EXECUTIVE COMMITTEE OF  
THE MULTILATERAL FUND FOR THE  
IMPLEMENTATION OF THE MONTREAL PROTOCOL  
Fifty-third Meeting  
Montreal, 26-30 November 2007

**PROJECT PROPOSAL: GAMBIA**

This document consists of the comments and recommendation of the Fund Secretariat on the following project proposal:

Phase-out

- Terminal phase-out management plan (first tranche) UNDP and UNEP

Pre-session documents of the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol are without prejudice to any decision that the Executive Committee might take following issuance of the document.

For reasons of economy, this document is printed in a limited number. Delegates are kindly requested to bring their copies to the meeting and not to request additional copies.

	Final project cost effectiveness (US\$/kg)					n/a

**FUNDING REQUEST:** Approval of funding for the first tranche (2007) as indicated above.

<b>SECRETARIAT'S RECOMMENDATION</b>	Blanket approval
-------------------------------------	------------------

## **PROJECT DESCRIPTION**

1. On behalf of the Government of Gambia, UNEP, as the lead implementing agency, has submitted a terminal CFC phase-out management plan (TPMP) for consideration by the Executive Committee at its 53rd Meeting. The project will also be implemented with assistance from UNDP. The total cost of the TPMP for Gambia as originally submitted is US \$295,000 (US \$162,000 plus agency support costs of US \$21,060 for UNEP and US \$133,000 plus agency support costs of US \$11,970 for UNDP). The project proposes the complete phase-out of CFCs (3.6 ODP tonnes) by the end of 2009. The CFC baseline for compliance is 23.8 ODP tonnes.

### **Background**

2. In regard to the phase-out of CFCs in the refrigeration servicing sector, the Executive Committee allocated at its 22nd Meeting US \$68,000 to UNIDO for the implementation of a stand-alone recovery and recycling programme. An additional US \$62,000 was approved by the Committee at its 29th Meeting for UNEP for the RMP, and US \$76,700 was approved at the 37th Meeting for the Government of Germany for the RMP update.

3. Implementation of the activities in the refrigeration servicing sector resulted in the training of 120 refrigeration service technicians in good servicing practices and 83 customs officers. Under the recovery and recycling project, ten recovery machines, four recycling units and ten refrigeration tools kits have been delivered to refrigeration service technicians. An incentive programme for the conversion/retrofit of CFC-based refrigeration systems has been implemented, resulting in the conversion of 11 refrigeration systems to non-CFC refrigerants and the equipping of seven refrigeration technician associations with a basic set of service tools.

### **Policy and legislation**

4. The National Environment Management Act was enacted by the Gambian Parliament in 1994. ODS regulations were prepared and approved in 1999 and include, among other things, a ban on re-filling halon fire extinguishers; a ban on imports of CFC-12 based MAC units; a ban on imports of CFC-based refrigeration systems; a ban on bulk imports of CFC refrigerants; an import permit system for ODS; and a customs system for the identification, control and monitoring of CFCs.

### **Refrigeration servicing sector**

5. Of the total 1.0 ODP tonne of CFCs used in the refrigeration servicing sector in 2006, 0.75 ODP tonnes are used for servicing domestic refrigerators and air conditioning systems, 0.12 ODP tonnes for commercial and industrial refrigeration systems, and 0.14 ODP tonnes for MAC units.

6. The majority of technicians have received training at the Gambia Technical Training Institute, or under the RMP project. Most refrigeration service workshops in Gambia are small (one or two-man operation) and are generally too poorly equipped to ensure that the good practices taught to the technicians can be implemented correctly. In general, all of the recovery machines distributed to service technicians are no longer in operation, owing to age, climatic conditions and unavailability of spare parts after the closure of the project. The current average

prices of refrigerants per kg are: US \$11.00 for CFC-12, US \$15.00 for HFC-134a, US \$12.40 for HCFC-22 and US \$17.30 for R502.

### **Activities proposed in the TPMP**

7. The TPMP proposes to train customs officers and review training modules; train refrigeration technicians in good servicing practices, hydrocarbon refrigerants and retrofitting; provide technical assistance for three regional recovery, recycling and retrofitting centres and provide equipment for those centres; set up a retrofit incentive programme; conduct stakeholder awareness campaigns, and establish a monitoring and evaluation mechanism. The Government of Gambia plans the complete phase-out of CFCs by 1 January 2010. A work plan for 2008 has been submitted with the TPMP proposal.

## **SECRETARIAT'S COMMENTS AND RECOMMENDATION**

### **COMMENTS**

8. The 2006 CFC consumption reported by the Government of Gambia under Article 7 of the Protocol of 1.0 ODP tonnes is already 10.9 ODP tonnes below the Protocol's maximum allowable level of consumption of 11.9 ODP tonnes for that year, and 2.6 ODP tonnes below the 2007 allowable level of consumption of 3.6 ODP tonnes.

