COMITÉ EJECUTIVO DEL FONDO MULTILATERAL
PARA LA APLICACIÓN DEL
PROTOCOLO DE MONTREAL
Sexagésima primera Reunión
Montreal, 5 al 9 de julio de 2010

**SITUACIÓN DE EJECUCIÓN DE LOS PROYECTOS CON DEMORAS
Y PERSPECTIVAS DE LOS PAÍSES QUE OPERAN AL AMPARO DEL ARTÍCULO 5
EN RELACIÓN CON EL CUMPLIMIENTO DE LAS MEDIDAS DE CONTROL
SIGUIENTES DEL PROTOCOLO DE MONTREAL**

RESUMEN EJECUTIVO

- Todos los países que se encuentran en riesgo de incumplimiento de las reducciones intermedias o que tienen un consumo remanente antes de la eliminación de 2010 (y la reducción de 1,1,1-tricloroetano [TCA]) cuentan con proyectos aprobados para alcanzar dichos objetivos, con actividades en los planes administrativos para 2010-2014 que contribuirían a lograrlos o con actividades que se llevaron a cabo en el marco del Fondo para el Medio Ambiente Mundial (FMAM), a excepción de:
 - El Ecuador, que cumple respecto del tetracloruro de carbono (CTC), pero aún tiene un consumo de CTC de 0,1 toneladas PAO;
 - Un país que aún no ha proporcionado los datos del Artículo 7 ni del programa de país correspondiente a 2008 o 2009 y respecto de los cuales, por lo tanto, la evaluación de perspectivas de cumplimiento se basa en datos de años anteriores;
 - Los datos de consumo más recientes indican que 84 países (60 según los datos de 2008 y 1 según los datos de 2007) continuaron teniendo consumo de CFC, pero 59 notificaron niveles nulos y 4 notificaron consumo negativo;
 - Los datos de consumo más recientes, no obstante, indicaron que la mayoría de los países tienen un consumo nulo de las sustancias remanentes (lo que no incluye los HCFC), y solo 8 países notificaron consumo de halones (7 según datos de 2008); 35 países notificaron consumo de metilbromuro (19 según datos de 2008); 15 notificaron consumo de CTC (9 según datos de 2008); y 2 países excedieron el objetivo de TCA del 70 por ciento para 2010 (1 según datos de 2008);
 - Todos los países han recibido fondos de preparación para el plan de gestión de eliminación de HCFC o han presentado solicitudes a la 61ª Reunión.
- Con respecto a los países con posibles cuestiones de cumplimiento sometidas a consideración del Comité de Aplicación en 2010, de las 41 cuestiones respecto de Partes que operan al amparo del Artículo 5 sometidas a consideración, se han resuelto 26;
- Los datos sobre la ejecución de los programas de país indican que:
 - Todos los países proporcionaron datos de acuerdo con el nuevo formato aprobado hace más de cinco años, pero solo cinco países presentaron datos utilizando el sistema basado en la Web para 2009;
 - De un consumo total estimado de SAO de 3 073 toneladas PAO en 2009 en países que operan al amparo del Artículo 5, lo que no incluye los HCFC, alrededor de 1 155,1 toneladas PAO (lo que incluye los datos del Artículo 7 para los cuatro países que no han notificado datos de los programas de país) aún deben ser consideradas por el Comité Ejecutivo para adopción de medidas;
 - La mayor parte de las 1 155,1 toneladas PAO de consumo corresponde a metilbromuro (MB) (1 107,2 toneladas PAO), seguido de los CFC (47,8 toneladas PAO);
 - En los datos de programa de país se notificó un consumo de HCFC de 441 738 toneladas métricas en total (29 101 toneladas PAO). Para los 53 países que notificaron los datos de 2008 y de 2009, el consumo de HCFC disminuyó 0,3 por ciento.

