EXECUTIVE COMMITTEE OF THE MULTILATERAL FUND FOR THE IMPLEMENTATION OF THE MONTREAL PROTOCOL Thirty-seventh Meeting Montreal, 17-19 July 2002

PROGRESS REPORT OF UNIDO

This document includes:

- The Comments and Recommendations of the Fund Secretariat
- UNIDO Progress and Financial Report 2001

COMMENTS OF THE FUND SECRETARIAT

Introduction

1. This document presents the comments and recommendations of the Fund Secretariat on the Progress Report of UNIDO for activities through 31 December 2001. The progress report is attached.

Status of Implementation

2. During the reporting period (January - December 2001), UNIDO phased out 2,241.1 ODP tonnes, and disbursed about US \$28.9 million. The Executive Committee approved 70 investment projects in 2001 for UNIDO implementation valued at about US \$22.8 million that should result in the phase-out of 3,516 ODP tonnes.

3. In 2001, UNIDO completed 42 investment projects. Cumulatively, UNIDO has completed 58 per cent (234 projects) of the 406 investment projects approved for its implementation through 2001. It has phased out 68 per cent (21,668 tonnes) of the ODP to be phased out from its portfolio of approved projects (31,664 tonnes), and has disbursed 72 per cent (US \$180 million) of the resources approved by the Fund for it through 2001 (US \$249 million).

4. UNIDO completed 7 demonstration projects and renewed 3 institutional strengthening projects as planned in its 2001 business plan.

5. UNIDO is currently implementing 7 multiple year performance-based agreements for which US \$4.05 million was approved through 2001. It plans to grant 12 new agreements in 2002.

6. UNIDO also completed 29 project preparation accounts in 2001.

2001 Accounts of UNIDO and data in the progress report

7. The format for progress reporting requires that the data provided annually to the Treasurer on the Accounts of the Fund should be compatible with the data provided annually to the Executive Committee in progress reports. According to the progress reports, UNIDO has received US \$280,098,333 from project approvals and support cost after adjustment for balances and cancellations. The net total disbursed including support costs is US \$203,037,457. As of this date, the Accounts of the Fund from UNIDO has not been submitted to the Secretariat by the Treasurer. Consequently, this compatibility cannot be determined.

Institutional strengthening

8. UNIDO is implementing institutional strengthening projects which established national ozone units (NOUs) in nine countries including: Bosnia and Herzegovina, Egypt, Libya, Macedonia, Oman, Qatar, Romania, Syria, and Yugoslavia. In the case of Yugoslavia, UNIDO reported that the NOU is involved in project identification and monitoring of ongoing projects but reporting by the Unit has been slow and a year-end report is still outstanding despite several reminders.

9. For the remaining eight projects, UNIDO reported that national ozone units were operational and involved in the implementation of their ODS phase-out programmes.

10. Last year, the Executive Committee decided to request additional status reports on those institutional strengthening projects having slow or not satisfactory project implementation (Decision 31/7 (f)). The Secretariat is recommending the continuation of this practice for Yugoslavia.

Refrigerant Management Plans

Preparation of RMPs

11. UNIDO is developing RMPs in Mexico and Venezuela. RMPs for Algeria, Iran and Pakistan were submitted for consideration to the 37th Meeting. The RMP for Mexico is still planned to be completed this year. UNIDO indicated that the work it had done in preparing Venezuela's RMP would be incorporated into Venezuela's national phase-out plan that would be submitted in 2002.

Implementation of RMP Components

12. UNIDO is the implementing agency for 24 RMP activities at the end of 2001, including national recovery and recycling projects (7), monitoring projects (2), training in good refrigeration practices (7), customs training (8).

13. UNIDO plans to complete additional national recovery and recycling projects in 2002 in Jordan, Macedonia, Senegal, and Sudan. It also plans to complete three more recovery and recycling projects in 2003 (Honduras, Oman and Qatar).

Methyl bromide demonstration projects

14. UNIDO has nine methyl bromide demonstration projects under implementation, all of which are planned to be completed in 2002. These projects are in the following countries: Botswana, Cameroon, Colombia, Dominican Republic, Kenya, Macedonia, Mexico, Thailand and Viet Nam. For most of the projects, the field trials have been completed. Final workshops to disseminate the results are planned this year for all of these projects.

Completed projects with balances

15. There are 138 projects that were completed through May 2001 that have remaining balances amounting to US \$4,661,333 that have not been returned. UNIDO will continue to report on these projects until the balances are reconciled or returned.

Implementation delays

16. There are 34 projects with implementation delays after taking into consideration any projects removed from the list per Executive Committee decision. According to the procedures for project cancellation (Decision 26/2), a report on these projects will be provided to the 38th Meeting to determine if there is any progress toward removing the impediments causing the implementation delays.

17. UNIDO had fewer projects classified with implementation delays than last year when 55 projects were so classified. 21 of the 34 projects with implementation delays were also classified as having implementation delays last year. Annex I contains a list of the additional delays and latest planned completion dates of these 21 projects.

Possible project cancellations

18. UNIDO indicated that two of its projects were stalemated and may be proposed for project cancellation at the meeting. In its progress report to the 34th Meeting, UNIDO indicated that the Friobox rigid foam project in Venezuela (VEN/FOA/31/INV/83) was being considered for cancellation, but that it had not yet received the government endorsement to cancel the project.

