

Multilateral Fund for the Implementation of the
Montreal Protocol

KIGALI HFC IMPLEMENTATION PLANS

(As at June 2024)

The Multilateral Fund Secretariat

Note: Some of Article 5 countries have changed their name after the Executive Committee decisions were made and agreements concluded. This document lists countries by their name as at June 2024, without changing the name in the original text of decisions and agreements.

ALBANIA
KIP for Albania

The Ninety-third Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Albania for the period 2023–2030 to reduce, by 2029, HFC consumption by 10 per cent of the country's baseline, in the amount of US \$406,800, consisting of US \$260,000, plus agency support costs of US \$33,800, for UNIDO, and US \$100,000, plus agency support costs of US \$13,000, for UNEP, as reflected in the schedule contained in annex XXXVIII to the present report;
- (b) To note that, upon completion of the end-user technology demonstration project included in stage I of the KIP, UNIDO would submit a final report on the implementation of the project, including the HFC phase-out and energy-efficiency gains achieved, in line with subparagraph (g) of decision 92/36;
- (c) To approve the first tranche of stage I of the KIP for Albania, and the corresponding tranche implementation plan, in the amount of US \$202,711, consisting of US \$129,390, plus agency support costs of US \$16,821, for UNIDO and US \$50,000, plus agency support costs of US \$6,500, for UNEP; and
- (d) To request the Government of Albania, UNIDO, UNEP and the Secretariat to finalize the draft Agreement between the Government of Albania and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

ARMENIA
KIP for Armenia

The Ninety-fourth Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Armenia for the period 2024–2029 to reduce HFC consumption by 10 per cent of the country's baseline by 2029, in the amount of US \$203,400, consisting of US \$114,000, plus agency support costs of US \$14,820, for UNIDO and US \$66,000, plus agency support costs of US \$8,580, for UNEP, as reflected in the schedule contained in annex XXXI to the present report;
- (b) To note that, if the revision of the HFC consumption data for 2020 to 2022 were approved by the Thirty-Sixth Meeting of the Parties, the funding approved in principle, as well as the tranche funding levels and the targets reflected in the annex referred to in subparagraph (a) above, would be revised accordingly at the 95th meeting;
- (c) To note that the Government of Armenia would implement the following regulatory measures:
 - (i) A ban on the import of domestic refrigerators and freezers containing HFCs with a global-warming potential (GWP) of 150 or higher, by 1 January 2027;
 - (ii) A ban on the import of commercial refrigeration equipment containing HFCs with a GWP of 2,500 or higher, by 1 January 2027;
 - (iii) A ban on the import of moveable room air-conditioning units containing HFCs with a GWP of 800 or higher and on split air conditioners containing less than 3 kg of fluorinated gases with a GWP of 800 or higher, by 1 January 2027;
 - (iv) A ban on domestic trade in HFCs in non-refillable containers, by 1 January 2028;
 - (v) A ban on the import of stationary refrigeration equipment containing or relying on HFCs with a GWP of 2,500 or higher, by 1 January 2029;
- (d) To approve the first tranche of stage I of the KIP for Armenia, and the corresponding tranche implementation plan, in the amount of US \$186,535, consisting of US \$99,075 plus agency support costs of US \$12,880, for UNIDO and US \$66,000, plus agency support costs of US \$8,580, for UNEP; and
- (e) To request the Government of Armenia, UNIDO, UNEP and the Secretariat to finalize the draft Agreement between the Government of Armenia and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

(UNEP/OzL.Pro/ExCom/94/67, Decision 94/39).

BOLIVIA (Plurinational State of)
KIP for Bolivia

The Ninety-third Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for the Plurinational State of Bolivia for the period 2023–2030 to reduce, by 2029, HFC consumption by 15 per cent of the country’s baseline, in the amount of US \$367,250, consisting of US \$257,000, plus agency support costs of US \$33,410, for UNIDO, and US \$68,000, plus agency support costs of US \$8,840, for UNEP, as reflected in the schedule contained in annex XXXIX to the present report;
- (b) To note:
 - (i) That the Government of the Plurinational State of Bolivia would continue to monitor its HFC consumption to understand the extent to which reported consumption in baseline years was representative of the local market’s needs and to assess what future HFC demand would be, and would provide that analysis when submitting the second tranche of its KIP;
 - (ii) That, on the basis of the information provided in subparagraph (b)(i) above, the maximum allowable consumption limits for the remaining years of stage I of the KIP, as contained in Appendix 2-A to the future Agreement between the Government of the Plurinational State of Bolivia and the Executive Committee would be revised, if appropriate, when the Committee considered the second tranche of the KIP;
- (c) To approve the first tranche of stage I of the KIP for the Plurinational State of Bolivia, and the corresponding tranche implementation plan, in the amount of US \$219,220, consisting of US \$153,500, plus agency support costs of US \$19,955, for UNIDO, and US \$40,500, plus agency support costs of US \$5,265, for UNEP; and
- (d) To request the Government of the Plurinational State of Bolivia, UNIDO, UNEP and the Secretariat to finalize the draft Agreement between the Government of the Plurinational State of Bolivia and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

BURKINA FASO
KIP for Burkina Faso

The Ninety-fourth Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Burkina Faso for the period 2024-2029 to reduce HFC consumption by 30 per cent of the country's baseline by 2029, in the amount of US \$325,000, plus agency support costs of US \$42,250 for the Government of Germany, as reflected in the schedule contained in annex XXXII to the present report;
- (b) To note:
 - (i) That the Government of Burkina Faso would establish its starting point for sustained aggregate reductions in HFC consumption based on guidance provided by the Executive Committee;
 - (ii) That, once the cost guidelines for HFC phase-down had been agreed by the Executive Committee, reductions from the country's remaining HFC consumption eligible for funding would be determined in line with those guidelines;
 - (iii) That the reductions from the country's remaining HFC consumption eligible for funding referred to in subparagraph (b)(ii) above would be deducted from the starting point referred to in subparagraph (b)(i) above;
 - (iv) That, during the implementation of stage I of the KIP, the Government of Burkina Faso would be allowed, on an exceptional basis, to submit a project for the commercial refrigeration sector to achieve additional HFC reductions;
- (c) To request the Government of Germany, on behalf of the Government of Burkina Faso, to submit, for consideration at the 95th meeting, a detailed plan for the establishment of the refrigerant distribution centre, including a potential business model for ensuring the viability of the centre;
- (d) To approve the first tranche of stage I of the KIP for Burkina Faso, and the corresponding tranche implementation plan, in the amount of US \$162,500, plus agency support costs of US \$21,125, for the Government of Germany, on the understanding that no disbursement would be made towards the establishment of the refrigerant distribution centre until the Executive Committee considered, on an extraordinary basis, the plan referred to in subparagraph (c) above; and
- (e) To request the Government of Burkina Faso, the Government of Germany and the Secretariat to finalize the draft Agreement between the Government of Burkina Faso and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

(UNEP/OzL.Pro/ExCom/94/67, Decision 94/40).

CAMBODIA
KIP for Cambodia

The Ninety-third Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Cambodia for the period 2023–2029 to reduce, by 2029, HFC consumption by 10 per cent of the country's baseline, in the amount of US \$491,449, consisting of US \$278,800, plus agency support costs of US \$36,244, for UNEP and US \$161,885, plus agency support costs of US \$14,570, for UNDP, as reflected in the schedule contained in annex XL to the present report;
- (b) To note:
 - (i) That the Government of Cambodia would establish its starting point for sustained aggregate reductions in HFC consumption on the basis of guidance provided by the Executive Committee;
 - (ii) That, once the cost guidelines for HFC phase-down had been agreed by the Executive Committee, the reductions from the country's remaining HFC consumption eligible for funding would be determined in accordance with those guidelines;
 - (iii) That the reductions from the country's remaining HFC consumption eligible for funding referred to in subparagraph (b)(ii) above would be deducted from the starting point referred to in subparagraph (b)(i) above;
 - (iv) That upon completion of the end-user technology demonstration project in the commercial refrigeration sector included in stage I of the KIP, UNDP would submit a final report on the implementation of the project, including the HFC phase-out and energy-efficiency gains achieved, in line with subparagraph (g) of decision 92/36;
- (c) To note also:
 - (i) That the Government of Cambodia would continue to monitor its HFC consumption to understand the extent to which reported consumption in baseline years was representative of the local market's needs and to assess what future HFC demand would be, and would provide that analysis when submitting the second tranche of its KIP;
 - (ii) That, on the basis of the information provided in subparagraph (c)(i) above, the maximum allowable consumption limits for the remaining years of stage I of the KIP, as contained in Appendix 2-A to the future Agreement between the Government of the Cambodia and the Executive Committee would be revised when the Committee considered the second tranche of the KIP;
- (d) To approve the first tranche of stage I of the KIP for Cambodia and the corresponding tranche implementation plan, in the amount of US \$277,672, consisting of US \$126,300, plus agency support costs of US \$16,419, for UNEP and US \$123,810, plus agency support costs of US \$11,143, for UNDP; and
- (e) To request the Government of Cambodia, UNEP, UNDP and the Secretariat to finalize the draft Agreement between the Government of the Cambodia and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex

referred to in subparagraph (a) above, and to submit it at a future meeting once the KIP Agreement template had been approved by the Executive Committee.