- De los 129 países que notificaron información sobre planes de gestión de refrigerantes/planes nacionales de gestión de la eliminación/planes de gestión de eliminación definitiva, 102 países indicaron ya sea progresos o bien habían completado su ejecución;
 - De los 138 países que presentaron información acerca de los sistemas de otorgamiento de licencias, 130 han notificado que dichos sistemas se encuentran operativos (la totalidad de los 52 países que presentaron datos de 2009 contaban con sistemas de otorgamiento de licencias operativos, de los cuales el 98 por ciento funciona ‘satisfactoriamente’ o ‘muy bien’);
 - En la mayoría de los países, el precio del CFC-11 continúa aumentando mientras que los precios del CFC-12 (si bien son más altos que en 2005) y de varias alternativas están disminuyendo.
- De los 19 proyectos con demoras en la ejecución, tres se han completado y 15 se han recomendado para supervisión continua;
 - Se recomendó la preparación de un informe adicional para dos proyectos cuyos informes de situación debían presentarse en esta reunión;
 - La información adicional sobre actividades respecto de HCFC aprobadas en la 60ª Reunión y la eliminación asociada con esta se han incluido en el Anexo I, Apéndice VI.

Introducción

1. Este documento consta de cuatro partes:
 - a) La Parte I se preparó atendiendo a las decisiones 32/76 b) y 46/4, en las que se pedía a la Secretaría que preparase una actualización, para cada Reunión del Comité Ejecutivo, de la situación de cumplimiento en los países que operan al amparo del Artículo 5 que están sujetos a las medidas de control del Protocolo de Montreal.
 - b) La Parte II contiene información acerca de aquellos países que operan al amparo del Artículo 5 que están sujetos a decisiones de las Partes y recomendaciones del Comité de Aplicación acerca del cumplimiento.
 - c) En la Parte III, se presentan datos sobre la ejecución de los programas de país, incluido un análisis de los datos de consumo de sustancias que agotan la capa de ozono por sector. También incluye una sección que se ocupa de las características de los programas de eliminación de SAO nacionales.
 - d) La Parte IV presenta los resultados de progresos alcanzados en cuanto al logro del cumplimiento, incluida información sobre proyectos con demoras en la ejecución.
2. El análisis realizado y las conclusiones del presente documento no menoscaban en modo alguno la situación de cumplimiento que determine la Reunión de las Partes, único órgano facultado para ello. Los datos notificados de conformidad con el Artículo 7 del Protocolo se utilizan exclusivamente para determinar la situación de los países respecto del cumplimiento cada año. El análisis que se realiza en este documento utiliza una combinación de datos notificados a la Secretaría del Fondo sobre la ejecución de los programas de país para diversos períodos de cumplimiento y datos con arreglo al Artículo 7. Por lo tanto, este documento no determina el cumplimiento *per se*. Por el contrario, evalúa las perspectivas de los esfuerzos de los países que operan al amparo del Artículo 5 por cumplir con lo estipulado por una o más medidas de control del Protocolo de Montreal. Su principal finalidad es identificar las SAO que aún deben ser abordadas por medidas apoyadas por el Fondo Multilateral.

PARTE I: SITUACIÓN Y PERSPECTIVAS DE CUMPLIMIENTO (SEGÚN LOS DATOS MÁS RECIENTES DISPONIBLES)

3. En esta sección se presentan los resultados del análisis de la situación de cumplimiento de las medidas de control que incluyen las medidas de control remanentes para 2010 con respecto a los CFC, a los halones y a los CTC, y para 2015 con respecto al MB y al TCA.¹ El análisis parte del supuesto de que los datos de consumo más recientes notificados en virtud del Artículo 7 o que figuran en los datos de los programas de país tuvieron en cuenta la eliminación en los proyectos completados que han sido aprobados por el Comité Ejecutivo. Desde el inicio del Fondo Multilateral hasta diciembre de 2009, se habían eliminado 229 880 toneladas PAO de consumo y 195 848 toneladas PAO de producción de proyectos completados.
4. Los proyectos completados se valoraron en 1,92 millones de \$EUA dentro de un total aprobado de aproximadamente 2 250 millones de \$EUA. En el documento UNEP/OzL.Pro/ExCom/37/18, que se sometió a la consideración de la 37ª Reunión del Comité Ejecutivo, se describe detalladamente la metodología empleada en el análisis.