19. Similarly, the Bole Electric Appliances Group refrigeration project in China (CPR/REF/23/INV/222) was reported by UNIDO to be at a standstill. This project was approved in November 1997. UNIDO reported to the 34th Meeting that the company had stopped production. US \$1.1 million has been disbursed of the US \$1.5 million budget. UNIDO indicated that the Chinese government informed it recently that the company may be reactivated soon.

Differences with the Inventory of Approved Projects

20. The Secretariat and UNIDO resolved most of the differences between the Multilateral Fund's project records as contained in the Inventory of Approved Projects and those of UNIDO as provided in UNIDO's progress report.

21. As shown in the following table, the Secretariat's data for the level of adjustments to the project preparation activities is different from that of UNIDO. The difference amounts to US \$79,320.

Correct Code	UNIDO Adjustment (US\$)	Inventory Adjustment (US\$) (a-b-c-d)	Additional Funds Allocated after Approval (US\$)	Funds Returned to 30 th Meeting (US\$)	Funds Returned to 34 th Meeting (US\$)	Funds Returned to 36 th Meeting* (US\$)
			(a)	(b)	(c)	(d)
ALG/REF/27/PRP/35	-	(14,297)		-	14,297	11,985
BOT/FUM/24/PRP/04	(1,987)	(7,226)		5,239	1,987	
CMR/FUM/24/PRP/13	(1,987)	(7,226)		5,239	1,987	
COL/FUM/21/PRP/23	(568)	(2,066)		1,498	568	
CRO/FUM/24/PRP/07	(1,590)	(5,783)		4,193	1,590	
DOM/FUM/25/PRP/18	(2,385)	(8,675)		6,290	2,385	
DRK/FUM/23/PRP/04	8,013	2,771	10,000	5,242	1,987	
IDS/FUM/23/PRP/69	17,615	11,325	20,000	6,290	2,385	
JAM/FUM/24/PRP/08	(1,987)	(7,229)		5,242	1,987	
JOR/FUM/23/PRP/36	13,013	7,771	15,000	5,242	1,987	
MDN/FUM/25/PRP/08	(1,590)	(5,783)		4,193	1,590	
MEX/FUM/22/PRP/58	(1,590)	(5,783)		4,193	1,590	
THA/FUM/22/PRP/65	(636)	(2,314)		1,678	636	
TUR/FUM/24/PRP/36	(1,987)	(7,229)		5,242	1,987	
URU/FUM/24/PRP/26	(1,987)	(7,229)		5,242	1,987	
Total	20,347	(58,973)				

* Not recorded in progress report since the adjustment occurred after the 31 December 2001 date for activities in the 2001 progress report.

22. A review of the Secretariat's records indicates that UNIDO reported funds returned to two different Executive Committee meetings for the same projects, the 30th and the 34th meetings. This meant that funds were recorded returned twice when in fact the amount reported for the 30th Meeting was corrected at the 34th Meeting. However, since the Executive Committee took decisions noting the return of both sums, a correction to the Fund's records would need a decision from the Committee.

23. These differences in project amounts have a corresponding impact on differences concerning support costs. There are some other minor differences concerning about 3 tonnes of phase-out and assigning costs to different project numbers that the Secretariat and UNIDO are working to resolve.

RECOMMENDATIONS

The Sub-Committee on Monitoring, Evaluation and Finance may wish to consider providing recommendations to the Executive Committee to:

- 1. Note UNIDO's progress report contained in (UNEP/OzL.Pro/ExCom/37/15).
- 2. Request UNIDO to provide an additional status report on the institutional strengthening project with slow implementation in Yugoslavia, while noting concern that institutional strengthening project in Yugoslavia was classified for the second year with slow implementation.

- 3. Note that through May 2001, UNIDO had 138 projects that it had classified as completed for over one year with remaining balances totalling US \$4,661,333.
- 4. Note that UNIDO will report on up to 34 projects with implementation delays including 21 projects that were so classified last year to the 38th Meeting.
- 5. Take actions (continued monitoring or cancellation) on the following projects after hearing updated reports from UNIDO:
 - (a) Phasing out of ODS at the refrigerator plant of Bole Electric Appliances Group in China (CPR/REF/23/INV/222); and
 - (b) Phasing out of CFC-11 with HCFC-141b at Friobox in the production of rigid P.U. panels in Venezuela (VEN/FOA/31/INV/83).
- 6. Note that the balances returned to the 30th Meeting for the following projects were subsequently revised by the data for the same projects presented to the 34th Meeting. The Treasurer should revise the amount returned for the following projects with the data provided to the 34th Meeting:

BOT/FUM/24/PRP/04	CMR/FUM/24/PRP/13	COL/FUM/21/PRP/23
CRO/FUM/24/PRP/07	DOM/FUM/25/PRP/18	DRK/FUM/23/PRP/04
IDS/FUM/23/PRP/69	JAM/FUM/24/PRP/08	JOR/FUM/23/PRP/36
MDN/FUM/25/PRP/08	MEX/FUM/22/PRP/58	THA/FUM/22/PRP/65
TUR/FUM/24/PRP/36	URU/FUM/24/PRP/26.	