CAMEROON
KIP for Cameroon

The Ninety-second Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Cameroon for the period 2023–2030 to reduce HFC consumption by at least 30 per cent of the country's estimated baseline in 2030, in the amount of US \$1,211,500, plus agency support costs of US \$84,805, for UNIDO, as reflected in the schedule contained in annex XIX to the present report;
- (b) To note:
 - (i) That the Government of Cameroon would establish its starting point for sustained aggregate reductions in HFC consumption on the basis of guidance provided by the Executive Committee;
 - (ii) That, once the cost guidelines for HFC phase-down that determined the level and modalities of funding for the servicing sector for Article 5 countries had been agreed by the Executive Committee, the reductions from the country's remaining HFC consumption eligible for funding would be determined in line with those guidelines;
 - (iii) That the reductions from the country's remaining HFC consumption eligible for funding referred to in subparagraph (b)(ii) above would be deducted from the starting point referred to in subparagraph (b)(i) above;
- (c) To approve the first tranche of stage I of the KIP for Cameroon and the corresponding tranche implementation plan, in the amount of US \$355,500, plus agency support costs of US \$24,885, for UNIDO; and
- (d) To request the Government of Cameroon, UNIDO and the Secretariat to finalize the draft Agreement between the Government of Cameroon and the Executive Committee for the reduction in consumption of HFCs, including the relevant information on stage I of the KIP for Cameroon contained in the annex referred to in subparagraph (a) above, and submit it to a future meeting once the draft Agreement template had been approved by the Executive Committee.

CHILE
KIP for Chile

The Ninety-third Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Chile for the period 2023–2030 to reduce, by 2029, HFC consumption by 10 per cent of the country's baseline, in the amount of US \$1,868,171, consisting of US \$1,477,711, plus agency support costs of US \$103,440, for UNDP and US \$254,000, plus agency support costs of US \$33,020, for UNEP, as reflected in the schedule contained in annex XLI to the present report;
- (b) To note that the implementation of stage I of the KIP would result in the reduction of 308.68 metric tonnes or 847,086 carbon dioxide-equivalent tonnes of HFCs;
- (c) To note also:
 - (i) That the Government of Chile would establish its starting point for sustained aggregate reductions in HFC consumption on the basis of guidance provided by the Executive Committee;
 - (ii) That, once the cost guidelines for HFC phase-down had been agreed by the Executive Committee, the reductions from the country's remaining HFC consumption eligible for funding would be determined according to those guidelines;
 - (iii) That the reductions from the country's remaining HFC consumption eligible for funding referred to in subparagraphs (b) and (c)(ii) above would be deducted from the starting point referred to in subparagraph (c)(i) above;
- (d) To approve the first tranche of stage I of the KIP for Chile, and the corresponding tranche implementation plan, in the amount of US \$945,297, consisting of US \$752,607, plus agency support costs of US \$52,683, for UNDP and US \$123,900, plus agency support costs of US \$16,107, for UNEP; and
- (e) To request the Government of Chile, UNDP, UNEP and the Secretariat to finalize the draft Agreement between the Government of the Chile and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

CONGO (the)
KIP for Congo (the)

The Ninety-third Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for the Congo for the period 2023–2030 to reduce, by 2029, HFC consumption by 10 per cent of the country's average HFC consumption in the baseline years (i.e. 48.7 per cent of the country's baseline), in the amount of US \$257,640, consisting of US \$177,000, plus agency support costs of US \$23,010, for UNIDO and US \$51,000, plus agency support costs of US \$6,630, for UNEP, as reflected in the schedule contained in annex XLII to the present report;
- (b) To approve the first tranche of stage I of the KIP for the Congo, and the corresponding tranche implementation plan, in the amount of US \$92,096, consisting of US \$67,750, plus agency support costs of US \$8,808, for UNIDO and US \$13,750, plus agency support costs of US \$1,788, for UNEP; and
- (c) To request the Government of the Congo, UNIDO and UNEP and the Secretariat to finalize the draft Agreement between the Government of the Congo and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

CUBA
KIP for Cuba

The Ninety-third Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Cuba for the period 2023–2029 to reduce, by 2029, HFC consumption by 10 per cent of the country's baseline, in the amount of US \$325,000, plus agency support costs of US \$42,250, for UNDP, as reflected in the schedule contained in annex XLIII to the present report;
- (b) To note:
 - (i) That the Government of Cuba would establish its starting point for sustained aggregate reductions in HFC consumption on the basis of guidance provided by the Executive Committee;
 - (ii) That, once the cost guidelines for HFC phase-down had been agreed by the Executive Committee, the reductions from the country's remaining HFC consumption eligible for funding would be determined in accordance with those guidelines;
 - (iii) That the reductions from the country's remaining HFC consumption eligible for funding referred to in subparagraph (b)(ii) above would be deducted from the starting point referred to in subparagraph (b)(i) above;
 - (iv) That, if the HFC consumption level for Cuba in any of the years 2024 to 2025 was above the Montreal Protocol control limits or the maximum allowable consumption in the future Agreement between the Government of Cuba and the Executive Committee, on the understanding that the Government of Cuba would continue to make every effort to meet those control limits, the Secretariat would inform and seek guidance from the Executive Committee on the procedure to follow in light of decision XXXV/16;
 - (v) That, during the implementation of stage I of the KIP, the Government of Cuba would be allowed, on an exceptional basis, to submit investment projects in the refrigeration and air-conditioning sector to achieve additional HFC reductions;
 - (vi) That a project to phase out HFCs contained in imported pre-blended polyols in the polyurethane foam sector in Cuba would be subject to the decision taken by the Committee on whether it would fund the phase-out of HFCs contained in imported pre-blended polyols;
 - (vii) That, upon completion of the end-user technology demonstration project in the commercial refrigeration sector included in stage I of the KIP, UNDP would submit a final report on the implementation of the project, including the HFC phase-out and energy-efficiency gains achieved, in line with subparagraph (g) of decision 92/36;
- (c) To approve the first tranche of stage I of the KIP for Cuba, and the corresponding tranche implementation plan, in the amount of US \$160,000, plus agency support costs of US \$20,800, for UNDP; and
- (d) To request the Government of Cuba, UNDP and the Secretariat to finalize the draft Agreement between the Government of Cuba and the Executive Committee for the

reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

DOMINICAN REPUBLIC
KIP for Dominican Republic

The Ninety-third Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for the Dominican Republic for the period 2023–2029 to reduce, by 2029, HFC consumption by 10 per cent of the country's baseline, in the amount of US \$1,274,702, consisting of US \$794,168, plus agency support costs of US \$55,592, for UNDP, US \$269,949, plus agency support costs of US \$35,093, for UNEP and US \$110,000, plus agency support costs of US \$9,900, for UNIDO, as reflected in the schedule contained in annex XLIV to the present report;
- (b) To note:
 - (i) That, in line with decision 81/57, stage I of the KIP included an additional US \$144,709, consisting of US \$49,825, plus agency support costs of US \$4,484, for UNDP and US \$80,000, plus agency support costs of US \$10,400, for the Government of Canada, related to the project approved at the 81st meeting to phase out 4.01 metric tonnes (5,734.3 carbon dioxide-equivalent tonnes) of HFC-134a and 0.15 metric tonnes (588.3 carbon dioxide-equivalent tonnes) of R-404A at the commercial refrigerator manufacturing enterprise Fábrica de Refrigeradores Comerciales, SRL (FARCO);
 - (ii) That the Government of the Dominican Republic would establish its starting point for sustained aggregate reductions in HFC consumption on the basis of guidance provided by the Executive Committee;
 - (iii) That, once the cost guidelines for HFC phase-down had been agreed by the Executive Committee, the reductions from the country's remaining HFC consumption eligible for funding would be determined in accordance with the guidelines;
 - (iv) That the reductions from the country's remaining HFC consumption eligible for funding referred to in subparagraph (b)(iii) above would be deducted from the starting point referred to in subparagraph (b)(ii) above;
- (c) To note also:
 - (i) That the Government of the Dominican Republic would continue to monitor its HFC consumption to understand the extent to which reported consumption in the baseline years was representative of the local market's needs and to assess what HFC demand would be, and would provide that analysis when submitting the second tranche of its KIP;
 - (ii) That, on the basis of the information provided in subparagraph (c)(i) above, the maximum allowable consumption limits for the remaining years of stage I of the KIP, as contained in Appendix 2-A to the future Agreement between the Government of the Dominican Republic and the Executive Committee would be revised when the Committee considered the second tranche of the KIP;
- (d) To approve the first tranche of stage I of the KIP for the Dominican Republic, and the corresponding tranche implementation plan, in the amount of US \$581,693, consisting of US \$365,106, plus agency support costs of US \$25,557, for UNDP, US \$120,774, plus

agency support costs of US \$15,701, for UNEP and US \$50,050, plus agency support costs of US \$4,505, for UNIDO; and

- (e) To request the Government of the Dominican Republic, UNDP, UNEP, UNIDO and the Secretariat to finalize the draft Agreement between the Government of the Dominican Republic and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

(UNEP/OzL.Pro/ExCom/93/105, Decision 93/60).