¹ No existe ningún proyecto que se ocupe las sustancias incluidas en el Anexo B-1; el Comité Ejecutivo no ha examinado ni financiado ningún proyecto en relación con estas sustancias a las que se aplica desde 2007 una reducción del umbral de consumo del 85 por ciento.

5. Para este análisis, se utilizaron los datos más recientes disponibles. Al 21 de mayo de 2010, 32 de 147 países que operan al amparo del Artículo 5 habían notificado datos de 2009 con arreglo al Artículo 7 (en comparación con el 28 de junio de 2009). Al 2 de junio de 2010, otros 21 países notificaron datos de 2009 a la Secretaría del Fondo relativos únicamente a progresos en la ejecución de los programas de país (decisión 17/34). Para aquellos países que no habían presentado datos para 2009, se usaron en el análisis los datos de consumo más reciente disponibles. Esto incluyó el uso de datos con arreglo al Artículo 7 de 2008 para 93 países y de 2007 para un país. En el análisis se parte del supuesto de que los niveles de consumo de SAO más recientes notificados, excluidos los HCFC, no han aumentado, aunque esto podría no aplicarse a alrededor de 94 países para los cuales los datos de 2009 no estaban disponibles, y que podrían no estar cumpliendo con lo estipulado.

6. Los organismos de ejecución bilaterales y multilaterales presentaron informes anuales sobre la marcha de las actividades a la 61ª Reunión del Comité Ejecutivo, en los cuales facilitaron datos sobre la situación de la ejecución de todas las actividades y los proyectos aprobados por el Comité hasta el fin de 2009. Los datos sobre las aprobaciones potenciales en 2010 han sido tomados del *Plan administrativo refundido revisado del Fondo Multilateral para los años 2010-2014 (UNEP/OzL.Pro/ExCom/61/7)*, tal como ha sido presentado en la 61ª Reunión.

7. La Secretaría del Fondo seguirá sintetizando todos los datos incluidos en las versiones previas de los informes sobre la situación y perspectivas para el cumplimiento que hayan sido utilizados por la Secretaría del Fondo con fines analíticos. Estos datos están disponibles a pedido.

SECTOR DE PRODUCCIÓN

8. De los siete² países que operan al amparo del Artículo 5 que disponen de instalaciones para la producción de CFC, los Gobiernos de la Argentina, China, India, República Popular Democrática de Corea, México y República Bolivariana de Venezuela han concertado acuerdos para llevar a cabo las reducciones previstas. El Gobierno del Brasil indicó que ha eliminando por cuenta propia la producción de CFC. Para la producción de halones, el Gobierno de China tiene un acuerdo vigente, y el Gobierno de la India recibió una donación por única vez para el cierre de sus instalaciones de producción de halones.

9. Cuatro países (el Brasil, China, India y República Popular Democrática de Corea) tienen establecido un nivel básico de referencia para la producción de CTC. El Comité Ejecutivo ya ha aprobado proyectos para la eliminación definitiva del CTC en los sectores de producción y consumo para tres países (China, República Popular Democrática de Corea e India). En la 54ª Reunión se aprobó un proyecto para el sector de agentes de proceso de CTC en Brasil. Solo se aprobaron proyectos para el cierre de las instalaciones de producción de TCA en China.

10. Se aprobaron proyectos para el cierre de la producción de metilbromuro para China, que era uno de los dos únicos países que operan al amparo del Artículo 5 con instalaciones de producción de metilbromuro. El segundo es la República de Corea, que no ha solicitado asistencia del Fondo.

11. El Comité Ejecutivo ha aprobado preparación de proyecto para el sector de producción de HCFC en China y ha invitado a que se presente una auditoría técnica mientras el Subgrupo del Sector de la Producción continúa deliberando acerca de las directrices para el sector de producción de HCFC al margen de la presente reunión.

² Si bien Rumania recibió financiación para la eliminación de la producción y el consumo, dicho país no se ha incluido debido a que el 1 de enero de 2008 fue reclasificado como país que no opera al amparo del Artículo 5.