7. Note that the balances returned to the 34th and 36th Meeting for ALG/REF/27/PRP/35 was in error. The Treasurer should adjust the record for the project accordingly. In authorising these adjustments due to errors in reporting by UNIDO, the Executive Committee may wish to note with concern the inaccurate data reporting from UNIDO.

Annex I

PROJECTS REMAINING ON THE LIST OF PROJECTS WITH IMPLEMENTATION DELAYS

Code	Agency	Project Title	Category for delay	Planned Date of Completion
ALG/FOA/23/INV/25	UNIDO	Phasing out CFC-11 at La Mousse du Sud flexible polyurethane foam plant	12 months delays	Jun-02
ALG/FOA/28/INV/37	UNIDO	Phasing out of CFC-11 by conversion of methylene chloride in the manufacture of flexible polyurethane slabstock foam at Matelas Mondial	12 months delays	Jun-02
ALG/FOA/28/INV/39	UNIDO	Phasing out of CFC-11 by conversion of methylene chloride in the manufacture of flexible polyurethane slabstock foam at Orania Mousse Ameublement (OMA)	12 months delays	Jun-02
ARG/FOA/20/INV/47	UNIDO	Phasing out CFC-12 at Mallol Saic	12 months delays	Dec-02
CMR/FOA/23/INV/10	UNIDO	Phasing out CFC-11 at Scimpos	12 months delays	Apr-02
CMR/FOA/23/INV/11	UNIDO	Phasing out CFC-11 at Sonopol	12 months delays	Apr-02
CPR/REF/17/INV/119	UNIDO	Conversion of domestic refrigerator and freezer factories to phase out CFC-12 and CFC-11 by hydrocarbon isobutane and cyclopentane at Hangzhou Xiling Holdings Co.		Dec-02
EGY/SOL/28/INV/79	UNIDO	Conversion of TCA used for the formulation of degreasing and contact cleaners and crack detectors to new formulations with special hydrocarbons and heavy chlorinated ester at Sien	12 months delays	Jun-02
IRA/FOA/22/INV/20	UNIDO	Phasing out of CFC-11 from flexible slabstock foam manufacturing at Safoam Co.	12 months delays	Jun-02
IRA/FOA/22/INV/21	UNIDO	Phasing out of CFC-11 from flexible slabstock foam manufacturing at Urethane Systems Company (USC)	12 and 18 months delays	Dec-02
IRA/FOA/22/INV/22	UNIDO	Phasing out CFC-11 from flexible slabstock foam manufacturing at Shizar Co.	12 and 18 months delays	Jun-02
IRA/FOA/23/INV/29	UNIDO	Phasing out of CFC-11 from flexible slabstock foam manufacturing at Mashhad Foam	12 months delays	Jun-02
IRA/REF/23/INV/26	UNIDO	Phasing out ODS at Yakh Saran Co.	12 months delays	Jun-02
NIR/REF/26/INV/44	UNIDO	Replacement of refrigerant CFC-12 with HFC-134a and foam blowing agent CFC-11 with cyclopentane in the manufacture of domestic refrigeration appliances at Kolinton Technical Industries	12 months delays	Dec-02
PAK/REF/19/INV/09	UNIDO	Phasing out ODS at the Chest Freezer Factory of Riaz Electric Co. Ltd.	12 months delays	Dec-02
PAK/REF/19/INV/10	UNIDO	Phasing out ODS at the refrigerator and chest freezer plants of Pak Elektron Ltd. (PEL)	12 months delays	Dec-02
PAK/REF/23/INV/17	UNIDO	Phasing out ODS at the freezer factory of Hirra Farooq's (Pvt) Ltd.	12 months delays	Dec-02
PAK/SOL/22/INV/14	UNIDO	Conversion of ODS cleaning and coating processes from CFC-113 to trichloroethylene and IPA at Treet Corporation Ltd., Lahore	12 months delays	Jul-02
SYR/FOA/23/INV/25	UNIDO	Phasing out of CFC-11 from flexible slabstock foam manufacturing at Akal Factory	12 and 18 months delays	Sep-02
URT/REF/18/INV/06	UNIDO	Phasing out of CFCs at Tanzania Domestic Appliance Manufacturers Ltd.	12 months delays	Dec-02
VEN/FOA/28/INV/82	UNIDO	Phasing out CFC-12 at Fandec C.A. (EPSR Foam)	12 months delays	Dec-02

UNITED NATIONS INDUSTRIAL DEVELOPMENT ORGANIZATION

UNIDO Progress and Financial Report 2001

NB: This Progress and Financial Report was produced at a time when a change in the accounting system took place. Although it is meant to be more user-friendly, during the transition period, some inconsistencies may appear.