(Supporting document: UNEP/OzL.Pro/ExCom/93/105, Annex XLIV).

SCHEDULE OF HFC PHASE-DOWN COMMITMENTS AND FUNDING TRanches UNDER
THE KIGALI HFC IMPLEMENTATION PLAN FOR THE DOMINICAN REPUBLIC

Kigali HFC implementation plan (stage I)*

Row	Particulars	2023	2024	2025	2026	2027	2028	2029	Total
1.1	Montreal Protocol reduction schedule of Annex F substances (CO ₂ -eq tonnes)	n/a	3,834,205	3,834,205	3,834,205	3,834,205	3,834,205	3,450,785	n/a
1.2	Maximum allowable total consumption of Annex F substances (CO ₂ -eq tonnes)	n/a	3,834,205	3,834,205	3,834,205	3,834,205	3,834,205	3,450,785	n/a
2.1	Lead IA (UNDP) agreed funding (US \$)	365,106	0	0	368,223	0	0	60,839	794,168
2.2	Support costs for Lead IA (US \$)	25,557	0	0	25,776	0	0	4,259	55,592
2.3	Cooperating IA (UNEP) agreed funding (US \$)	120,774	0	0	103,272	0	0	45,903	269,949
2.4	Support costs for Cooperating IA (US \$)	15,701	0	0	13,425	0	0	5,967	35,093
2.5	Cooperating IA (UNIDO) agreed funding (US \$)	50,050	0	0	49,280	0	0	10,670	110,000
2.6	Support costs for Cooperating IA (US \$)	4,505	0	0	4,435	0	0	960	9,900
3.1	Total agreed funding (US \$)	535,930	0	0	520,775	0	0	117,412	1,174,117
3.2	Total support costs (US \$)	45,763	0	0	43,636	0	0	11,186	100,585
3.3	Total agreed costs (US \$)	581,693	0	0	564,411	0	0	128,598	1,274,702

* Noting that 4.01 mt (5,734.3 CO₂-eq tonnes) of HFC-134a and 0.15 mt (588.3 CO₂-eq tonnes) of R-404A would be deducted from the starting point for sustained aggregate reduction in HFCs once it has been established (decision 81/57)

ECUADOR
KIP for Ecuador

The Ninety-third Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Ecuador for the period 2023–2029 to reduce, by 2029, HFC consumption by 14 per cent of the country's baseline, in the amount of US \$729,944, plus agency support costs of US \$51,096, for UNIDO, as reflected in the schedule contained in annex XLV to the present report;
- (b) To note:
 - (i) That in line with decision 91/59, stage I of the KIP included an additional US \$267,885, plus agency support costs of US \$18,752, for UNIDO, related to the project approved at the 91st meeting to phase out 10.42 metric tonnes (14,901 carbon dioxide-equivalent tonnes) of HFC-134a at the commercial and domestic refrigerator manufacturing facility at Induglob;
 - (ii) That the Government of Ecuador would establish its starting point for sustained aggregate reductions in HFC consumption on the basis of guidance provided by the Executive Committee;
 - (iii) That, once the cost guidelines for HFC phase-down had been agreed by the Executive Committee, the reductions from the country's remaining HFC consumption eligible for funding would be determined in accordance with those guidelines;
 - (iv) That the reductions from the country's remaining HFC consumption eligible for funding, referred to in subparagraph (b)(iii) above, would be deducted from the starting point referred to in subparagraph (b)(ii) above;
- (c) To approve the first tranche of stage I of the KIP for Ecuador, and the corresponding tranche implementation plan, in the amount of US \$292,600, plus agency support costs of US \$20,482, for UNIDO; and
- (d) To request the Government of Ecuador, UNIDO and the Secretariat to finalize the draft Agreement between the Government of Ecuador and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

(UNEP/OzL.Pro/ExCom/93/105, Decision 93/61).

* Conversion of one commercial and domestic refrigerator manufacturing line at Induglob approved at the 91st meeting (decision 91/59) to phase-out 14,901 CO₂-eq tonnes (10.42 mt) of HFC-134a.

EL SALVADOR
KIP for El Salvador

The Ninety-fourth Meeting of the Executive Committee decided:

- (a) To approve:
 - (i) In principle, stage I of the Kigali HFC implementation plan (KIP) for El Salvador for the period 2024-2029 to reduce HFC consumption by 10 per cent of the country's baseline by 2029, in the amount of US \$360,000, plus agency support costs of US \$46,800 for UNDP, as reflected in the schedule contained in annex XXXIII to the present report, on the understanding that the schedule, in particular rows 1.1 and 1.2, would be revised accordingly on the basis of the approval by the Thirty-Sixth Meeting of the Parties of the revision of the consumption data in the baseline years;
 - (ii) The first tranche of stage I of the KIP for El Salvador, and the corresponding tranche implementation plan, in the amount of US \$180,000, plus agency support costs of US \$23,400 for UNDP; and
- (b) To request the Government of El Salvador, UNDP and the Secretariat to finalize the draft Agreement between the Government of El Salvador and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

(UNEP/OzL.Pro/ExCom/94/67, Decision 94/41).

ESWATINI
KIP for Eswatini

The Ninety-fourth Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Eswatini for the period 2024–2030 to reduce HFC consumption by 10 per cent of the country's baseline by 2029, in the amount of US \$163,850, consisting of US \$115,000, plus agency support costs of US \$14,950, for UNEP and US \$30,000, plus agency support costs of US \$3,900, for UNDP, as reflected in the schedule contained in annex XXXIV to the present report;
- (b) To note that, upon completion of the end-user technology demonstration project included in stage I of the KIP, UNDP would submit a final report on the implementation of the project, including the HFC phase-out and energy-efficiency gains achieved, in line with decision 92/36(g);
- (c) To approve the first tranche of stage I of the KIP for Eswatini, and the corresponding tranche implementation plan, in the amount of US \$63,500, plus agency support costs of US \$8,255, for UNEP; and
- (d) To request the Government of Eswatini, UNEP, UNDP and the Secretariat to finalize the draft Agreement between the Government of Eswatini and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

GAMBIA
KIP for Gambia

The Ninety-fourth Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for the Gambia for the period 2024–2029 to reduce HFC consumption by 10 per cent of the country's baseline by 2029, in the amount of US \$192,100, consisting of US \$92,400, plus agency support costs of US \$12,012, for UNEP and US \$77,600, plus agency support costs of US \$10,088, for UNIDO, as reflected in the schedule contained in annex XXXV to the present report, on the understanding that the Government of the Gambia would notify the Ozone Secretariat that it was withdrawing its request for the high-ambient temperature (HAT) exemption;
- (b) To note:
 - (i) The commitment of the Government of the Gambia to implement a ban on the import of domestic refrigeration and commercial stand-alone refrigeration units using HFCs by 1 January 2025 and to revise relevant regulations to include a ban on the use of HFCs in fire suppression, foam, aerosol, and solvent sectors in the country by January 2026;
 - (ii) That, upon completion of the end-user technology demonstration project in commercial refrigeration included in stage I of the KIP, UNIDO would submit a final report on its implementation, including the HFC phase-out and energy-efficiency gains achieved, in line with decision 92/36(g);
- (c) To note also:
 - (i) That the Government of the Gambia would continue to monitor its HFC consumption to understand the extent to which consumption reported in baseline years was representative of the local market's needs and assess what future HFC demand would be, and that it would provide that analysis when submitting the second tranche of the KIP;
 - (ii) That, on the basis of the information provided in subparagraph (c)(i) above, the maximum allowable consumption limits for the remaining years of stage I of the KIP, as contained in Appendix 2-A to the future Agreement between the Government of the Gambia and the Executive Committee, would be revised, if appropriate, when the Committee considered the second tranche of the KIP;
- (d) To approve the first tranche of stage I of the KIP for the Gambia, and the corresponding tranche implementation plan, in the amount of US \$90,570, consisting of US \$50,150, plus agency support costs of US \$6,520, for UNEP and US \$30,000, plus agency support costs of US \$3,900, for UNIDO, on the understanding that UNEP and UNIDO would not disburse the approved funds until the Government of the Gambia had notified the Ozone Secretariat that it was withdrawing its request for the HAT exemption; and
- (e) To request the Government of the Gambia, UNEP, UNIDO and the Secretariat to finalize the draft Agreement between the Government of the Gambia and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

Annex XXXV

**SCHEDULE OF HFC COMMITMENTS AND FUNDING TRANCHES
UNDER THE KIGALI HFC IMPLEMENTATION PLAN FOR THE GAMBIA**

Kigali HFC implementation plan (stage I)

