EXECUTIVE COMMITTEE OF  
THE MULTILATERAL FUND FOR THE  
IMPLEMENTATION OF THE MONTREAL PROTOCOL  
Fifty-first Meeting  
Montreal, 19-23 March 2007

**CONSIDERATION OF THE ISSUE OF CTC USE AS FEEDSTOCK AND  
PROCESS AGENTS, AND THE CO-PRODUCTION OF CTC IN ARTICLE 5  
COUNTRIES (FOLLOW-UP TO DECISION 48/27)**

Pre-session documents of the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol are without prejudice to any decision that the Executive Committee might take following issue of the document.

For reasons of economy, this document is printed in a limited number. Delegates are kindly requested to bring their copies to the meeting and not to request additional copies.

1. At its 48<sup>th</sup> Meeting, the Executive Committee decided to “consider the issue of CTC use as feedstock and process agents, and the co-production of CTC in Article 5 countries, at its 51<sup>st</sup> Meeting, following receipt of the conclusions of the desk study on CTC process agent projects and the study of the Technology and Economic Assessment Panel on global CTC emissions”. However one of the source documents cited in the decision, that is, the study by the TEAP on global CTC emissions will not be available until the 27<sup>th</sup> Open-Ended Working Group Meeting in June 2007.

2. The Executive Committee could consider having a preliminary discussion on the issue at the 51<sup>st</sup> Meeting in the context of the final report on the CTC phase-out projects and agreements from the Senior Monitoring and Evaluation Officer to be presented under Agenda Item 8(a)(i) and continue the discussion at its 52<sup>nd</sup> Meeting when the TEAP study becomes available.