Table of Contents

I. Project Approvals and Disbursements

- A. Annual summary data
- B. Interest
- C. Summary data by type (CPG, DEM, INS, PRP, TAS, TRA)
- D. Sector phase out by country

II. Project Completion since last Report

- A. ODP phased out since last report
- B. Non-investment project completions since last report

III. Global and Regional Project Highlights

- A. Global Projects
- B. Regional Projects

IV. Performance Indicators

- A. Agency's Business Plan Performance Goals
- B. Cumulative completed investment, demonstration and recovery and recycling projects
- C. Cumulative completed non-investment projects
- D. Cumulative ongoing investment, demonstration and recovery and recycling projects
- E. Cumulative ongoing non-investment projects

V. Status of Agreements and Project Preparation by Country

- A. Agreements to be signed/executed/finalized and when they will be ready for disbursing
- B. Project preparation by country, approved amount and amounts disbursed

VI. Administrative Issues (Operational, Policy, Financialand Other Issues)

- A. Meetings attended
- B. Implementing agency and other cooperation
- C. Adjustments
- D. Other issues

Tables 1 to 12

- Annex I: Country Development Highlights
- Annex II: Database

I. Project Approvals and Disbursements

A. Annual summary data

1. Important annual data, such as number of approvals, corresponding ODP (wherever applicable), approved funding, adjustment and disbursement characteristics are presented in Table 1: "Annual Summary". As of 31 December 2001, UNIDO's cumulative 1993-2001 approved activities under the Multilateral Fund amount to US\$ 248,682,036, excluding agency support cost, and are contained in the attached database printout (Annex II). In the printout, the data (projects) are sorted by regions and within each region the corresponding completed, financially completed, ongoing and closed (cancelled) projects are listed.

2. As of 31 December 2001, UNIDO's cumulative disbursement for all projects (completed and ongoing) amounts to US\$ 180,008,597, excluding agency support cost, corresponding to a delivery (implementation) rate of 72.4 per cent (Table 1: "Annual Summary"). Out of this amount, US\$ 172,122,543 relate to cumulative disbursement for investment, recovery and recycling and other technical assistance as well as demonstration projects (Table 2, "Summary Data by Project Type" refers). This amount represents 79.7 per cent of the value ¹ of approvals as of December 2000 (Executive Committee's Decision 27/2 refers).

B. Interest

3. The interest earned and reported, split by years 1993-2001 amounts to US\$ 22,868,883 and is shown in the "Annual Summary", Table 1. The interest for 2001 amounts to US\$ 2,308,795.

C. Summary data by type (CPG, DEM, INS, PRP, TAS, TRA)

4. UNIDO's above-outlined cumulative (1993-2001) approved technical assistance activities under the Multilateral Fund, and listed in Annex II, are split in the following types:

Туре	US\$ ²	Per cent
CPG (Country Programme Preparation)	560,000	0.23
DEM (Demonstration projects including	7,975,660	
phase-out projects in the methyl bromide)		3.24
INS (Institutional strengthening)	2,310,453	0.94
INV (Investment projects)	220,983,999	89.83
PRP (Project preparation)	8,135,815	3.31
TAS (Technical Assistance)	4,908,244	2.00
TRA (Training)	1,118,280	0.45
Total (excluding agency support cost)	245,992,451	100.00

5. Also in 2001, UNIDO has maintained its leading role in the fumigants sector (methyl bromide) and has completed the implementation of demonstration projects in the use of alternatives to methyl bromide in several countries. During the same period, progress was reported in some investment projects, whereby complete phase out was achieved in Cuba and

¹ Value of approved intestment, R&R and demonstration (methyl bromide) projects through 2000 for UNIDO reads: US\$ 215,914,366 (Reference: 2001 Business Plan of UNIDO, Table 1.)

² These figures are without adjustments, which in total are US\$ 2,689,585.

Brazil for the tobacco plantation, in Senegal for grain fumigation, and partial phase out in Argentina and Morocco in soil fumigation as shown below:

Country	Crops or commodities	ODP to be phased out
Brazil	Phasing out methyl bromide in the tobacco sector	84.4 tonnes
Cuba	Phasing out methyl bromide in the tobacco sector	48 tonnes
Argentina	Phasing out methyl bromide in vegetables and cut flowers	33.1 tonnes
Morocco	Phase out of methyl bromide for soil fumigation in strawberry production	36 tonnes
Senegal	Peanut seed fumigation	0.7 tonnes

Subsequent to the approval of the Strategy for the Tobacco Sector in China, the second annual tranche of the Work Programme of the Tobacco Sector in China was approved for implementation in 2002.

6. Disbursements by activity type in US\$ and as percentage of activity allocations are as follows:

Туре	US\$	Per cent
CPG (Country Programme Preparation)	513,399	0.28
DEM (Demonstration projects)	5,965,980	3.31
INS (Institutional strengthening)	1,235,461	0.68
INV (Investment projects)	162,915,391	90.5
PRP (Project preparation)	5,636,514	3.13
TAS (Technical Assistance)	3,241,173	1.8
TRA (Training)	500,681	0.27
Total (excluding agency support cost)	180,008,597	100.00

7. The Table 2, entitled "Summary of Data by Project Type", shows approvals, adjustments and disbursements by type of project/activity.

8. UNIDO's overall disbursement rate (excluding agency support cost) was 72.4 per cent as of 31 December 2001. UNIDO continued its concerted efforts throughout 2001 to accelerate project and programme delivery and, at the same time paid full attention to quality aspects in project implementation. Furthermore, the Organization accorded high priority to its approvals portfolio.