Row	Particulars	2024	2025	2026	2027	2028	2029	Total
1.1	Montreal Protocol reduction schedule of Annex F substances (CO ₂ -eq tonnes)	271,515	271,515	271,515	271,515	271,515	244,363	n/a
1.2	Maximum allowable total consumption of Annex F substances (CO ₂ -eq tonnes)	271,515	271,515	271,515	271,515	271,515	244,363	n/a
2.1	Lead IA (UNEP) agreed funding (US \$)	50,150	0	0	42,250	0	0	92,400
2.2	Support costs for Lead IA (US \$)	6,520	0	0	5,492	0	0	12,012
2.3	Cooperating IA (UNIDO) agreed funding (US \$)	30,000	0	0	47,600	0	0	77,600
2.4	Support costs for Cooperating IA (US \$)	3,900	0	0	6,188	0	0	10,088
3.1	Total agreed funding (US \$)	80,150	0	0	89,850	0	0	170,000
3.2	Total support costs (US \$)	10,420	0	0	11,680	0	0	22,100
3.3	Total agreed costs (US \$)	90,570	0	0	101,530	0	0	192,100

GHANA
KIP for Ghana

The Ninety-third Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Ghana for the period 2023–2030 to reduce HFC consumption by 57 per cent of the country's baseline between 2024 to 2028 and by 58 per cent between 2029 and 2030, in the amount of US \$367,250, consisting of US \$232,000, plus agency support costs of US \$30,160, for UNDP, and US \$93,000, plus agency support costs of US \$12,090, for UNEP, as reflected in the schedule contained in annex XLVI to the present report;
- (b) To note that, upon completion of the end-user technology demonstration project included in stage I of the KIP, UNDP would submit a final report on the implementation of the project, including the HFC phase-out and energy-efficiency gains achieved, in line with subparagraph (g) of decision 92/36;
- (c) To approve the first tranche of stage I of the KIP for Ghana, and the corresponding tranche implementation plan, in the amount of US \$212,440, consisting of US \$132,500, plus agency support costs of US \$17,225, for UNDP and US \$55,500, plus agency support costs of US \$7,215, for UNEP;
- (d) To request the Government of Ghana, UNDP, UNEP and the Secretariat to finalize the draft Agreement between the Government of Ghana and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee; and
- (e) To allow the Government of Ghana to submit a funding request for phasing down HFCs in the firefighting sector, for consideration by the Executive Committee in line with the agreed cost guidelines for that sector, when the Government had identified the consumption and revised the Article 7 and the country programme data.

(UNEP/OzL.Pro/ExCom/93/105, Decision 93/62).

GRENADA
KIP for Grenada

The Ninety-third Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Grenada for the period 2023–2030 to reduce, by 2029, HFC consumption by 10 per cent of the country's baseline, in the amount of US \$163,850, consisting of US \$87,842, plus agency support costs of US \$11,419, for UNEP and US \$57,158, plus agency support costs of US \$7,431, for UNDP, as reflected in the schedule contained in annex XLVII to the present report;
- (b) To note:
 - (i) That the Government of Grenada would continue to monitor its HFC consumption to understand the extent to which reported consumption in baseline years was representative of the local market's needs and to assess what future HFC demand would be, and would provide that analysis when submitting the second tranche of its KIP;
 - (ii) That, on the basis of the information provided in subparagraph (b)(i) above, the maximum allowable consumption limits for the remaining years of stage I of the KIP, as contained in Appendix 2-A to the future Agreement between the Government of Grenada and the Executive Committee would be revised, if appropriate, when the Committee considered the second tranche of the KIP;
 - (iii) That, ahead of submission of the second tranche, the Government of Grenada would consider opportunities for more ambitious targets with respect to the maximum allowable consumption;
- (c) To approve the first tranche of stage I of the KIP for Grenada, and the corresponding tranche implementation plan, in the amount of US \$81,925, consisting of US \$27,500, plus agency support costs of US \$3,575, for UNEP and US \$45,000, plus agency support costs of US \$5,850, for UNDP; and
- (d) To request the Government of Grenada, UNEP, UNDP and the Secretariat to finalize the draft Agreement between the Government of Grenada and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

(UNEP/OzL.Pro/ExCom/93/105, Decision 93/63).

(Supporting document: UNEP/OzL.Pro/ExCom/93/105, Annex XLVII).

HONDURAS
KIP for Honduras

The Ninety-fourth Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Honduras for the period 2024–2029 to reduce HFC consumption by 15.5 per cent of the country's baseline by 2029, in the amount of US \$648,915, consisting of US \$432,210, plus agency support costs of US \$30,255, for UNIDO and US \$165,000, plus agency support costs of US \$21,450, for UNEP, as reflected in the schedule contained in annex XXXVI to the present report;
- (b) To note:
 - (i) That the Government of Honduras would establish its starting point for sustained aggregate reductions in HFC consumption on the basis of guidance provided by the Executive Committee;
 - (ii) That, once the cost guidelines for HFC phase-down had been agreed by the Executive Committee, reductions from the country's remaining HFC consumption eligible for funding would be determined in line with those guidelines;
 - (iii) That the reductions from the country's remaining HFC consumption eligible for funding referred to in subparagraph (b)(ii) above would be deducted from the starting point referred to in subparagraph (b)(i);
- (c) To note also:
 - (i) The strong commitment of the Government of Honduras to support reductions in HFC consumption in advance of the Montreal Protocol targets;
 - (ii) The commitment from the Government of Honduras to issue a ban on the imports of used HFC-based domestic refrigerators from 1 January 2029;
 - (iii) That the Government of Honduras had made a request to the Ozone Secretariat for correction of its Article 7 data for the years 2021 and 2022, and that, once those changes had been approved by the Meeting of the Parties, the Secretariat and UNIDO would adjust the HFC consumption baseline and maximum allowable consumption, as relevant, in the KIP Agreement between the Government of Honduras and the Executive Committee;
- (d) To approve the first tranche of stage I of the KIP for Honduras, and the corresponding tranche implementation plan, in the amount of US \$321,903, consisting of US \$226,918, plus agency support costs of US \$15,885, for UNIDO and US \$70,000, plus agency support costs of US \$9,100, for UNEP; and
- (e) To request the Government of Honduras, UNIDO, UNEP and the Secretariat to finalize the draft Agreement between the Government of Honduras and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

(UNEP/OzL.Pro/ExCom/94/67, Decision 94/44).

JORDAN
KIP for Jordan

The Ninety-third Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Jordan for the period 2023–2030 to reduce, by 2030, HFC consumption by 54 per cent of the country's baseline, in the amount of US \$4,840,083, plus agency support costs of US \$338,806, for UNIDO, as reflected in the schedule contained in annex XLVIII to the present report;
- (b) To note:
 - (i) That, in line with decision 81/62, stage I of the KIP included an additional US \$1,637,610, plus agency support costs of US \$114,633, for UNIDO, related to the project approved at the 81st meeting to phase out 36.25 metric tonnes (51,837.5 carbon dioxide-equivalent tonnes) of HFC-134a, 39.75 metric tonnes (70,516.5 carbon dioxide-equivalent tonnes) of R-407C and 42.70 metric tonnes (89,175.6 carbon dioxide-equivalent tonnes) of R-410A in the manufacture of large commercial unitary roof-top air-conditioning units of up to 400 kilowatts at Petra Engineering Industries Co.;
 - (ii) That the Government of Jordan would establish its starting point for sustained aggregate reductions in HFC consumption on the basis of guidance provided by the Executive Committee;
 - (iii) That, once the cost guidelines for HFC phase-down had been agreed by the Executive Committee, the reductions from the country's remaining HFC consumption eligible for funding would be determined in accordance with those guidelines;
 - (iv) That the reductions from the country's remaining HFC consumption eligible for funding referred to in subparagraph (b)(iii) above would be deducted from the starting point referred to in subparagraph (b) (ii) above;
 - (v) The commitment of the Government of Jordan to ban the import and manufacture of HFC-based domestic refrigeration equipment upon completion of the conversion projects in the subsector;
- (c) To note also that, in line with the request from the Government of Jordan, UNDP would be added to stage I of the KIP as a cooperating agency when the second tranche was submitted;
- (d) To approve the first tranche of stage I of the KIP for Jordan, and the corresponding tranche implementation plan, in the amount of US \$2,540,680, plus agency support costs of US \$177,848, for UNIDO; and
- (e) To request the Government of Jordan, UNIDO and the Secretariat to finalize the draft Agreement between the Government of Jordan and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

Annex XLVIII

**SCHEDULE OF HFC PHASE-DOWN COMMITMENTS AND FUNDING TRANCHES
UNDER THE KIGALI HFC IMPLEMENTATION PLAN FOR JORDAN**

Kigali HFC implementation plan (stage I)*

Row	Particulars	2023	2024	2025	2026	2027	2028	2029	2030	Total
1.1	Montreal Protocol reduction schedule of Annex F substances (CO ₂ -eq tonnes)	n/a	2,808,101	2,808,101	2,808,101	2,808,101	2,808,101	2,527,291	2,527,291	n/a
1.2	Maximum allowable total consumption of Annex F substances (CO ₂ -eq tonnes)	n/a	1,809,703	1,707,013	1,596,587	1,492,613	1,393,191	1,367,791	1,278,531	n/a
2.1	Lead IA (UNIDO) agreed funding (US \$)	2,540,680	0	0	0	1,802,170	0	0	497,233	4,840,083
2.2	Support costs for Lead IA (US \$)	177,848	0	0	0	126,152	0	0	34,806	338,806
3.1	Total agreed funding (US \$)	2,540,680	0	0	0	1,802,170	0	0	497,233	4,840,083
3.2	Total support costs (US \$)	177,848	0	0	0	126,152	0	0	34,806	338,806
3.3	Total agreed costs (US \$)	2,718,528	0	0	0	1,928,322	0	0	532,039	5,178,889

* Noting that 36.25 mt (51,837.5 CO₂-eq tonnes) of HFC-134a, 39.75 mt (70,516.5 CO₂-eq tonnes) of R-407C, and 42.70 mt (89,175.6 CO₂-eq tonnes) of R-410A would be deducted from the starting point for sustained aggregate reduction in HFCs once it has been established (decision 81/62).

