EXECUTIVE COMMITTEE OF  
THE MULTILATERAL FUND FOR THE  
IMPLEMENTATION OF THE MONTREAL PROTOCOL  
Thirty-first Meeting  
Geneva, 5-7 July 2000

Corrigendum

**STATUS OF ARTICLE 5 COUNTRIES IN ACHIEVING COMPLIANCE WITH THE  
INITIAL CONTROL MEASURES OF THE MONTREAL PROTOCOL.**

An Analysis by the Fund Secretariat

This corrigendum is issued to incorporate new data from Brazil. Brazil is estimating its 1999 consumption as 11,571 ODP tonnes as opposed to the 8,209 ODP tonnes that was previously estimated by them. The change is due to the fact that the CFC producer in Brazil continued to produce beyond the expected closure date of August 1999. Since the definition of consumption is based on the calculated level of production minus the calculated level of exports plus the calculation level of imports and Brazil's CFC baseline is 10,526, Brazil is now indicating that "at the moment and still to be confirmed, the data indicates a non-compliance situation with the 1999 freeze" for Brazil. The following changes result from the new data:

In para. 22: **replace** "65 countries" in the first sentence **with** "64 countries"; **replace** "105,029 ODP tonnes" in the second sentence **with** "96,820 ODP tonnes"; and **replace** "130,596 ODP tonnes" in the second sentence **with** "120,071 ODP tonnes".

In para. 23: **replace** "14 countries" in the first sentence **with** "15 countries" and **replace** the second sentence **with** the following: "The projects amount to a future phase-out of 4,819 ODP tonnes."