D. Sector phase out by country

9. The sectoral breakdown of approved UNIDO investment activities (investment, recovery and recycling and demonstration projects only) and the ODP tonnes to be phased out with direct impact are as follows:

Sector	US\$ (000)	Per cent	ODP tonnes	Per cent
Aerosols	7,918	3.33	3,476	10.98
Foams	55,903	23.52	11,482	36.25
Fumigants (demonstration and	22,746	9.57	990	3.13
investment projects)				
Halons	770	0.32	1,480	4.67
Other (Tobacco)	2,076	0.87	90	0.28
Process Agent	2,753	1.16	591	1.87
Refrigeration (including MACs and	135,887	57.18	12,598	39.78
compressors as well as R + R)				
Solvents	9,538	4.01	964	3.04
Several	72	0.03	0	0.00
Totals	237,663	100.00	31,671	100.00

10. Information on funded ODP phase-out by region/country for ongoing projects is given in Table 3 entitled "ODP Phase-out by Region, Country and Sector - Ongoing Projects".

11. A table of sectors by country/region for which phase-out has been effected is attached as Table 3a entitled "ODP Phased-out by Region, Country and Sector - Completed Projects". Based on the completed projects, UNIDO has eliminated 21,002.32 tonnes with 3,093.3 tonnes in the aerosol sector; 6,427.23 ODP tonnes in the foam sector; 133.1 ODP tonnes in the fumigants (methyl bromide) sector; 1,480 ODP tonnes in the halon sector; 8,669.19 ODP tonnes in the refrigeration sector - including MACs and compressors; 288.8 ODP tonnes in recovery and recycling; 820.70 ODP tonnes in the solvents sector, and finally, 90 ODP tonnes in other (tobacco). Partial ODP phase out is reported in Table 3b entitled "Partial ODP Phase-out by Sector, Region, Country". The partial phase out is a result of conversion activities in projects in Argentina, China and Morocco resulting in 519.10 ODP tonnes.

12. The data by region is contained in the aforementioned Table 3 entitled "ODP Phase-out by Sector, Region and Country - Ongoing Projects".

II. Project Completion since Last Report

A. ODP phased out since last report

13. The ODP phased out in the reporting period (1 January - 31 December 2001) on a project-by-project basis amounts to 2,480 ODP tonnes. This result is obtained from Tables 3b and 4. Specifically, in Table 4 entitled "Demonstration, Investment and Recovery and Recycling Projects Completed since last Report", all investment projects completed since last report are listed resulting in the elimination of 1,960.9 ODP tonnes. In addition, 519.1 ODP tonnes were eliminated as the result of partial phase-out; these projects are listed in Table 3b entitled "Partial Phase-out - By Sector, Region, Country". Table 4a entitled "Completed Projects - ODP Phase out" shows the total of investment, non-investment projects and project formulation projects completed during the reporting period, and Table 4b gives information on cancelled/closed projects.

B. Non-investment project completions since last report

14. Since the last report, five non-investment projects, with an approved funding of US\$ 355,000 were completed. 91.6 per cent of the funds were disbursed. Of those projects, two were in Africa, one in Asia and the Pacific, one in Europe, and one classified as global. Details are shown in Table 4c entitled "Non-Investment Projects Completed since last Report".

III. Global and Regional Project Highlights

A. Global Projects

15. In 2001, there were no global projects handled at UNIDO.

B. Regional Projects

16. No specific regional activities were carried out in the reporting period.

IV. Performance Indicators

A. Agency's Business Plan Performance Goals

A1. <u>Investment Projects</u>

Disbursement target and achievement

17. The target for disbursement for UNIDO, required for 2001, excluding agency support cost, was set at US\$ 24,455,000.

The amount of funds disbursed in 2001 is calculated as follows:

Type of project	Funds disbursed as of 31 Dec. 2001 (US\$) (Table 2 refers)	Funds disbursed as of 31 Dec. 2000 (US\$) (Table 2 of PF Report for 2000 refers)	Funds disbursed in 2001 (US\$) (difference)
Investment projects	162,915,391	136,706,537	26,208,854
Demonstration projects	5,965,980	4,989,396	976,584
Recovery and Recycling (included under Technical Assistance)	2,572,241	2,086,121	486,120
Totals	171,453,612	143,782,054	27,671,558

The amount disbursed by UNIDO in 2001, excluding agency support cost, reads US\$ 27,671,558. It exceeds the target set and represents a performance coefficient of 113.1 per cent.

Phase-out target and achievement

18. In the UNIDO Business Plan for 2001, the target of ODP to be phased out was set at 2,416.5 ODP tonnes. To achieve that goal, the discharge of a number of planned efforts was required and as the review of the disbursement situation demonstrates (para. 17 above refers), major required activities were put in place and no negligence occurred. The situation resulted in a phase-out volume of 2,480 ODP tonnes which corresponds to 102.6 per cent of the set target.

Distribution of projects among countries

19. According to the Business Plan 2000, the investment and demonstration projects to be formulated in 2001 were supposed to be distributed among 27 countries. However, in Argentina, projects could not be submitted due to inconsistencies of sector ODS consumption data, in Libya and Tunisia the government requested to defer project submission to 2002 and finally, the government of Mexico changed its approach from individual project submissions to a sectoral phase out plan. As a result, projects were distributed among 24 countries which corresponds to 85.2 per cent of the set target.

Satisfactory project completion reports

20. The target set in the 2001 UNIDO Business Plan reads 100 per cent in line with Decision 27/2 which foresees a target of 100 per cent for all implementing agencies. In the case of the project completion reports of UNIDO projects, all PCRs due have been submitted.