KYRGYZSTAN
KIP for Kyrgyzstan

The Ninety-third Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Kyrgyzstan for the period 2023–2029 to reduce, by 2029, HFC consumption by 10 per cent of the country's baseline, in the amount of US \$214,700, consisting of US \$130,000, plus agency support costs of US \$16,900, for UNDP and US \$60,000, plus agency support costs of US \$7,800, for UNEP, as reflected in the schedule contained in annex XLIX to the present report;
- (b) To note that the schedule of tranches contained in the annex referred to in subparagraph (a) above had been approved on an exceptional basis as the HFC consumption in the servicing sector in Kyrgyzstan in the baseline years was below 360 metric tonnes and the country had already completed its HCFC phase-out management plan;
- (c) To note also that the next verification report to be submitted under the country's KIP would include verification of HFC and HCFC consumption, and that, in the unlikely event of non-compliance by the Government with its HCFC Agreement with the Executive Committee, relevant actions to be taken would be considered by the Executive Committee;
- (d) To approve the first tranche of stage I of the KIP for Kyrgyzstan, and the corresponding tranche implementation plan, in the amount of US \$91,530, consisting of US \$51,000, plus agency support costs of US \$6,630, for UNDP and US \$30,000, plus agency support costs of US \$3,900, for UNEP; and
- (e) To request the Government of Kyrgyzstan, UNDP, UNEP and the Secretariat to finalize the draft Agreement between the Government of Kyrgyzstan and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

(UNEP/OzL.Pro/ExCom/93/105, Decision 93/65).

(Supporting document: UNEP/OzL.Pro/ExCom/93/105, Annex XLIX).

LAO PEOPLE'S DEMOCRATIC REPUBLIC
KIP for Lao People's Democratic Republic

The Ninety-fourth Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for the Lao People's Democratic Republic for the period 2024–2030 to reduce HFC consumption by at least 10 per cent of the country's baseline by 2029, in the amount of US \$214,700, consisting of US \$114,000, plus agency support costs of US \$14,820, for UNEP and US \$76,000, plus agency support costs of US \$9,880, for UNDP, as reflected in the schedule contained in annex XXXVII to the present report;
- (b) To note:
 - (i) That the Government of the Lao People's Democratic Republic would continue to monitor its HFC consumption to understand the extent to which reported consumption in baseline years was representative of the local market's needs and to assess what future HFC demand would be and would provide that analysis in submitting the second tranche of its KIP;
 - (ii) That, on the basis of the information provided in subparagraph (b)(i) above, the maximum allowable consumption limits for the remaining years of stage I of the KIP, as contained in Appendix 2-A to the future Agreement between the Government of the Lao People's Democratic Republic and the Executive Committee, would be revised, if appropriate, when the Committee considered the second tranche of the KIP;
- (c) To approve the first tranche of stage I of the KIP for the Lao People's Democratic Republic, and the corresponding tranche implementation plan, in the amount of US \$124,300, consisting of US \$34,000, plus agency support costs of US \$4,420, for UNEP and US \$76,000, plus agency support costs of US \$9,880, for UNDP; and
- (d) To request the Government of the Lao People's Democratic Republic, UNEP, UNDP and the Secretariat to finalize the draft Agreement between the Government of the Lao People's Democratic Republic and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

(UNEP/OzL.Pro/ExCom/94/67, Decision 94/45).

LIBERIA
KIP for Liberia

The Ninety-fourth Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Liberia for the period 2024–2029 to reduce HFC consumption by 32 per cent of the country's baseline by 2029, in the amount of US \$145,000, plus agency support costs of US \$18,850, for the Government of Germany, as reflected in the schedule contained in annex XXXVIII to the meeting report;
- (b) To note:
 - (i) The commitment of the Government of Liberia to reduce HFC consumption from the country's baseline by 28 per cent by 1 January 2025, 30 per cent by 1 January 2027 and 32 per cent by 1 January 2029;
 - (ii) That, if the revision of the HFC consumption data for 2020 to 2022 were approved by the Thirty-Sixth Meeting of the Parties, the Executive Committee would consider, at its 95th meeting, approval of the additional US \$20,000 requested for technical assistance in the firefighting sector and associated support costs and revision of the funding approved in principle, as well as the tranche funding levels and Montreal Protocol targets reflected in annex referred to subparagraph (a) above;
- (c) To note also that upon, completion of the incentive scheme for R-290-based air conditioners included in stage I of the KIP, the Government of Germany would submit a final report on the implementation of the project, including the HFC phase-out and energy-efficiency gains achieved, in line with decision 92/36(g);
- (d) To approve the first tranche of stage I of the KIP for Liberia, and the corresponding tranche implementation plan, in the amount of US \$72,500, plus agency support costs of US \$9,425, for the Government of Germany; and
- (e) To request the Government of Liberia, the Government of Germany and the Secretariat to finalize the draft Agreement between the Government of Liberia and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

MALAWI
KIP for Malawi

The Ninety-third Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Malawi for the period 2023–2030 to reduce, by 2030, HFC consumption by 54 per cent of the country's baseline, in the amount of US \$211,310, consisting of US \$114,200, plus agency support costs of US \$14,846, for UNEP and US \$72,800, plus agency support costs of US \$9,464, for UNIDO, as reflected in the schedule contained in annex L to the present report, taking into consideration the ambitious consumption reduction target of the Government of Malawi;
- (b) To note that the approval for stage I of the KIP included an additional 10 per cent above the levels of funding agreed in subparagraph b(ii) of decision 92/37, as an incentive for the ambitious reduction targets that the Government of Malawi aimed to achieve compared to the Montreal Protocol schedule;
- (c) To note that, upon completion of the end-user technology demonstration project included in stage I of the KIP, UNIDO would submit a final report on the implementation of the project, including the HFC phase-out and energy-efficiency gains achieved, in line with subparagraph (g) of decision 92/36;
- (d) To approve the first tranche of stage I of the KIP for Malawi, and the corresponding tranche implementation plan, in the amount of US \$76,840, consisting of US \$39,000, plus agency support costs of US \$5,070, for UNEP and US \$29,000, plus agency support costs of US \$3,770, for UNIDO; and
- (e) To request the Government of Malawi, UNEP, UNIDO and the Secretariat to finalize the draft Agreement between the Government of Malawi and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

MALAYSIA
KIP for Malaysia

The Ninety-third Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Malaysia for the period 2023–2029 to reduce, by 2029, HFC consumption by 10 per cent of the country's baseline, in the amount of US \$9,275,115, plus agency support costs of US \$649,258 for World Bank, as reflected in the schedule contained in annex LI to the present report;
- (b) To note:
 - (i) That the Government of Malaysia would establish its starting point for sustained aggregate reductions in HFC consumption on the basis of guidance provided by the Executive Committee;
 - (ii) That, once the cost guidelines for HFC phase-down had been agreed by the Executive Committee, the reductions from the country's remaining HFC consumption eligible for funding would be determined in accordance with those guidelines;
 - (iii) That the reductions from the country's remaining HFC consumption eligible for funding referred to in subparagraph (b)(ii) above would be deducted from the starting point referred to in subparagraph (b)(i) above;
 - (iv) That the Government of Malaysia would continue to monitor its HFC consumption to understand the extent to which reported consumption in baseline years was representative of the local market's needs and to assess what future HFC demand would be, and would provide that analysis when submitting the second tranche of its KIP;
 - (v) That, on the basis of the information provided in subparagraph (b) (iv) above, the Executive Committee might, as appropriate, revisit the country's starting point for sustained aggregate reductions in HFC consumption;
 - (vi) That the Government of Malaysia would continue to monitor imports of large new market entrants in 2022 and include any relevant information in the request for the second tranche;
 - (vii) The commitment of the Government:
 - a. To ban the installation of new HFC-23- and HFC-125-based fire suppression systems by 1 January 2026;
 - b. To ban, by 1 January 2029, the manufacturing and import of the following equipment: HFC-based stand-alone commercial refrigeration equipment; HFC-based domestic refrigeration; components for refrigerated transport using HFC-134a, R-452A and R-404A; and split air conditioners and heat pumps using R-407C;
 - c. To ban, by 1 January 2029, new installations of chillers using R-407C;
 - (viii) That the car manufacturing enterprise Perusahaan Otomobil Nasional Sdn Bhd (Proton) would be eligible for further funding from the Multilateral Fund only for the phase-down of HFCs to convert the existing equipment on its second assembly line not assisted under stage I and for eligible incremental operating costs;
- (c) To approve the first tranche of stage I of the KIP for Malaysia, and the corresponding

tranche implementation plan, in the amount of US \$3,042,912, plus agency support costs of US \$213,004, for World Bank; and