SECTOR DE CONSUMO

12. En esta sección se presenta un resumen de los resultados de un análisis detallado del grado en que los países parecen encontrarse en situación de incumplimiento o están en riesgo de no cumplir con lo estipulado. Los datos sobre los que se basa este resumen se incluyen en el Anexo I, que contiene información detallada para cada país, desglosada por sustancia. Asimismo, en el Anexo I, se indica si los países han recibido toda la asistencia que esperaban que les fuese proporcionada por el Fondo Multilateral.

13. En la evaluación del cumplimiento que figura en el Anexo I se incluyó información relativa al momento en que se aprobó la actividad que permitió el cumplimiento y si el país ha notificado el establecimiento de un sistema de otorgamiento de licencias. Esta información debería servir de mayor ayuda al Comité Ejecutivo para evaluar las perspectivas de cumplimiento de los países, dado que la fecha de aprobación indica cuánto tiempo ha durado la ejecución del proyecto o del acuerdo. Asimismo, la información relativa al establecimiento de un sistema de otorgamiento de licencias indica que existen controles que permitirán un futuro cumplimiento, sea cual fuere el nivel actual de consumo. La información sobre aprobación de proyectos se toma del Inventario de proyectos aprobados. Los datos relativos a los sistemas de concesión de licencias establecidos han sido facilitados por la Secretaría para el Ozono el 14 de mayo de 2010.

CFC

14. En el Cuadro 1, se presenta un resumen de la situación de los países en relación con el cumplimiento de los controles de CFC. Además, se indica el tipo de datos notificados y se incluyen los países agrupados en dos categorías: i) aquellos cuyo consumo más reciente excede el objetivo de reducción del 85 por ciento de 2007 que se aplica hasta diciembre de 2009; y ii) aquellos cuyo consumo más reciente excede el objetivo de eliminación del 100 por ciento de 2010.

Cuadro 1

MEDIDAS DE CONTROL DE LOS CFC: RESUMEN DE INCUMPLIMIENTO O DE RIESGO DE INCUMPLIMIENTO

| Datos | Países cuyo consumo más reciente excede el objetivo de reducción del 85 por ciento de 2007 | Países cuyo consumo más reciente excede el objetivo de eliminación del 100 por ciento de 2010 |
|---|--|---|
| Consumo más reciente | 3 países (Bangladesh, Iraq y Vanuatu; Bangladesh cumplía con su Plan de acción para 2009). | 84 países |
| Datos de 2009 (Art. 7 o programa de país) | Bangladesh (Bangladesh cumplía con su Plan de acción) | 23 países |

15. Todos los países cuyo consumo más reciente excede las medidas de control o que se considera que están en riesgo de incumplimiento han recibido apoyo del Fondo Multilateral o bien cuentan con actividades planificadas en los planes administrativos para 2010-2014 de los organismos, excepto Angola, Etiopía, Somalia y Timor-Leste. El plan de gestión de eliminación definitiva de CFC para estos países se integrará en los planes de gestión de eliminación de HCFC conforme a la decisión 60/5 d).

Halones

16. En el Cuadro 2, se presenta un resumen de la situación de los países respecto del cumplimiento de los controles previstos para los halones. Setenta y cinco países han notificado un consumo de halones

nulo entre 1995 y 2009. Sesenta y un países han recibido apoyo para actividades de bancos de halones o acuerdos de eliminación, lo cual incluye países que participan en bancos de halones regionales. En el Cuadro 2, se presenta el tipo de datos notificados y se incluyen países, que se han agrupado en las siguientes dos categorías: i) aquellos cuyo consumo más reciente excede el objetivo de reducción del 50 por ciento de 2005 que se aplica hasta diciembre de 2009; y ii) aquellos cuyo consumo más reciente excede el objetivo de eliminación del 100 por ciento de 2010.