Speed of delivery indicators

21. In reviewing the investment, demonstration and R&R projects report, an overall average speed from approval to first disbursement of 9.22 months is observed.

Further details on the speed of first disbursement for investment projects can be obtained from Tables 5 and 7 for cumulative completed (9.88) and cumulative ongoing projects (8.89). An overall improvement is observed in the speed of the first disbursement.

Cost of project preparation

22. The target cost of project preparation indicated in the 2001 Business Plan was, as a ratio, 0.017 (1.7 per cent). The disbursement incurred in 2001 for project preparation amounts to US\$ 740,491 based on the following calculation:

	Funds disbursed for project preparation (US\$)
Cumulative disbursement according to P&F	5,636,514
Report of 2001 (Table 2)	
Cumulative disbursement according to P&F	4,860,359
Report of 2000 (Table 2)	
Amount disbursed in 2001 (including RMPs)	776,155
Less difference disbursed for RMPs	35,664
Amount disbursed in 2001	740,491

The investment projects prepared and submitted in and/or for 2001 amount to a value of US\$ 42,429,298. The cost of project preparation is, calculated as a ratio, 0.017, lower than the cost foreseen.

Cost effectiveness

23. According to the 2001 Business Plan, the cost-effectiveness target of project submissions for 2001, (excluding the methyl bromide sector) was US\$ 7.51/ODP kg. The cost effectiveness of project submissions and approvals (excluding methyl bromide projects) in 2001, is US\$ 6.45/ODP kg and when including methyl bromide projects, the target was US\$ 7.76/ODP kg and the achievement was US\$ 6.9/ODP kg.

24. For ease of reference, the above outlined observations regarding the performance indicators are summarized in the following table:

Performance indicators	Targets UNIDO Business Plan 2001	Achievements (Progress and Financial Report (P&F) for 2001)	P&F vs BP (remarks wherever applicable)
ODP phase out	2,416.5 ODP tonnes	2,480	102.6 %
Funds disbursed	US\$ 24,455,000	US\$ 27,671,559	113.1 %
Satisfactory project completion reports due for submission in 2001	a) 100 %	100 %	
Distribution of projects among countries	27	24	88 %
Speed of first disbursement (average in months)	9 months	9.22 months	
Speed of project delivery (average in months)	36 months	27.94 months	
Cost of project preparation (as a ratio)	0.021	0.017	
Cost effectiveness of project submissions	 (a) US\$ 7.51/ODP kg (excl. MeBr) (b) US\$ 7.76/ODP kg (incl. MeBr) 	· · · · · ·	
Approvals in ODP	3,684.7	4,214.8	114.38 %
Approvals in US\$	28,612,173	29,091,813	101.6 %

Performance indicators: UNIDO targets and achievements in 2001

A2. <u>Non-investment Projects</u>

Projects completed

25. A total of five projects were completed: Preparation of a refrigerant management plan (RMP) in Cameroon; technical assistance in the framework of the RMP in Jordan and Romania; development of RMPs under a global project, and finally, Phase III of the institutional strengthening project in Egypt. (Table 4c refers).

Speed of completion

26. The average time of non-investment projects completed in 2001 is 26.5 months, against the target of 24 indicated in the 2001 Business Plan. Details on the average number of months from approval to completion for completed and ongoing projects can be obtained from Tables 6 and 8 respectively. The average completion time of all non-investment projects is 28.10 months.

Disbursement

27. According to the Business Plan for 2001, the amount expected to be disbursed (target) was US\$ 971,000. The amount disbursed in 2001 was US\$ 504,000, or 51.9 per cent.

Speed of first disbursement

28. The average speed of first disbursement of the non-investment projects completed in 2001 is 6.5 months. For all projects approved (completed and ongoing ones) the speed of first disbursement by year of approval is 9.03 months.

29. For ease of reference, the above outlined observations regarding performance indicators for non-investment projects are summarized in the following table:

Performance indicator	Target 2001 Business Plan	Achievement Progress and Financial Report (P&F)	P&F vs. BP (remarks wherever applicable)
Completed projects	Three projects	Five projects	
Speed of completion (average)	24 months	26.50 months 28.10 months	For projects completed in 2001 For all completed non- investment projects
Disbursement in 2001	US\$ 0.971 million	US\$ 0.504 million	
Speed of first disbursement (average)	8 months	(a) 9.03 months (b) 6.50 months	(a) For all projects(b) For projects completed in 2001

Performance indicators: UNIDO targets and achievements in 2001

Non-weighted indicators

30. For ease of reference, non-weighted performance indicators are shown in the table below:

Performance indicator	Target 2001	Achievements 2001
Speed of project completion (expressed in months)	24	26.50
ODS phase out over and above that effected by investment projects	50	65
Policy measures in Article 5 countries	Not provided in 2001	Regarding INS projects, the following new policy measures were taken during 2001: ROMANIA: Law No. 9 (January 2001): Approval of Government Order No. 24/2000 regarding acceptance of the Copenhagen Amendment. Law No. 206 (2001: Acceptance of Montreal Amendment). Elaboration of guidelines on the Governmental Ordinance No. 89/1999 appliance, addressed to inspections and permitting bodies from local environmental