- (d) To request the Government of Malaysia, World Bank and the Secretariat to finalize the draft Agreement between the Government of Malaysia and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

MONTENEGRO
KIP for Montenegro

The Ninety-fourth Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Montenegro for the period 2024–2029 to reduce HFC consumption by 10 per cent of the country's average HFC consumption in the baseline years (i.e. 19.43 per cent of the country's baseline) by 2029, in the amount of US \$189,600, plus agency support costs of US \$24,648, for UNIDO, as reflected in the schedule contained in annex XXXIX to the present report;
- (b) To note the strong commitment of the Government of Montenegro to support reductions in HFC consumption in advance of the Montreal Protocol targets;
- (c) To approve the first tranche of stage I of the KIP for Montenegro, and the corresponding tranche implementation plan, in the amount of US \$115,050, plus agency support costs of US \$14,956, for UNIDO; and
- (d) To request the Government of Montenegro, UNIDO and the Secretariat to finalize the draft Agreement between the Government of Montenegro and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

(UNEP/OzL.Pro/ExCom/94/67, Decision 94/47).

MOZAMBIQUE
KIP for Mozambique

The Ninety-fourth Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Mozambique for the period 2024–2030 to reduce HFC consumption by 10 per cent of the country's baseline by 2029, in the amount of US \$367,250, consisting of US \$207,000, plus agency support costs of US \$26,910, for UNEP and US \$118,000, plus agency support costs of US \$15,340, for UNDP, as reflected in the schedule contained in annex XL to the present report;
- (b) To note that, upon completion of the demonstration project in the air-conditioning sector included in stage I of the KIP, UNDP would submit a final report on its implementation, including the HFC phase-out and energy-efficiency gains achieved, in line with decision 92/36(g);
- (c) To note also:
 - (i) That the Government of Mozambique would continue to monitor its HFC consumption to understand the extent to which consumption reported in baseline years was representative of the local market's needs and assess what future HFC demand would be, and that it would provide that analysis when submitting the second tranche of the KIP;
 - (ii) That, on the basis of the information provided in subparagraph (c)(i) above, the maximum allowable consumption limits for the remaining years of stage I of the KIP, as contained in Appendix 2-A to the future Agreement between the Government of Mozambique and the Executive Committee, would be revised, if appropriate, when the Committee considered the second tranche of the KIP;
- (d) To approve the first tranche of stage I of the KIP for Mozambique, and the corresponding tranche implementation plan, in the amount of US \$191,535, consisting of US \$83,500, plus agency support costs of US \$10,855, for UNEP and US \$86,000, plus agency support costs of US \$11,180, for UNDP; and
- (e) To request the Government of Mozambique, UNEP, UNDP and the Secretariat to finalize the draft Agreement between the Government of Mozambique and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

(UNEP/OzL.Pro/ExCom/94/67, Decision 94/48).

NICARAGUA
KIP for Nicaragua

The Ninety-third Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Nicaragua for the period 2023–2030 to reduce, by 2029, HFC consumption by 10 per cent of the country’s baseline, in the amount of US \$367,250, consisting of US \$225,000, plus agency support costs of US \$29,250, for UNIDO and US \$100,000, plus agency support costs of US \$13,000, for UNEP, as reflected in the schedule contained in annex LIII to the present report;
- (b) To approve the first tranche of stage I of the KIP for Nicaragua, and the corresponding tranche implementation plan, in the amount of US \$224,870, consisting of US \$159,000, plus agency support costs of US \$20,670, for UNIDO and US \$40,000, plus agency support costs of US \$5,200, for UNEP; and
- (c) To request the Government of Nicaragua, UNIDO, UNEP and the Secretariat to finalize the draft Agreement between the Government of Nicaragua and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

(UNEP/OzL.Pro/ExCom/93/105, Decision 93/69).

NIGER
KIP for Niger

The Ninety-third Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for the Niger for the period 2023–2030 to reduce, by 2029, HFC consumption by 10 per cent of the country's average HFC consumption in the baseline years (i.e. 35.2 per cent of the country's baseline), in the amount of US \$488,160, consisting of US \$317,000, plus agency support costs of US \$41,210, for UNIDO and US \$115,000, plus agency support costs of US \$14,950, for UNEP, as reflected in the schedule contained in annex LIV to the present report;
- (b) To note that, upon completion of the end-user technology demonstration project included in stage I of the KIP, UNIDO would submit a final report on the implementation of the project, including the HFC phase-out and energy-efficiency gains achieved, in line with subparagraph (g) of decision 92/36;
- (c) To approve the first tranche of stage I of the KIP for the Niger, and the corresponding tranche implementation plan, in the amount of US \$169,500, consisting of US \$115,000, plus agency support costs of US \$14,950, for UNIDO and US \$35,000, plus agency support costs of US \$4,550, for UNEP, noting that, in line with subparagraph (b) of decision 91/58, the following portion of the approval had been transferred in advance to the implementing agencies at the 91st meeting: US \$80,000, plus agency support costs of US \$7,200, to UNIDO and US \$20,000, plus agency support costs of US \$2,600, to UNEP; and
- (d) To request the Government of the Niger, UNIDO, UNEP and the Secretariat to finalize the draft Agreement between the Government of the Niger and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

(UNEP/OzL.Pro/ExCom/93/105, Decision 93/70).

NORTH MACEDONIA
KIP for North Macedonia

The Ninety-third Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for North Macedonia for the period 2023–2029 to reduce, by 2029, HFC consumption by 10 per cent of its average HFC consumption in the baseline years (i.e. 18.7 per cent of the country's baseline), in the amount of US \$216,000, plus agency support costs of US \$28,080, for UNIDO, as reflected in the schedule contained in annex LV to the present report;
- (b) To note:
 - (i) That the Government of North Macedonia would establish its starting point for sustained aggregate reductions in HFC consumption on the basis of guidance provided by the Executive Committee;
 - (ii) That, once the cost guidelines for HFC phase-down had been agreed by the Executive Committee, the reductions from the country's remaining HFC consumption eligible for funding would be determined in accordance with those guidelines;
 - (iii) That the reductions from the country's remaining HFC consumption eligible for funding referred to in subparagraph (b)(ii) above would be deducted from the starting point referred to in subparagraph (b)(i) above;
 - (iv) That, during implementation of stage I of the KIP, the Government of North Macedonia would be allowed on an exceptional basis to submit a project to phase out the consumption of HFC-152a in the extruded polystyrene foam manufacturing sector;
- (c) To approve the first tranche of stage I of the KIP for North Macedonia, and the corresponding tranche implementation plan, in the amount of US \$103,555, plus agency support costs of US \$13,462, for UNIDO; and
- (d) To request the Government of North Macedonia, UNIDO and the Secretariat to finalize the draft Agreement between the Government of North Macedonia and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

PANAMA
KIP for Panama

The Ninety-third Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Panama for the period 2023–2029 to reduce, by 2029, HFC consumption by 10 per cent of the country's baseline, in the amount of US \$662,200, plus agency support costs of US \$46,354, for UNDP, as reflected in the schedule contained in annex LVI to the present report;
- (b) To note:
 - (i) That the Government of Panama would establish its starting point for sustained aggregate reductions in HFC consumption on the basis of guidance provided by the Executive Committee;
 - (ii) That, once the cost guidelines for HFC phase-down had been agreed by the Executive Committee, the reductions from the country's remaining HFC consumption eligible for funding would be determined in accordance with those guidelines;
 - (iii) That the reductions from the country's remaining HFC consumption eligible for funding referred to in subparagraph (b)(ii) above would be deducted from the starting point referred to in subparagraph (b)(i) above;
 - (iv) That, upon completion of the end-user technology demonstration projects in the commercial refrigeration sector included in stage I of the KIP, UNDP would submit a final report on the implementation of the projects, including the HFC phase-out and energy-efficiency gains achieved, in line with subparagraph (g) of decision 92/36;
- (c) To note also:
 - (i) That the Government of Panama would continue to monitor its HFC consumption to understand the extent to which reported consumption in baseline years was representative of the local market's needs and to assess what future HFC demand would be, and would provide that analysis when submitting the second tranche of the KIP;
 - (ii) That, on the basis of the information provided in subparagraph (c)(i) above, the maximum allowable consumption limits for the remaining years of stage I of the KIP, as contained in Appendix 2-A to the future Agreement between the Government of Panama and the Executive Committee would be revised when the Committee considered the second tranche of the KIP;
- (d) To approve the first tranche of stage I of the KIP for Panama, and the corresponding tranche implementation plan, in the amount of US \$331,100, plus agency support costs of US \$23,177, for UNDP; and
- (e) To request the Government of Panama, UNDP and the Secretariat to finalize the draft Agreement between the Government of Panama and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

(UNEP/OzL.Pro/ExCom/93/105, Decision 93/72).