9. The Secretariat sought an explanation for the major reduction in CFC consumption experienced in Gambia from 5.1 ODP tonnes to 0.2 ODP tonnes between 2003 and 2004, and the subsequent increase to 1.0 ODP tonne in 2006. UNEP reported that the recent increase in CFC consumption was mainly due to some level of ODS trade along the country's borders. However, necessary steps have been taken to address this problem, which is expected to wane in the coming years.

10. The Secretariat also discussed technical issues related to the TPMP, namely: the economic viability of recovering CFC-12 refrigerants considering that most of the current level of CFC consumption is for servicing domestic refrigerators; the funding being requested to strengthen the current ODS legislation, to implement additional awareness activities and to further train customs officers and refrigeration technicians, in light of similar programmes implemented so far; the three excellence and referral centres to be established; and the roles and responsibilities of all stakeholders involved in the implementation of the TPMP.

11. Based on the observations made by the Secretariat, and taking into account the requirements of decisions 41/100 and 49/6 of the Executive Committee, UNEP and UNDP adjusted the sub-project components of the TPMP accordingly. The technical assistance component has been strengthened by providing basic service tools to technicians to retrofit domestic refrigeration systems to hydrocarbon based refrigerants; providing technical and financial support to enterprises with CFC-based commercial and industrial refrigeration equipment to replace or permanently retrofit them to non-CFC refrigerants. Through the revised training programme, technicians will be trained in good service practices and safe retrofitting of mainly domestic refrigeration systems with hydrocarbon-based refrigerants. Due to the changes made in the design of the project components reducing the focus on training programmes, the funds requested for the TPMP appear justified.

## Agreement

12. The Government of Gambia submitted a draft agreement between the Government and the Executive Committee setting out the conditions for the complete phase-out of CFCs in Gambia, which is contained in Annex I to the present document. Annex II contains the overview tables for this multi-year agreement.

## RECOMMENDATION

13. The Secretariat recommends blanket approval of the terminal phase-out management plan for Gambia. The Executive Committee may wish to:

- (a) Approve, in principle, the terminal phase-out management plan for Gambia, at the amount of US \$295,000 (US \$165,000 plus agency support costs of US \$21,450 for UNEP and US \$130,000 plus agency support costs of US \$11,700 for UNDP);
- (b) Approve the draft agreement between the Government of Gambia and the Executive Committee for the implementation of the terminal phase-out management plan as contained in Annex I to this document;
- (c) Urge UNEP and UNDP to take full account of the requirements of decisions 41/100 and 49/6 of the Executive Committee during the implementation of the terminal phase-out management plan; and
- (d) Approve the first tranche of the plan at the funding levels shown in the table below:

	<b>Project Title</b>	<b>Project Funding (US\$)</b>	<b>Support Cost (US\$)</b>	<b>Implementing Agency</b>
(a)	Terminal phase-out management plan (first tranche)	93,000	12,090	UNEP
(b)	Terminal phase-out management plan (first tranche)	99,500	8,955	UNDP

## Annex I

### **DRAFT AGREEMENT BETWEEN GAMBIA AND THE EXECUTIVE COMMITTEE OF THE MULTILATERAL FUND FOR THE PHASE-OUT OF OZONE-DEPLETING SUBSTANCES**

1. This Agreement represents the understanding of the Government of Gambia (the “Country”) and the Executive Committee with respect to the complete phase-out of controlled use of the ozone-depleting substances set out in Appendix 1-A (the “Substances”) prior to 1 January 2010 in compliance with Protocol schedules.
2. The Country agrees to meet the annual consumption limits of the Substances as set out in row 2 of Appendix 2-A (the “Targets, and Funding”) in this Agreement. The Country accepts that, by its acceptance of this Agreement and performance by the Executive Committee of its funding obligations described in paragraph 3, it is precluded from applying for or receiving further funding from the Multilateral Fund in respect to the Substances.
3. Subject to compliance by the Country with its obligations set out in this Agreement, the Executive Committee agrees in principle to provide the funding set out in row 6 of Appendix 2-A (the “Targets, and Funding”) to the Country. The Executive Committee will, in principle, provide this funding at the Executive Committee meetings specified in Appendix 3-A (the “Funding Approval Schedule”).
4. The Country will meet the consumption limits for each of the Substances as indicated in Appendix 2 -A. It will also accept independent verification by the relevant implementing agency of achievement of these consumption limits as described in sub-paragraph 5(b) of this Agreement.
5. The Executive Committee will not provide the Funding in accordance with the Funding Approval Schedule unless the Country satisfies the following conditions at least 60 days prior to the applicable Executive Committee meeting set out in the Funding Approval Schedule:
  - (a) That the Country has met the Targets for the applicable year;
  - (b) That the meeting of these Targets will be independently verified, if requested by the Executive Committee consistent with paragraph (d) of decision 45/54;
  - (c) That the Country has substantially completed all actions set out in the last annual implementation programme; and
  - (d) That the Country has submitted and received endorsement from the Executive Committee for an annual implementation programme in the form of Appendix 4-A (the “Format of Annual Implementation Programme”) in respect of the year for which tranche funding is being requested.
6. The Country will ensure that it conducts accurate monitoring of its activities under this Agreement. The institutions set out in Appendix 5-A (the “Monitoring Institutions and Roles”) will monitor and report on that monitoring in accordance with the roles and responsibilities set

