EXECUTIVE COMMITTEE OF
THE MULTILATERAL FUND FOR THE
IMPLEMENTATION OF THE MONTREAL PROTOCOL
Fifty-second Meeting
Montreal, 23-27 July 2007

**CONSIDERATION OF THE ISSUE OF CTC USE AS FEEDSTOCK AND
PROCESS AGENTS, AND THE CO-PRODUCTION OF CTC IN ARTICLE 5
COUNTRIES, TAKING INTO CONSIDERATION THE STUDY OF THE
TECHNOLOGY AND ECONOMIC ASSESSMENT PANEL (TEAP) ON
GLOBAL CTC EMISSIONS (FOLLOW-UP TO DECISION 51/36)**

Pre-session documents of the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol are without prejudice to any decision that the Executive Committee might take following issue of the document.

For reasons of economy, this document is printed in a limited number. Delegates are kindly requested to bring their copies to the meeting and not to request additional copies.

1. At its 48th Meeting, the Executive Committee decided to “consider the issue of CTC use as feedstock and process agents, and the co-production of CTC in Article 5 countries, at its 51st Meeting, following receipt of the conclusions of the desk study on CTC process agent projects and the study of the Technology and Economic Assessment Panel (TEAP) on global CTC emissions”. However the Secretariat has been advised by one of the co-chairs of TEAP that the study by the TEAP on global CTC emissions, one of the source documents cited in the decision, is not available as yet.
2. The Executive Committee could consider further postponing the discussion of this item to a future meeting when the TEAP study becomes available.
