5. The National Ozone Unit is requested to monitor closely, in cooperation with customs authorities and the environmental protection authorities, the importation and use of CFCs and to combine this monitoring with occasional unscheduled visits to importers and recipient manufacturing companies to check invoices and storage areas for unauthorized use of CFCs.
6. The implementing agencies in cooperation with the National Ozone Unit are requested to conduct safety inspections where applicable and keep reports on incidences of fires resulting from conversion projects.

## Section III: Projects Requiring the Use of HCFCs for Conversion

7. In line with Decision 27/13 of the Executive Committee and in recognition of Article 2F of the Montreal Protocol, the Government