out in Appendix 5-A. This monitoring will also be subject to independent verification as described in sub-paragraph 5(b).

7. While the Funding was determined on the basis of estimates of the needs of the Country to carry out its obligations under this Agreement, the Executive Committee agrees that the Country may have the flexibility to reallocate the approved funds, or part of the funds, according to the evolving circumstances to achieve the goals prescribed under this Agreement. Reallocations categorized as major changes must be documented in advance in the next annual implementation programme and endorsed by the Executive Committee as described in sub-paragraph 5(d). Reallocations not categorized as major changes may be incorporated in the approved annual implementation programme, under implementation at the time, and reported to the Executive Committee in the report on implementation of the annual implementation programme.

8. Specific attention will be paid to the execution of the activities in the refrigeration-servicing sub-sector, in particular:

- (a) The Country would use the flexibility available under this Agreement to address specific needs that might arise during project implementation;
- (b) The technical assistance programme for the refrigeration-servicing sub-sector will be implemented in stages so that remaining resources can be diverted to other phase-out activities such as additional training or procurement of service tools in cases where the proposed results are not achieved, and will be closely monitored in accordance with Appendix 5-A of this Agreement; and
- (c) The Country and the implementing agencies will take full account of the requirements of decisions 41/100 and 49/6 during the implementation of the plan.

9. The Country agrees to assume overall responsibility for the management and implementation of this Agreement and of all activities undertaken by it or on its behalf to fulfill the obligations under this Agreement. UNEP has agreed to be the lead implementing agency (the "Lead IA") and UNDP has agreed to be cooperating implementing agency (the "Cooperating IA") under the lead of the Lead IA in respect of the Country's activities under this Agreement. The Lead IA will be responsible for carrying out the activities listed in Appendix 6-A, including but not limited to independent verification as per sub-paragraph 5(b). The Country also agrees to periodic evaluations, which might be carried out under the monitoring and evaluation work programmes of the Multilateral Fund. The Cooperating IA will be responsible for carrying out the activities listed in Appendix 6-B. The Executive Committee agrees, in principle, to provide the Lead IA and the Cooperating IA with the fees set out in rows 7 and 8 of Appendix 2-A.

10. Should the Country, for any reason, not meet the Targets for the elimination of the Substances set out in Appendix 2-A of the Montreal Protocol or otherwise does not comply with this Agreement, then the Country agrees that it will not be entitled to the Funding in accordance with the Funding Approval Schedule. At the discretion of the Executive Committee, funding will be reinstated according to a revised funding approval schedule determined by the Executive Committee after the Country has demonstrated that it has satisfied all of its obligations that were due to be met prior to receipt of the next tranche of funding under the Funding Approval Schedule. The Country acknowledges that the Executive Committee may reduce the amount of

the Funding by the amounts set out in Appendix 7-A in respect of each ODP tonne of reductions in consumption not achieved in any one year.

11. The funding components of this Agreement will not be modified on the basis of any future Executive Committee decision that may affect the funding of any other consumption sector projects or any other related activities in the Country.

12. The Country will comply with any reasonable request of the Executive Committee and the Lead IA and the Cooperating IA to facilitate implementation of this Agreement. In particular, it will provide the Lead IA and the Cooperating IA with access to information necessary to verify compliance with this Agreement.

13. All of the agreements set out in this Agreement are undertaken solely within the context of the Montreal Protocol and as specified in this Agreement. All terms used in this Agreement have the meaning ascribed to them in the Protocol unless otherwise defined herein.