PARAGUAY
KIP for Paraguay

The Ninety-fourth Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Paraguay for the period 2024–2029 to reduce HFC consumption by 10 per cent of the country's baseline by 2029, in the amount of US \$471,350, plus agency support costs of US \$32,995, for UNDP, as reflected in the schedule contained in annex XLI to the present report;
- (b) To note:
 - (i) That the Government of Paraguay would establish its starting point for sustained aggregate reductions in HFC consumption based on the guidance provided by the Executive Committee;
 - (ii) That, once the cost guidelines for HFC phase-down had been agreed by the Executive Committee, reductions from the country's remaining HFC consumption eligible for funding would be determined in line with those guidelines;
 - (iii) That the reductions from the country's remaining HFC consumption eligible for funding, referred to in subparagraph (b)(ii) above, would be deducted from the starting point referred to in subparagraph (b)(i);
 - (iv) That upon completion of the end-user technology demonstration project in the commercial refrigeration sector included in stage I of the KIP, UNDP would submit a final report on the implementation of the project, including the HFC phase-out and energy-efficiency gains achieved, in line with decision 92/36(g);
- (c) To note also:
 - (i) That the Government of Paraguay would continue to monitor HFC consumption to understand the extent to which consumption reported in baseline years was representative of the local market's needs and assess what future HFC demand would be, and that it would provide that analysis when submitting the second tranche of the KIP;
 - (ii) That, on the basis of the information provided in subparagraph (c)(i) above, the maximum allowable consumption limits for the remaining years of stage I of the KIP, as contained in Appendix 2-A to the future Agreement between the Government of Paraguay and the Executive Committee, would be revised, if appropriate, when the Committee considered the second tranche of the KIP;
- (d) To approve the first tranche of stage I of the KIP for Paraguay, and the corresponding tranche implementation plan, in the amount of US \$235,675, plus agency support costs of US \$16,497, for UNDP; and
- (e) To request the Government of Paraguay, UNDP and the Secretariat to finalize the draft Agreement between the Government of Paraguay and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

PERU
KIP for Peru

The Ninety-third Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Peru for the period 2023–2029 to reduce, by 2029, HFC consumption by 10 per cent of the country's baseline, in the amount of US \$628,998, plus agency support costs of US \$44,030, for UNDP, as reflected in the schedule contained in annex LVII to the present report;
- (b) To note:
 - (i) That the Government of Peru would establish its starting point for sustained aggregate reductions in HFC consumption on the basis of guidance provided by the Executive Committee;
 - (ii) That, once the cost guidelines for HFC phase-down had been agreed by the Executive Committee, the reductions from the country's remaining HFC consumption eligible for funding would be determined in accordance with those guidelines;
 - (iii) That the reductions from the country's remaining HFC consumption eligible for funding referred to in subparagraph (b)(ii) above would be deducted from the starting point referred to in subparagraph (b)(i) above;
 - (iv) That a project to phase out HFCs contained in imported pre-blended polyols in the polyurethane foam sector in Peru would be subject to the decision taken by the Committee on whether it would fund the phase-out of HFCs contained in imported pre-blended polyols;
 - (v) That, upon completion of the end-user technology demonstration project in the commercial refrigeration sector included in stage I of the KIP, UNDP would submit a final report on the implementation of the project, including the HFC phase-out and energy-efficiency gains achieved, in line with subparagraph (g) of decision 92/36;
- (c) To note also:
 - (i) That the Government of Peru would continue to monitor its HFC consumption to understand the extent to which reported consumption in the baseline years was representative of the local market's needs and to assess what future HFC demand would be, and would provide that analysis when submitting the second tranche of its KIP;
 - (ii) That, on the basis of the information provided in subparagraph (c)(i) above, the maximum allowable consumption limits for the remaining years of stage I of the KIP, as contained in Appendix 2-A to the country's future Agreement with the Executive Committee would be revised when the Committee considered the second tranche of the KIP;
- (d) To approve the first tranche of stage I of the KIP for Peru, and the corresponding tranche implementation plan, in the amount of US \$283,140, plus agency support costs of US \$19,820, for UNDP; and
- (e) To request the Government of Peru, UNDP and the Secretariat to finalize the draft

Agreement between the Government of Peru and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

SAINT LUCIA
KIP for Saint Lucia

The Ninety-fourth Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Saint Lucia for the period 2024–2029 to reduce HFC consumption by 10 per cent of the country's baseline by 2029, in the amount of US \$163,850, consisting of US \$94,000, plus agency support costs of US \$12,220, for UNEP and US \$51,000, plus agency support costs of US \$6,630, for UNIDO, as reflected in the schedule contained in annex XLII to the present report;
- (b) To note:
 - (i) That, if the HFC consumption level for Saint Lucia for the years 2024 or 2025 was above the Montreal Protocol control limits or the maximum allowable consumption in the future Agreement between the Government of Saint Lucia and the Executive Committee, on the understanding that the Government of Saint Lucia would continue to make every effort to meet those control limits, the Secretariat would inform and seek guidance from the Executive Committee on the procedure to follow in light of decision XXXV/16;
 - (ii) That UNEP and the Government of Saint Lucia would include an update on the status of development and enforcement of regulations to prohibit the import and sale of HFC-134a-based domestic refrigeration equipment in the request for the second tranche of stage I of the KIP;
- (c) To note also:
 - (i) That the Government of Saint Lucia would continue to monitor its HFC consumption to understand the extent to which consumption reported in baseline years was representative of the local market's needs and assess what future HFC demand would be, and that it would provide that analysis when submitting the second tranche of the KIP;
 - (ii) That, on the basis of the information provided in subparagraph (c)(i) above, the maximum allowable consumption limits for the remaining years of stage I of the KIP, as contained in Appendix 2-A to the future Agreement between the Government of Saint Lucia and the Executive Committee, would be revised, if appropriate, when the Committee considered the second tranche of the KIP;
- (d) To approve the first tranche of stage I of the KIP for Saint Lucia, and the corresponding tranche implementation plan, in the amount of US \$79,100, consisting of US \$43,000, plus agency support costs of US \$5,590, for UNEP and US \$27,000, plus agency support costs of US \$3,510, for UNIDO; and
- (e) To request the Government of Saint Lucia, UNEP, UNIDO and the Secretariat to finalize the draft Agreement between the Government of Saint Lucia and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

SEYCHELLES
KIP for Seychelles

The Ninety-fourth Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Seychelles for the period 2024–2029 to reduce HFC consumption by 10 per cent of the country's baseline by 2029, in the amount of US \$178,540, consisting of US \$85,260, plus agency support costs of US \$11,084, for UNEP and US \$72,740, plus agency support costs of US \$9,456, for the Government of Germany, as reflected in the schedule contained in annex XLIII to the present report;
- (b) To note that the Government planned to establish the following regulatory measures:
 - (i) A ban on the imports and sales of HFC-23, by 1 January 2027;
 - (ii) A ban on the imports and sales of HFCs and HFC blends with a global-warming potential above 3,000 in the fire suppression, foam, aerosol and solvent sectors, by January 2029;
- (c) To note also that, upon completion of the end-user project included in stage I of the KIP, the Government of Germany would submit a final report on the implementation of the project, including the HFC phase-out and energy-efficiency gains achieved, in line with decision 92/36(g);
- (d) To approve the first tranche of stage I of the KIP for Seychelles, and the corresponding tranche implementation plan, in the amount of US \$92,299, consisting of US \$64,836, plus agency support costs of US \$8,429, for UNEP and US \$16,844, plus agency support costs of US \$2,190, for the Government of Germany; and
- (e) To request the Government of Seychelles, UNEP, the Government of Germany and the Secretariat to finalize the draft Agreement between the Government of Seychelles and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