Cuadro 2

**MEDIDAS DE CONTROL DE HALONES:
RESUMEN DE INCUMPLIMIENTO O DE RIESGO DE INCUMPLIMIENTO**

| Datos | Países cuyo consumo más reciente excede el objetivo de reducción de halones del 50 por ciento de 2005 | Países cuyo consumo más reciente excede el objetivo de eliminación del 100 por ciento de 2010 |
|---|--|--|
| Consumo más reciente | Iraq | 8 países |
| Datos de 2009 (Art. 7 o programa de país) | Ninguno | Arabia Saudita |

17. Todos los países cuyo consumo más reciente excede sus medidas de control o a los que se considera en riesgo de incumplimiento han recibido apoyo del Fondo Multilateral, a excepción de la República de Corea y los Emiratos Árabes Unidos. La República de Corea y los Emiratos Árabes Unidos habían convenido en no recibir financiación del Fondo Multilateral.

Metilbromuro

18. En el Cuadro 3 se presenta la situación de los países con respecto al cumplimiento de las medidas de control para el metilbromuro (excluidos usos de cuarentena y preembarque). La totalidad de los 144 países que operan al amparo del Artículo 5 que han ratificado la Enmienda de Copenhague han notificado datos de consumo básico completos. Los tres países que operan al amparo del Artículo 5 que no han ratificado la Enmienda de Copenhague son los siguientes: Angola, Guinea y Nepal. De los 144 países que han ratificado la Enmienda de Copenhague, 58 notificaron un consumo nulo, tanto para el consumo de referencia como para el consumo más reciente. En uno de los casos, no había datos de consumo de 2008 disponibles. Noventa y nueve países que operan al amparo del Artículo 5 recibieron ayuda del Fondo Multilateral para actividades y/o proyectos relacionados con la eliminación del metilbromuro. En el Cuadro 3, se presenta el tipo de datos notificados y se incluyen países, que se han agrupado en las siguientes dos categorías: i) aquellos cuyo consumo más reciente excede el objetivo de reducción del 20 por ciento de 2005 que se aplica hasta diciembre de 2014; y ii) aquellos cuyo consumo más reciente excede el objetivo de eliminación del 100 por ciento de 2015.

Cuadro 3

**MEDIDAS DE CONTROL DE METILBROMURO:
RESUMEN DE INCUMPLIMIENTO O DE RIESGO DE INCUMPLIMIENTO***

| Datos | Países cuyo consumo más reciente excede el objetivo de reducción de MB del 20 por ciento de 2005 | Países cuyo consumo más reciente excede el objetivo de eliminación del 100 por ciento de 2015 |
|---|---|--|
| Consumo más reciente | Iraq y Turkmenistán | 35 países |
| Datos de 2009 (Art. 7 o programa de país) | Turkmenistán | 16 países |

* Esta Cuadro se refiere a los 144 países que operan al amparo del Artículo 5 que notificaron datos de consumo básico de referencia y de consumo más reciente.

19. Iraq y Turkmenistán son los únicos países cuyo consumo más reciente rebasa sus medidas de control para 2005. Turkmenistán tiene proyectos aprobados que conducirán a la eliminación completa del metilbromuro, e Iraq ha recibido proyectos de preparación de proyecto del Fondo Multilateral en la 58ª Reunión para actividades relacionadas con el metilbromuro. Iraq tiene un proyecto planificado en el plan administrativo para 2010-2014.

Tetracloruro de carbono

20. En el Cuadro 4 se presenta un resumen de la situación de los países con respecto al cumplimiento de las medidas de control de CTC. Los datos resumidos excluyen las materias primas y no establecen diferencias sobre su uso final específico (tales como solventes y agentes de proceso). De los 146 países que comunicaron datos de niveles básicos de referencia, 90 notificaron un consumo nulo tanto para el consumo básico de referencia como para el consumo más reciente. En el Cuadro 4, se presenta el tipo de datos notificados y se identifican países, que se han agrupado en las siguientes dos categorías: i) aquellos cuyo consumo más reciente excede el objetivo de reducción del 85 por ciento de 2005 que se aplica hasta diciembre de 2009; y ii) aquellos cuyo consumo más reciente excede el objetivo de eliminación del 100 por ciento de 2010.