<u>г</u>	
	authorities.
	MACEDONIA: In November 2001, the
	Parliament ratified the Beijing Agreement.
	BOSNIA AND HERZEGOVINA: Established the
	NOUCB (members/representatives from BiH
	State and Entities' institutional levels,
	Chambers of Commerce and Industry, NGOs).
	Prepared the basic organizational framework
	and methods of the NOU activities and
	operational work of the NOUs (main national
	ozone unit and its regional suboffices) and
	NOUCB. The Revised Country Programmed
	passed public consideration and was adopted
	by the relevant institutions (Ministries of
	Environment, Rep. Srpska and Federation of
	Bosnia and Herzegovina, as well as by the
	Government of NiH District Brcko), prior to
	its official consideration and approval to be
	done by the State Government (Council of
	Ministers of Bosnia and Herzegovina). NOU
	members participated in the preparation of
	the National Environment Action Plan and in
	drafting of a National Legislative Framework,
	with the assistance of the World Bank and
	European Commission Delegation in BiH. NOU
	members participated in the drafting of
	recommendations for the Environmental
	Entities' Laws (Law on Air and Land
	Protection) related to the OL protection
	issue. Initiated the creation of a system for information collection on ODS consumption
	and monitoring (will have to be adopted by
	the relevant Entities' environmental
	institutions).
	EGYPT: Established an import/export
	licensing system in collaboration with the
	Customs and Excise Department. Established
	an agreement within the Cooperation
	Protocol between the EEAA (Ozone Unit) and
	the Ministry of Manpower for the certification
	system for the trainees in their training sites.
	For the other countries, policy measures
	were either taken up to 2000 or they are
	under preparation and can be expected
	during 2002. For some countries, no detailed
	reporting has been received despite several
	requests being sent, or some projects have
	not yet become operational.

B. Cumulative completed investment projects

31. Since 1993, UNIDO's cumulative total number of completed projects has grown to 234, resulting in the phase out of 20,714 ODP tonnes. Out of a total of US\$ 142,397,738 of approved MF financing for completed projects, 95.3 per cent of the funds has been disbursed. The average number of months from approval to first disbursement has been 9.88 months. The average number of months from approval to completion has been 26.09 months. Cost effectiveness of completed projects is US\$ 6.87/kg, whereas the figures of the cost effectiveness on a sectoral basis are US\$ 4.16/kg for projects in the foam sector; US\$ 11.00/kg for refrigeration; US\$ 8.59/kg for solvents, and US\$ 2.16/kg for aerosols. Table 5 illustrates in more detail the above-outlined situation, presenting information both on a regional and on a sectoral basis. The vast majority of completed investment projects have been implemented with disbursements of funds during implementation.

C. Cumulative completed non-investment projects

32. Since 1993, UNIDO's cumulative total number of completed non-investment projects, including the preparation of RMPs, reads 48. Out of a total of US\$ 9,242,988 of approved MF financing, 91.99 per cent of funds has been disbursed. Except for two projects in Egypt and one in Macedonia (all three are Institutional Strengthening projects), all UNIDO completed non-investment projects are object-sensitive. The disbursement took place during the implementation for all the completed projects. Table 6 provides details according to geographic region and sectors.

D. Cumulative ongoing investment projects

33. By the end of 2001, UNIDO's cumulative portfolio of investment, demonstration and recovery and recycling projects contained 172 projects. Of the US\$ 82,430,713 million approved budget, 32.80 per cent has been disbursed. It takes an average of 8.89 months from approval to first disbursement. The Africa region had 37 ongoing projects, Asia and the Pacific 98 ongoing projects, Europe 14 ongoing projects and Latin America and the Caribbean 23 ongoing projects. Table 7 illustrates variations of implementation characteristics among regions and sectors for UNIDO ongoing investment projects. Except for one newly approved project, the ongoing projects are object-sensitive and the disbursement of funds takes place during implementation.

E. Cumulative ongoing non-investment projects

34. End of 2001, UNIDO's cumulative portfolio of ongoing non-investment projects, including preparation of RMPs, contained 49 projects. Out of a total of US\$ 7,369,777 million approved funding, about 40.09 per cent of funds has been disbursed. The average number of months from approval to first disbursement has been about 10.50 months. Table 8 illustrates details, presenting the projects according to regions, sectors and types.

Table 9 presents a list of ongoing project preparation projects.

V. Status of Agreements and Project Preparation by Country

A. Agreements to be signed/executed/finalized and when they will be ready for disbursing

As soon as a project is approved by the Executive Committee and after having notified 35. the respective authorities, UNIDO embarks on the implementation stage. In doing so, prior to the start up of any activity, the Organization secures officially from the recipient company/companies/concerned authorities, validity/confirmation of basic project data, such as actual ODS consumption; percentage of exports and their structure; ownership situation; validity of counterpart commitment, etc., since by this time, a substantial period has elapsed from the time of formulation of the project. The projects, in most cases, are adjusted as a result of the negotiations during the approval process. Upon receipt, UNIDO prepares and finalizes with the recipients and the Ozone Authorities the agreement of cooperation as well as detailed Terms of Reference (TOR) for services to be rendered under the project both by the international technology and/or equipment suppliers and the counterpart. The TOR and the list of potential suppliers are approved by the counterpart. The bidding and subcontracting takes place only after this. The first payment is due approximately 2 months after the contract approval. The above-illustrated preparatory work explains, for investment, demonstration and recovery and recycling projects, the time elapsing between project approval and first disbursement. In addition to that, UNIDO prepared performance based agreements in the methyl bromide sector in Argentina, Croatia, Lebanon, Macedonia, Morocco, Syria, Turkey and Zimbabwe.