## APPENDICES

### APPENDIX 1-A: THE SUBSTANCES

Annex A:	Group I	CFC-12, CFC-115
----------	---------	-----------------

### APPENDIX 2-A: THE TARGETS, AND FUNDING

	2007	2008	2009	2010	Total
1. Montreal Protocol consumption limits of Annex A, Group I substances (ODP tonnes)	3.6	3.6	3.6	0.0	
2. Max allowable total consumption of Annex A Group I substances (ODP tonnes)	3.6	3.6	3.6	0.0	
3. New reduction under plan (ODP tones)			3.6	0.0	3.6
4. Lead IA agreed funding (US \$)	93,000	72,000			165,000
5. Cooperating IA agreed funding (US\$)	99,500	30,500			130,000
6. Total agreed funding (US \$)	192,500	102,500			295,000
7. Lead IA support costs (US \$)	12,090	9,360			21,450
8. Cooperating IA support cost (US\$)	8,955	2,745			11,700
9. Total agency support costs (US \$)	21,045	12,105			33,150
10. Grand total agreed costs (US \$)	213,545	114,605			328,150

### APPENDIX 3-A: FUNDING APPROVAL SCHEDULE

1. Funding for the second tranche will be considered for approval at the last meeting of 2008.

**APPENDIX 4-A: FORMAT OF ANNUAL IMPLEMENTATION PROGRAMME**

**1. Data**

Country \_\_\_\_\_  
 Year of plan \_\_\_\_\_  
 # of years completed \_\_\_\_\_  
 # of years remaining under the plan \_\_\_\_\_  
 Target ODS consumption of the preceding year \_\_\_\_\_  
 Target ODS consumption of the year of plan \_\_\_\_\_  
 Level of funding requested \_\_\_\_\_

## 7. Administrative Fees

### APPENDIX 5-A: MONITORING INSTITUTIONS AND ROLES

1. All the monitoring activities will be coordinated and managed through the project "Monitoring and Management Unit", within the National Ozone Unit (NOU).

2. The Lead IA will have a particularly prominent role in the monitoring arrangements because of its mandate to monitor ODS imports, whose records will be used as a crosschecking reference in all the monitoring programmes for the different projects within the terminal phase-out plan (TPMP). This organization, along with the Cooperating IA will also undertake the challenging task of monitoring illegal ODS imports and exports with advisements made to the appropriate national agencies through the National Ozone Unit (NOU).

#### Verification and reporting

3. In accordance to decision 45/54 (d), the Executive Committee reserves the right for independent verification in case the Executive Committee selects Gambia for related auditing. Based on discussion with the Lead IA, Gambia should select the independent organization (auditing) to carry out the verification of the TPMP results and this independent monitoring programme.

### APPENDIX 6-A: ROLE OF THE LEAD IMPLEMENTING AGENCY

1. The Lead IA will be responsible for a range of activities to be specified in the project document as follows:

- (a) Ensuring performance and financial verification in accordance with this Agreement and with its specific internal procedures and requirements as set out in the Country's phase-out plan;
- (b) Assisting the Country in preparation of the Annual Implementation Programme;
- (c) Providing verification to the Executive Committee that the Targets have been met and associated annual activities have been completed as indicated in the Annual Implementation Programme consistent with Appendix-5A. In case the Executive Committee selects Gambia consistent with paragraph (d) of decision 45/54, separate funding will be provided by the Executive Committee to the Lead IA for this undertaking;
- (d) Ensuring that the achievements in previous annual implementation programmes are reflected in the future annual implementation programme;

- (e) Reporting on the implementation of the Annual Implementation Programme of the preceding year and preparing for annual implementation programme for the year of submission for submission to the Executive Committee, commencing with the 2008 annual implementation programme combined with the report on the 2007 annual implementation programme;
- (f) Ensuring that appropriate independent technical experts carry out the technical reviews undertaken by the Lead IA;
- (g) Carrying out required supervision missions;
- (h) Ensuring the presence of an operating mechanism to allow effective, transparent implementation of the Annual Implementation Programme and accurate data reporting;
- (i) Providing verification for the Executive Committee that consumption of the Substances has been eliminated in accordance with the Targets, if requested by the Executive Committee;
- (j) Coordinating the activities of the Cooperating IA;
- (k) Ensuring that disbursements made to the Country are based on the use of the indicators; and
- (l) Providing assistance with policy, management and technical support when required.

#### **APPENDIX 6-B: ROLE OF COOPERATING IMPLEMENTING AGENCY**

- 1. The Cooperating IA will:
  - (a) Provide policy development assistance when required;
  - (b) Assist the Country in the implementation and assessment of the activities funded for by the Cooperating IA; and
  - (c) Provide reports to the Lead IA on these activities, for inclusion in the consolidated reports.

#### **APPENDIX 7-A: REDUCTIONS IN FUNDING FOR FAILURE TO COMPLY**

- 1. In accordance with paragraph 10 of the Agreement, the amount of funding provided may be reduced by US \$10,000 per ODP tonne of reductions in consumption not achieved in the year.