SIERRA LEONE
KIP for Sierra Leone

The Ninety-fourth Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Sierra Leone for the period 2024–2029 to reduce HFC consumption by 10 per cent of the country's baseline by 2029, in the amount of US \$203,400, consisting of US \$104,317, plus agency support costs of US \$13,561, for UNEP and US \$75,683, plus agency support costs of US \$9,839, for UNIDO, as reflected in the schedule contained in annex XLIV to the present report;
- (b) To note:
 - (i) The commitment of the Government of Sierra Leone to establish a ban on the import of domestic refrigeration and commercial stand-alone refrigeration units based on HFC-134a by 1 January 2025, a ban on the use of HFCs in the fire suppression, foam, aerosol and solvent sectors by 1 January 2026 and a ban on the import of split air conditioners based on R-410A by 1 January 2029;
 - (ii) That, upon completion of the end-user technology demonstration project in the commercial refrigeration sector included in stage I of the KIP, UNIDO would submit a final report on its implementation, including the HFC phase-out and energy-efficiency gains achieved, in line with decision 92/36(g);
- (c) To note also:
 - (i) That the Government of Sierra Leone would continue to monitor its HFC consumption to understand the extent to which consumption reported in baseline years was representative of the local market's needs and assess what future HFC demand would be and that it would provide that analysis when submitting the second tranche of the KIP;
 - (ii) That, on the basis of the information provided in subparagraph (c)(i) above, the maximum allowable consumption limits for the remaining years of stage I of the KIP, as contained in Appendix 2-A to the future Agreement between the Government of Sierra Leone and the Executive Committee, would be revised, if appropriate, when the Committee considered the second tranche of the KIP;
- (d) To approve the first tranche of stage I of the KIP for Sierra Leone, and the corresponding tranche implementation plan, in the amount of US \$97,745, consisting of US \$65,500, plus agency support costs of US \$8,515, for UNEP and US \$21,000, plus agency support costs of US \$2,730, for UNIDO; and
- (e) To request the Government of Sierra Leone, UNEP, UNIDO and the Secretariat to finalize the draft Agreement between the Government of Sierra Leone and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

TRINIDAD AND TOBAGO
KIP for Trinidad and Tobago

The Ninety-third Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Trinidad and Tobago for the period 2023–2029 to reduce, by 2029, HFC consumption by 10 per cent of the country's baseline, in the amount of US \$1,177,695, plus agency support costs of US \$82,439, for UNDP, as reflected in the schedule contained in annex LVIII to the present report;
- (b) To note:
 - (i) That the Government of Trinidad and Tobago would establish its starting point for sustained aggregate reductions in HFC consumption on the basis of guidance provided by the Executive Committee;
 - (ii) That, once the cost guidelines for HFC phase-down had been agreed by the Executive Committee, the reductions from the country's remaining HFC consumption eligibility for funding would be determined in line with those guidelines;
 - (iii) That the reductions from the country's remaining HFC consumption eligible for funding referred to in subparagraph (b)(ii) above would be deducted from the starting point referred to in subparagraph (b)(i) above;
- (c) To approve the first tranche of stage I of the KIP for Trinidad and Tobago, and the corresponding tranche implementation plan, in the amount of US \$543,249, plus agency support costs of US \$38,028, for UNDP; and
- (d) To request the Government of Trinidad and Tobago, UNDP and the Secretariat to finalize the draft Agreement between the Government of Trinidad and Tobago and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

TUNISIA
KIP for Tunisia

The Ninety-fourth Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Tunisia for the period 2024–2030 to reduce HFC consumption by 23.8 per cent of the country's baseline by 2030, in the amount of US \$2,336,184, consisting of US \$2,067,181, plus agency support costs of US \$144,703, for UNIDO and US \$110,000, plus agency support costs of US \$14,300, for UNEP, as reflected in the schedule contained in annex XLV to the present report;
- (b) To note:
 - (i) That the Government of Tunisia would establish its starting point for sustained aggregate reductions in HFC consumption based on guidance provided by the Executive Committee;
 - (ii) That, once the cost guidelines for HFC phase-down had been agreed by the Executive Committee, reductions from the country's remaining HFC consumption eligible for funding would be determined in line with those guidelines;
 - (iii) That the reductions from the country's remaining HFC consumption eligible for funding referred to in subparagraph (b)(ii) above would be deducted from the starting point referred to in subparagraph (b)(i);
- (c) To note also:
 - (i) The strong commitment of the Government of Tunisia to support reductions in HFC consumption in advance of the Montreal Protocol targets;
 - (ii) The commitment of the Government to ban the import and manufacture of HFC-based cold-water dispensers, domestic freezers, domestic refrigerators and stand-alone commercial refrigeration equipment, and residential air-conditioning units based on HFCs with a global-warming potential greater than 700 by 1 January 2027;
 - (iii) That, should the enterprise Star One not manufacture HFC-32-based residential air-conditioning units on a commercial scale upon completion of its conversion and continue such manufacturing for at least three years, UNIDO would return to the Multilateral Fund the funding associated with the conversion, plus the funding associated with the project management unit and agency support costs;
 - (iv) That a project to phase out HFCs contained in imported pre-blended polyols in the polyurethane foam sector in Tunisia would be subject to the Executive Committee consideration of funding the phase-out of HFCs contained in imported pre-blended polyols;
- (d) To approve the first tranche of stage I of the KIP for Tunisia, and the corresponding tranche implementation plan, in the amount of US \$1,689,926, consisting of US \$1,526,566, plus agency support costs of US \$106,860, for UNIDO and US \$50,000, plus agency support costs of US \$6,500, for UNEP; and
- (e) To request the Government of Tunisia, UNIDO, UNEP and the Secretariat to finalize the draft Agreement between the Government of Tunisia and the Executive Committee for the

reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

TURKMENISTAN
KIP for Turkmenistan

The Ninety-third Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Turkmenistan for the period 2023–2029 to reduce, by 2029, HFC consumption by 10 per cent of the country's baseline, in the amount of US \$325,000, plus agency support costs of US \$42,250 for UNIDO, as reflected in the schedule contained in annex LIX to the present report;
- (b) To note that, if the HFC consumption level for Turkmenistan in any of the years 2024 to 2025 was above the Montreal Protocol control limits or the maximum allowable consumption in the future Agreement between the Government of Turkmenistan and the Executive Committee, on the understanding that Government of Turkmenistan would continue to make every effort to meet those control limits, the Secretariat would inform and seek guidance from the Executive Committee on the procedure to follow in light of decision XXXV/16;
- (c) To approve the first tranche of stage I of the KIP for Turkmenistan, and the corresponding tranche implementation plan, in the amount of US \$116,000, plus agency support costs of US \$15,080, for UNIDO; and
- (d) To request the Government of Turkmenistan, UNIDO and the Secretariat to finalize the draft Agreement between the Government of Turkmenistan and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.

* Stage II of the HPMP has an established target up to 2025.

VIET NAM
KIP for Viet Nam

The Ninety-third Meeting of the Executive Committee decided:

- (a) To approve, in principle, stage I of the Kigali HFC implementation plan (KIP) for Viet Nam for the period 2023–2029 to reduce, by 2029, HFC consumption by 10 per cent of the country's established baseline, in the amount of US \$5,029,063, consisting of US \$3,593,183, plus agency support costs of US \$251,522, for the World Bank and US \$1,057,980, plus agency support costs of US \$126,378, for UNEP, as reflected in the schedule contained in annex LX to the present report;
- (b) To note:
 - (i) That the Government of Viet Nam would establish its starting point for sustained aggregate reductions in HFC consumption on the basis of guidance provided by the Executive Committee;
 - (ii) That, once the cost guidelines for HFC phase-down had been agreed by the Executive Committee, the reductions from the country's remaining HFC consumption eligible for funding would be determined in accordance with those guidelines;
 - (iii) That the reductions from the country's remaining HFC consumption eligible for funding referred to in subparagraph (b)(ii) above would be deducted from the starting point referred to in subparagraph (b)(i) above;
 - (iv) The commitment of the Government of Viet Nam to issue a ban on the use of HFC-23 in new installations of fire-suppression systems by 1 January 2025; on the manufacturing and import of stand-alone commercial refrigeration and domestic refrigeration equipment using HFCs by 1 January 2029; on the manufacturing and import of mobile air-conditioning systems using R-407C by 1 January 2029; and on the manufacturing and import of residential air-conditioning units and heat pumps below 60,000 British thermal units/hour using R-410A and R-417A by 1 January 2029;
 - (v) That, upon completion of the end-user technology demonstration project included in stage I of the KIP, the World Bank would submit a final report on the implementation of the project, including the HFC phase-out and, if available, energy-efficiency gains achieved, in line with subparagraph (g) of decision 92/36;
- (c) To note also that the Government of Viet Nam would continue to monitor its HFC consumption to understand HFC demand in future years and would provide that analysis when submitting future tranches of its KIP;
- (d) To approve the first tranche of stage I of the KIP for Viet Nam, and the corresponding tranche implementation plan, in the amount of US \$2,183,683, consisting of US \$1,557,792, plus agency support costs of US \$109,045, for the World Bank and US \$461,696, plus agency support costs of US \$55,150, for UNEP; and
- (e) To request the Government of Viet Nam, the World Bank, UNEP and the Secretariat to finalize the draft Agreement between the Government of Viet Nam and the Executive Committee for the reduction in consumption of HFCs, including the information contained in the annex referred to in subparagraph (a) above, and to submit it to a future meeting once the KIP Agreement template had been approved by the Executive Committee.