B. Project preparation by country, approved amount and amounts disbursed

36. As of the end of 2001, UNIDO was active in terms of project preparation in the following countries:

AFRICA:

Algeria, Egypt, Kenya, Tunisia and Zimbabwe

ASIA/PACIFIC:

P.R. of China, DPR Korea, India, Indonesia, Iran, Jordan, Lebanon, Malaysia, Pakistan and Yemen

EUROPE:

Bosnia and Herzegovina, Georgia, Turkey and the F.Y.R. of Macedonia

AMERICA/CARIBBEAN:

Argentina, Brazil, Guatemala, Honduras, Mexico, Nicaragua and Venezuela

VI. Administrative Issues (Operational, Policy, Financial and Other Issues)

A. Meetings attended

- 37. UNIDO attended/participated in the following meetings:
- 1. Workshop on outputs of the demonstration project trials on methyl bromide alternatives for soil fumigation. Damascus, Syria, January 2001.

- 2. Workshop on methyl bromide alternatives on vegetable crops. Beirut, Lebanon, January 2001.
- 3. UNEP Workshop for RMP. New Delhi, India, January 2001.
- 4. NGO Consultative Meeting on UNEP's methyl bromide communication programme. Paris, France, February 2001.
- 5. Sub-Committee Meeting on Monitoring, Evaluation and Finance. Montreal, Canada, March 2001.
- 6. Sub-Committee Meeting on Project Review. Montreal, Canada, March 2001.
- 7. 33rd Session of the Executive Committee. Montreal, Canada, March 2001.
- 8. Main Meeting of the ODS Officers Network for French-speaking African countries. Cotonou, Benin, May 2001.
- 9. Joint Main Meeting of the Central American, Spanish-speaking Caribbean and South American Networks of ODS Officers. Veradero, Cuba, May 2001.
- 10. Meeting of ozone officers for English-speaking African countries. Lusaka, Zambia, May 2001.
- 11. Main Meeting of ODS officers of the West Asia region. Manama, Bahrain, June 2001.
- 12. 18th Ozone Operations Resource Group Meeting (OORG). Washington, D.C., USA, June 2001.
- 13. Sub-Committee Meeting on Monitoring, Evaluation and Finance. Montreal, Canada, July 2001.
- 14. 21st Meeting of the Open-ended Working Group of the Parties to the Montreal Protocol. Montreal, Canada, July 2001.
- 15. 34th Session of the Executive Committee. Montreal, Canada, July 2001.
- 16. International Conference on Refrigerant Management and Destruction Technology of CFC. Dubrovnik, Yugoslavia, August 2001.
- 17. Workshop on Technology Choice to Replace ODS for the Kyoto and Montreal Protocols. Bangkok, Thailand, September 2001.
- 18. 13th Meeting of the Parties to the Montreal Protocol. Colombo, Sri Lanka, October 2001.
- 19. K-Fair. Düsseldorf, Germany, October 2001.
- 20. Sub-Committee on Project Review. Montreal, Canada, December 2001.
- 21. Sub-Committee on Monitoring, Evaluation and Finance. Montreal, Canada, December 2001.
- 22. 35th Session of the Executive Committee. Montreal, Canada, December 2001.

B. Implementing agency and other cooperation

38. Cooperation with UNDP: The cooperation and coordination between the two agencies is strengthened and the activities/division of labour in all regions continues.

39. Cooperation with UNEP: UNIDO is regularly attending regional workshops and specialized meetings organized by UNEP. Furthermore, UNIDO and UNEP signed an MOU aimed at disseminating in a systematic way the results of the demonstration projects in the methyl bromide sector.

40. Cooperation with the World Bank: The coordination of activities continues alongside the earlier established lines of good spirit and good cooperation.

41. Participation in Inter-Agency Meetings: UNIDO participated in all major Inter-Agency Coordination meetings organized by either the Multilateral Fund Secretariat or by any of the other implementing agencies.

42. Cooperation with bilaterals, specifically Canada, France, Germany, Italy and Japan has been strengthened during the reporting period. As a result, projects are considered jointly for the year 2002, in the methyl bromide and refrigeration sectors.

C. Adjustments

43. Tables 10 and 10a summarize adjustments to projects with undisbursed balances not yet considered at the Executive Committee level. The tables provide an indication of the balance of unutilized project funds (original allotment less actual project disbursements), which is automatically added to the contribution account of the Multilateral Fund and is included in the uncommitted funds to be found in the Donor Statement which is regularly submitted to the Treasurer and to the MFS.

D. Other issues

44. Table 11 reflects the information on existing and planned multi-year agreements. However, it should be noted that for planned agreements, only estimated values can be provided since most of the national or sectoral phase out plans have yet to be prepared. Moreover, for the MDI sector, in the absence of guidelines, no estimates could be provided.

45. Table 12 reflects the existing and planned approvals in 2002 against the UNIDO 2002 Business Plan. The submission to the 37th meeting is based on the information in hand at mid-April. The figures will change in accordance with the real submissions.