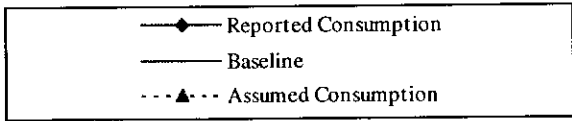

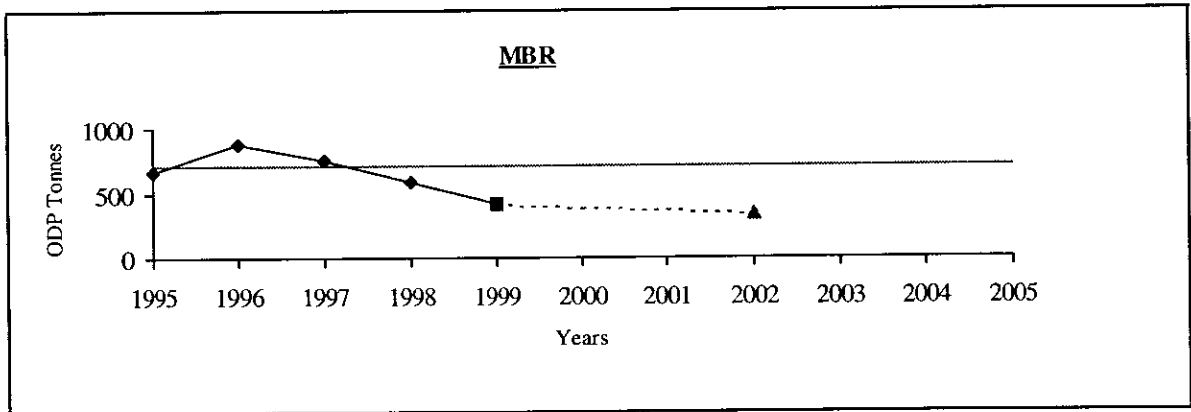

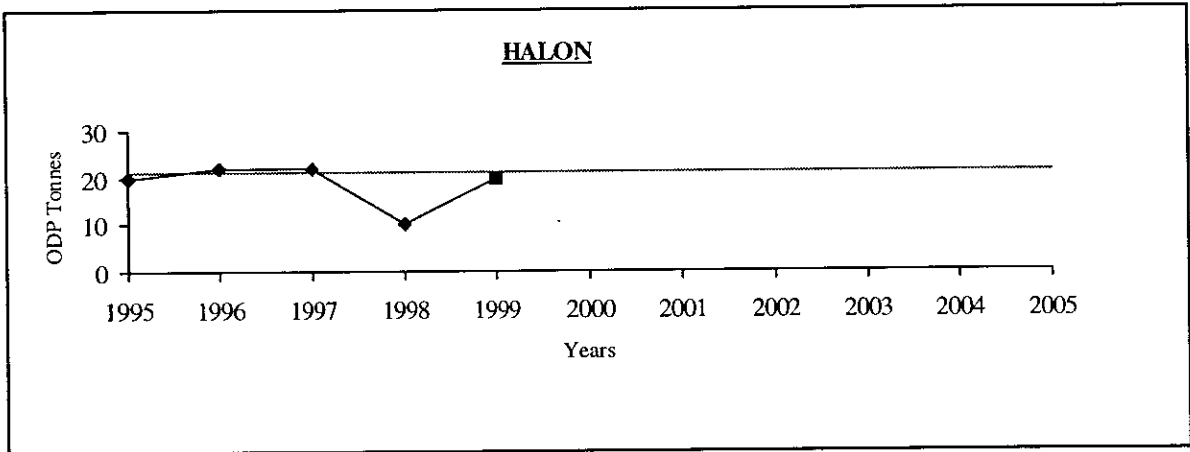

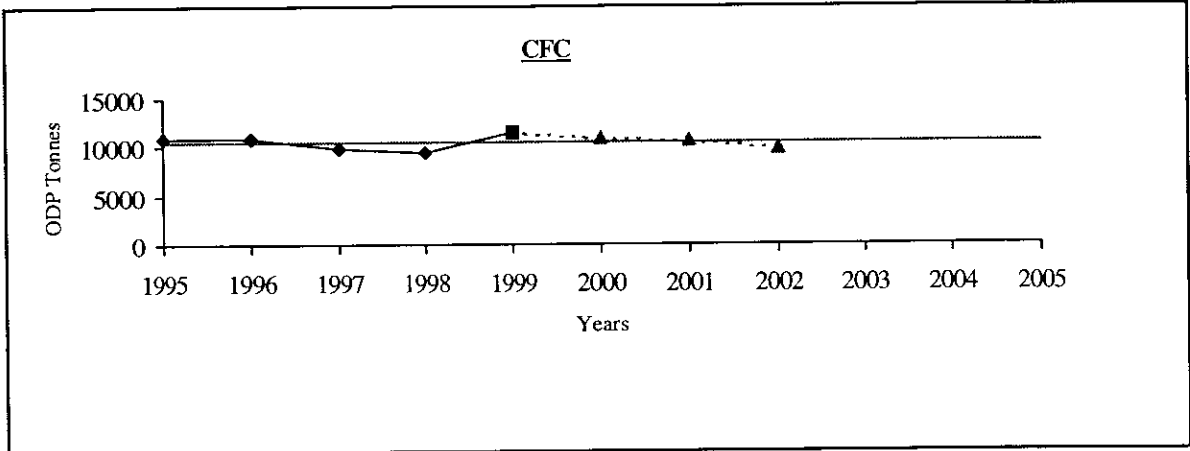

In para. 27, **replace** "21,954 ODP tonnes" **with** "26,381 ODP tonnes".

In Annex I, Table 1, **remove** the sub-totals and totals; **replace** "8,209" in column 2 **with** "11,571", **replace** "0.0" in column 3 **with** "1,045.2"; **replace** "6,327.3" in column 9 **with** "9,689.3"; and **replace** "1064.4" in column **with** "4,426.4", **move** entries for Brazil **from** the category "Countries assumed to be in compliance for the freeze" **to** the category "Countries that could achieve freeze compliance by the end of 2002".

In Annex II, **replace** the graphic for Brazil with the attached.