Cuadro 4

**MEDIDAS DE CONTROL DE TETRACLORURO DE CARBONO:
RESUMEN DE INCUMPLIMIENTO O DE RIESGO DE INCUMPLIMIENTO**

| Datos | Países cuyo consumo más reciente excede el objetivo de reducción del 85 por ciento de 2005 | Países cuyo consumo más reciente excede el objetivo de eliminación del 100 por ciento de 2010 |
|---|---|--|
| Consumo más reciente | Ecuador e Iraq | 15 países |
| Datos de 2009 (Art. 7 o programa de país) | Ninguno | 6 países |

21. Todos los países cuyo consumo más reciente excede sus medidas de control o a los que se considera en riesgo de incumplimiento han recibido apoyo del Fondo Multilateral, a excepción del Ecuador. El Ecuador es el único país que podría no necesitar asistencia adicional para cumplir el objetivo de reducción del 100 por ciento para CTC. El Banco Mundial analizó la posibilidad de un proyecto, y determino que no había un proyecto debido a usos de laboratorio.

1,1,1-tricloroetano (TCA)

22. En el Cuadro 5 se presenta un resumen de la situación de los países con respecto al cumplimiento de las medidas de control del TCA. De los 146 países que suministraron datos de nivel básico de referencia, 103 notificaron un consumo nulo tanto para el consumo básico de referencia como para el consumo más reciente. En el Cuadro 5, se presenta el tipo de datos notificados y se incluyen países, que se han agrupado en las siguientes tres categorías: i) aquellos cuyo consumo más reciente excede el objetivo de reducción del 30 por ciento de 2005 que se aplica hasta diciembre de 2009; ii) aquellos cuyo consumo más reciente excede el objetivo de reducción del 70 por ciento de 2010; y iii) aquellos cuyo consumo más reciente excede el objetivo de eliminación del 100 por ciento de 2015.

Cuadro 5

**MEDIDAS DE CONTROL DEL 1,1,1-TRICLOROETANO:
RESUMEN DE INCUMPLIMIENTO O DE RIESGO DE INCUMPLIMIENTO**

| Datos | Países cuyo consumo más reciente excede el objetivo de reducción de TCA del 30 por ciento de 2005 | Países cuyo consumo más reciente excede el objetivo de reducción de TCA del 70 por ciento de 2010 | Países cuyo consumo más reciente excede el objetivo de reducción de TCA del 100 por ciento de 2015 |
|---|--|--|---|
| Consumo más reciente | Ninguno | 2 países (Bangladesh y República de Corea [la]) (Bangladesh cumplía con su Plan de acción para 2009). | 9 países |
| Datos de 2009 (Art. 7 o programa de país) | Ninguno | Bangladesh (Bangladesh cumplía con su Plan de acción para 2009). | 6 países |

23. Todos los países cuyo consumo más reciente excede sus medidas de control o a los que se considera en riesgo de incumplimiento han recibido apoyo del Fondo Multilateral, a excepción de la República de Corea. La República de Corea ha convenido en no recibir financiación del Fondo Multilateral.

HCFC

24. En el Apéndice VI se incluye un análisis de los datos de consumo más reciente sobre HCFC e indica si el país ha recibido fondos para preparación de un plan de gestión de eliminación de HCFC, la cantidad de proyectos de inversión aprobados, la cantidad de proyectos de inversión aprobados, la eliminación total aprobada en toneladas PAO y actividades planificadas en los planes administrativos para 2010. Se ha añadido una nueva columna al apéndice para indicar la duración cubierta por el plan (como, por ejemplo, un plan de gestión de eliminación de HCFC aprobado para alcanzar la reducción del 10 por ciento en 2015 o para alcanzar la reducción del 35 por ciento en 2020).

25. Los datos del nivel básico de referencia para los HCFC no estarán disponibles hasta 2011, cuando se hayan notificado los dos años de referencia (2009 y 2010). Todos los países han recibido fondos de preparación para el plan de gestión de eliminación de HCFC o han presentado solicitudes a la 61ª Reunión.

