COMITÉ EXÉCUTIF
DU FONDS MULTILATÉRAL AUX FINS
D'APPLICATION DU PROTOCOLE DE MONTRÉAL
Quarante-quatrième réunion
Prague, 29 novembre – 3 décembre 2004

APERÇU DES QUESTIONS SOULEVÉES PENDANT L'EXAMEN DES PROJETS

Projets et activités présentés à la 44^e réunion du Comité exécutif

Propositions des agences d'exécution et bilatérales

1. La valeur totale des accords pluriannuels (toutes les tranches), des projets et des activités reçus par le Secrétariat de la part des agences d'exécution et bilatérales est 146 093 027 \$US (comprenant les coûts d'appui, s'il y a lieu). Le niveau de financement ayant été examiné aux fins d'approbation à la 44^e réunion du Comité exécutif est de 81 793 182 \$US pour les tranches annuelles d'accords pluriannuels, les projets et les activités.

Examen du Secrétariat des projets et des activités proposés

2. L'examen effectué par le Secrétariat des propositions de financement des projets et des activités a entraîné la recommandation générale de 77 tranches annuelles, projets et activités d'une valeur de 19 801 588 \$US. Vingt-huit projets d'investissement et autres activités d'une valeur totale de 21 434 917 \$US ont été retirés ou reportés, dont des projets qui n'offraient pas suffisamment d'information sur l'admissibilité parfois douteuse.

3. Les coûts différentiels des projets d'investissement et des tranches annuelles des plans de secteur et des plans nationaux d'élimination, dont la valeur totale du financement demandé est de 33 186 680 \$US, ont été convenus avec les agences d'exécution visées et sont présentés aux fins d'examen individuel, conformément à la pratique antérieure ou parce d'autres questions non liées aux coûts sont en instance. Les discussions se poursuivent toujours sur les coûts de 4 014 783 \$US associés à trois projets destinés à l'Égypte, le Kenya et le Vietnam.

État du Fonds

4. Le Fonds multilatéral disposait de ressources à engager de l'ordre de 76 984 369 \$US au moment de la préparation du présent document.

Vérification des accords pluriannuels

5. Treize tranches de projets pluriannuels faisant déjà l'objet d'une approbation en principe ont été proposées à la 44^e réunion. Le Secrétariat a relevé des questions sur la vérification des limites de consommation annuelles et de l'élimination annuelle par secteur exigée en vertu de l'accord, pour cinq de ces projets : le plan national d'élimination des CFC pour les Bahamas, le plan du secteur des mousses de la Chine, le volet sur le secteur des mousses et la fabrication de pièces d'équipement de réfrigération du plan national d'élimination des CFC de l'Inde, le plan du secteur de la réfrigération de l'Indonésie et le plan national d'élimination des CFC du Nigeria. La valeur totale des tranches demandées dans les quatre projets est de 16,9 millions \$US.

6. Pour chacun de ces projets, la question soulevée porte soit sur le fait que le document présenté ne mentionne pas les exigences de vérification ou soit que la vérification n'a pas été menée à terme et que de l'information sera fournie avant la 44^e réunion du Comité exécutif. Des renseignements supplémentaires ont été fournis par la suite pour deux projets (les Bahamas et le secteur des mousses de la Chine), peu avant l'achèvement de ce document.

7. Le Secrétariat prend note qu'en plus d'être une condition préalable à l'approbation du financement stipulée dans l'accord, la vérification est un instrument de surveillance important pour les pays qui mettent en œuvre des projets d'élimination pluriannuels. Il existe un lien important entre la vérification de la consommation et le succès de la mise en œuvre du projet, et par le fait même, la conformité.

8. Les circonstances des cinq projets ci-dessus qui pourraient influencer l'examen des demandes de financement correspondantes par le Comité exécutif sont précisées dans les documents d'évaluation des projets du Secrétariat, et ne sont pas soulevées dans le présent document. Par contre, dans le but de respecter ses objectifs de politique, le Comité exécutif pourrait demander aux agences de s'assurer que toutes les vérifications exigées en vertu des accords ont été menées à terme et figurent dans les documents de projet avant leur présentation, et de discuter à l'avance des questions qui surviennent avec le Secrétariat.
