 2021

12. The breakdown of the resource allocation beyond 2021 in the 2021-2023 Business Planning is summarized below.

Table I-5: World Bank's proposed resource allocation plan for 2022-2023

Type of activity	Total amount of funds requested in 2022 (US\$ 000s)	Estimated impact in 2022 (ODP tonnes)	Total amount of funds requested in 2023 (US\$ 000s)	Estimated impact in 2023 (ODP tonnes)

II. PLANNED BUSINESS ACTIVITIES

A. Ongoing Approved Activities

13. Investment projects for which funding is requested in the 2021-2023 BP: As of August 2020, the World Bank's Montreal Protocol portfolio consists of five ongoing multi-year projects for which funding will be solicited in 2021-2023: HCFC phase-out management and sector plans in China, Indonesia, Jordan, Thailand, and Vietnam. China stage II HPPMP has been submitted for consideration by the 86th ExCom, if approved, there would be six multi-year projects.

14. Non-investment projects and activities: As of October 2020, the World Bank's portfolio includes 2 ongoing institutional strengthening projects (Thailand and Jordan) that will be completed by the end of 2021 with the expected requests for renewal in 2021. Two activities: one (1) preparation of stage I HPPMP for India and one (1) preparation activity for stage I KPMP have been submitted for consideration by the 86th ExCom.

B. Program Expansion in 2021 and Beyond

15. A list of detailed new and approved activities to be implemented during 2021-2023, their associated levels of funding, projected ODP impact and country specific remarks is submitted as a separate table.

New submissions

16. The revised China Production Sector Stage II was submitted to the 86th ExCom in July 2020. The revised stage II HPPMP would enable China to move toward compliance with its 2025 obligations under the Montreal Protocol and include phasing out the production of HCFC-141b by 2026. All the figures included in the business plan are based on the proposed plan as submitted. The 2021-2023 Business Plan also includes a project preparation and a stage I India production sector plan to enable its compliance with the 2025 obligation.

17. A Kigali HFC phase-down management plan for Malaysia is planned for submission during this period along with two additional activities to prepare KPMP for Thailand and Vietnam.

C. Measures to Expedite Implementation of Approved Projects and Those Critical to Compliance

18. The Bank is planning to resume the organization of East Asia regional workshops in 2021² for technical and procedural guidance to partner countries from the World Bank and external experts, exchange of views, and cross-fertilization on efficient and effective HCFC phase-out implementation. Another workshop will also be organized in 2021 to promote synergy between climate, energy efficiency and ozone activities. This workshop will be the fifth of its kind that was first successfully organized in 2015. The

² The planned 2020 workshops were canceled due to COVID-19 pandemic

workshop will be complemented by sector-specific technical reviews of new and emerging low-GWP alternatives by the Bank’s Ozone Operations Resource Group directed towards the specific needs of partner countries.

19. Lastly, in helping partner countries consider options for addressing Stage II consumption phase-out, particularly where grant funding may be limited due to eligibility, cost-effectiveness ceilings and specific sector funding boundaries, the World Bank is exploring means to better integrate the MP agenda into its main line of work. Beyond the identification of synergies in the Bank’s larger lending portfolio, there will be continuing efforts in 2021 to seek out concrete opportunities that allow ODS sector phase-out to be twinned with new projects aiming for green growth and improving energy efficiency in industry, energy, agriculture, infrastructure, and other sectors. This also include projects for Philippines, Thailand and Vietnam to improve energy efficiency in room air-conditioners with approved funding from Kigali Cooling Efficiency Program (K-CEP).

III. PERFORMANCE INDICATORS

20. As per Decision 71/28, the following performance indicators are included in the World Bank’s 2021-2023 Business Plan:

A. Planning--Approval Performance Indicators

21. Number of tranches of multi-year agreements approved vs. those planned (Weighting: 10)

Table III-1: Number of annual programs of multi-year agreements planned for 2021

Item	Planned for 2021	Remarks
Tranches of previously approved multi-year agreements to be presented to ExCom in 2021	5	HCFC Phase-out Plan (China, Indonesia, Jordan, Thailand, and Vietnam)

22. Number of individual projects/ activities (investment, demonstration projects, TAS, IS) approved vs. those planned. (Weighting: 10)

Table III-2: Number of individual projects/ activities planned for 2021

Item	Planned for 2021	Remarks
Number of projects/ activities (investment and demonstration projects, TAS, PRP, IS) approved vs. planned	3	2 Institutional Strengthening Project (Jordan and Thailand), and 1 HFC Phase-down Management Plan (Malaysia)

B. Implementation Performance Indicators

23. Funds disbursed (Weighting: 15). In 2021, the World Bank is targeting disbursement of \$18.16 million.
24. ODP phased-out for the tranche when the next tranche is approved vs. those planned per progress reports (Weighting: 25): In 2021, the World Bank expects to phase out a total of 166.66 ODP tons through implementation of approved multi-year projects.
25. Project completion vs. those planned in progress reports for all activities (excluding project preparation) (Weighting: 20): In 2021, the World Bank expects to bring to completion a total of two (2) individual project activity: Enabling activities for HFC phase-down in Indonesia and Thailand.

C. Administrative Performance Indicators

26. Speed of financial completion after project completion (Weighting: 10): The Bank has set its target for financial completion of all project activities completed in 2018 within 12 months at 90%.
27. Timely submission of project completion reports (Weighting: 5): The Bank plans to submit project completion reports as agreed with the Senior Monitoring and Evaluation Officer.
28. Timely submission of progress reports and responses unless otherwise agreed (Weighting: 5): The Bank plans to submit its 2021 Progress Report by the agreed deadline.
29. A summary of the World Bank's 2021 performance indicators is included in Table III-3 below.

Table III-3: Summary of World Bank's 2021 performance indicators

Category of Performance Indicator	Title	Weighting	2021 Target
Planning -- Approval	Tranches of previously approved multi-year agreements to be approved in 2021	10	5
	Number of projects/ activities (investment and demonstration projects, TAS, PRP, IS) approved vs. planned	10	3
Implementation	Funds disbursed based on estimated disbursement in progress report	15	18.16
	ODP phase-out for the tranche vs. that planned per progress reports	25	166.66
	Project completion vs. those planned per progress reports (excluding preparation)	20	2
Administrative	Speed of financial completion after project completion	10	90%
	Timely submission of project completion reports	5	On time
	Timely submission of progress reports	5	On time

IV. POLICY ISSUES

30. As part of the World Bank implementation of the 2020-2022 Business Plan, the World Bank submitted the work program amendments for 2020 for consideration by the 86th ExCom. As noted in UNEP/OzL.Pro/ExCom/86/IAP/3, the World Bank's work programme amendments was submitted but not issued.
31. It is our understanding that the agency's work program or work program amendment is the document that allows the agency to demonstrate to the ExCom on how it would carry out its annual business plan presented to the ExCom. This document would normally contain proposed project preparation

funding, renewal of institutional strengthening, and request for the following year core unit support. While there might be potential issues associated with specific activities, it is our understanding that the Secretariat should still issue the work program along with its comments and recommendations for each activity as it has been done in the past.