PARTE II: SITUACIÓN DE LA EJECUCIÓN EN LOS PAÍSES SUJETOS A DECISIONES DE LAS PARTES SOBRE EL CUMPLIMIENTO Y AQUELLOS EN RIESGO DE INCUMPLIMIENTO

26. La presente sección versa sobre los países que operan al amparo del Artículo 5 que están sujetos a decisiones en materia de cumplimiento y aquellos que se encuentran en riesgo de incumplimiento.

27. Existen 41 cuestiones relacionadas con el cumplimiento de decisiones de las Partes en materia de cumplimiento que se aplican a 35 países que habían sido examinadas por el Comité de Ejecución en 2009 con algunas decisiones relativas a marzo de 2010. Estas cuestiones guardan relación con asuntos en materia de reglamentación (sistemas de otorgamiento de licencias/cupos y prohibiciones de importación de equipos que contienen SAO), notificación de datos y cumplimiento de las medidas de control/los planes de acción, por sustancia. En el Cuadro 6 se indican los progresos realizados en lo que respecta a las decisiones del Comité de Aplicación según la información facilitada por la Secretaría del Ozono y los organismos de ejecución, y obtenida de los datos de los programas de país.

Cuadro 6

CUMPLIMIENTO DE LAS DECISIONES DE LAS PARTES EN MATERIA DE CUMPLIMIENTO, SEGÚN LA INFORMACIÓN NOTIFICADA

| Resolución de la cuestión relacionada con el cumplimiento | Halones | MB | CFC | CTC | TCA | Medidas reglamentarias |
|--|--------------------------------------|---------------------------------------|---|--------------|------------|---|
| Sí, según la Secretaría del Ozono | | | Arabia Saudita | Turkmenistán | | Armenia, Guinea Ecuatorial, Haití, Santa Sede (la), Iraq, Tonga |
| Sí, según el organismo de ejecución | | | Vanuatu | | | Eritrea |
| Sí, según datos del Art. 7 | | Armenia, Guatemala, Honduras, Uruguay | Belice, Dominica | México | | |
| Sí, según datos del programa de país | Kirguistán | Bosnia y Herzegovina | Bangladesh, Bosnia y Herzegovina, Maldivas, Namibia, Paraguay | Paraguay | Bangladesh | |
| No, según la Secretaría del Ozono | | | | | | Botswana |
| No, según el organismo de ejecución | | | | | | |
| Sin datos del programa de país o del Art. 7 | Jamahiriya Árabe Libia (la), Somalia | Botswana, Chile, Ecuador, Uganda | Albania, Bolivia (Estado Plurinacional de), Guinea-Bissau, Kenya, Micronesia (Estados Federados de), Nepal, Nigeria | | Chile | |

28. Según la información del Cuadro 6, se han resuelto 26 de las 41 cuestiones. Siete según los datos con arreglo al Artículo 7, ocho según los informes a la Secretaría del Ozono, nueve sobre la base de los

datos del programa de país, dos sobre la base de informes de los organismos de ejecución. No hubo datos con arreglo al Artículo 7 o del programa de país disponibles para 14 países.

INFORMACIÓN QUE FIGURA EN EL ANEXO II

29. En el Anexo II figura información sobre los países sujetos a decisiones de las Partes en relación con el cumplimiento. La información se presenta por cuestión relacionada con el cumplimiento y por país. En algunos casos, no hay datos de 2009 para evaluar el cumplimiento de las medida de control y los planes de acción.

30. El Anexo II incluye asimismo una columna titulada “Observaciones del Fondo Multilateral” que contiene información procedente de los informes de datos de los programas de país presentados por las dependencias nacionales del ozono, información facilitada por la Secretaría del Ozono y los organismos de ejecución, y datos sobre el particular obtenidos de los informes de situación y sobre la marcha de las actividades más recientes.

