EXECUTIVE COMMITTEE OF  
THE MULTILATERAL FUND FOR THE  
IMPLEMENTATION OF THE MONTREAL PROTOCOL  
Thirty-fourth Meeting  
Montreal, 18-20 July 2001

**Corrigendum**

**PROJECT PROPOSALS: INDIA**

Foam sector

Page 15: Replace paragraph 26 with the following:

26. (a) The Secretariat received letters of transmittal of the India projects from the Government of India in which it stated, inter alia, consistent with Executive Committee Decision 33/2 (c) that:
- (i) The National Ozone Unit has validated the total CFC-11 consumption of 559.16 ODP tonnes to be phased out by the 50 enterprises in the projects and retained in its records for future verification.
  - (ii) The Government of India has been advised that its agreement with the projects indicates a commitment to ensure that the validated phase-out figure of 525.02 ODP tonnes was realized and yielded a sustained reduction from its 2000 foam sector consumption of 2,898.00 ODP tonnes.
- (b) The Secretariat also received signed commitment notes from the managers of the 50 enterprises in which they inter alia affirmed their enterprises' commitments to completely phase out the CFC-11 and not to revert to its use after conversion, to co-operate with the implementing agency to return any unused contingency funds and funds deemed to have been used in situations of identified serious funding irregularities as well as other commitments stipulated under Decision 33/2 and other relevant rules governing project approval.

- (c) The above documents are available in the Secretariat and may be made available on request.

## **RECOMMENDATIONS**

- 29. (a) The Fund Secretariat recommends blanket approval of:
  - (i) Flexo Foam, Malvika, Oto Industries, and Sutlej Coach with the funding levels and associated support costs as indicated in the table below for implementation by the Government of Italy.
  - (ii) Nu-Foam Rubber, Viking Engineers, Apollo Steelcrafts, Bhatia Plastics, Caryaire, Essa Aircons, Umbrella fourteen enterprises, Lear Insulation, Nandadeep, Poly Glass Fibre, Polyrub, Prince Plastoware, Roome Plastics, Umbrella seventeen SMEs, Solvay Moulding, SR Polymers, and UNC Plast projects with the funding levels and associated support costs as indicated in the table below for implementation by UNDP.
- (b) The Secretariat further recommends that the Executive Committee takes note with appreciation of the commitments made by the Government of India and the 50 enterprises in the projects in paragraph 26 (b) above.