PARTE III: DATOS SOBRE LA EJECUCIÓN DE LOS PROGRAMAS DE PAÍS

31. La Parte III contiene datos sobre la ejecución de los programas de país, que se presentan a la Secretaría del Fondo, a más tardar, el 1 de mayo de cada año, e incluyen datos de consumo de SAO por sector. Esta sección también presenta información adicional sobre las características de los programas de eliminación de SAO de los países.

32. El formato de notificación de los datos de los programas de país se aprobó en la 35ª Reunión del Comité Ejecutivo, en la decisión 35/58 (e).

DATOS DE CONSUMO DE SAO POR SECTOR

33. La base de datos con la información de programas de país está disponible en el sitio Web de la Secretaría del Fondo (www.multilateralfund.org) en una hoja de cálculo del programa Microsoft Excel 2002.

34. Al 2 de junio de 2010, la Secretaría había recibido la siguiente cantidad de informes sobre la ejecución de los programas de país: para 2009, de 52 de los 143 países que debían presentar tales informes; para 2008, de 82 países; para 2007, de cinco países. Los siguientes países nunca han notificado datos de programa de país: Guinea Ecuatorial, Eritrea y Somalia. Timor-Leste no ha informado datos de los programas de país, dado que hace poco tiempo que ratificó el Protocolo, pero todos los demás países lo ratificaron en 2007 o con anterioridad. Guinea Ecuatorial no recibió asistencia hasta julio de 2006. Cabe señalar que la renovación de los proyectos de fortalecimiento institucional está sujeta a la recepción de dichos datos. Además, los datos relativos a la ejecución de los programas de país deben presentarse antes de la última reunión del año y las reuniones posteriores como condición previa a la aprobación y liberación de fondos para los proyectos. Todos los países que solicitaron la consideración de proyectos en la 61ª Reunión presentaron datos de los programas de país de 2008, de conformidad con la decisión 52/5, a excepción de Timor-Leste.

35. Si bien los niveles de consumo registrados son de años diferentes y pueden no necesariamente corresponder con los datos notificados con arreglo al Artículo 7, los datos del programa de país presentan la evaluación sectorial más reciente por país y a escala mundial. Estos datos servirán de ayuda a los países que operan al amparo del Artículo 5 interesados y al Comité Ejecutivo para determinar lo que queda por eliminar en cada sector.

36. En el Cuadro 7 se muestra el consumo total de SAO remanente por sectores, después de tener en cuenta los proyectos aprobados pero no ejecutados aún. También incluye la eliminación del consumo total correspondiente a proyectos aprobados que no han sido completados y el porcentaje del saldo restante que hay que eliminar (por sector).

Cuadro 7

CONSUMO TOTAL REMANENTE DE SAO POR SECTOR

| Sector | Consumo total más reciente | Porcentaje del consumo total más reciente | Eliminación total aprobada aún pendiente | Resto que hay que eliminar | Porcentaje restante del consumo total más reciente |
|---------------------|----------------------------|---|--|----------------------------|--|
| Aerosoles | 19,3 | 0,16% | 555,1 | * | n.d. |
| Espumas | 98,3 | 0,82% | 3 613,4 | * | n.d. |
| Fumigante | 5 888,3 | 48,89% | 1 768,4 | 4 119,9 | 69,97% |
| Halones | 1 060,0 | 8,80% | 2 137,8 | * | n.d. |
| Usos de laboratorio | 225,0 | 1,87% | 0,0 | 225,0 | 100,00% |
| IDM | 1 171,5 | 9,73% | 1 524,4 | * | n.d. |
| Agente de proceso | 35,6 | 0,30% | 13 483,0 | * | n.d. |
| Refrigeración | 3 081,6 | 25,58% | 4 766,2 | * | n.d. |
| Solventes | 462,1 | 3,84% | 235,7 | 226,4 | 48,99% |
| Esterilizantes | 0,0 | 0,00% | 0,0 | 0,0 | n.d. |
| Tabaco | 3,2 | 0,03% | 0,0 | 3,2 | 100,00% |
| Total | 12 045,0 | 100,00% | 28 084,0 | 4 574,6 | 37,98% |

* Se aprobó más eliminación que el consumo más reciente.

37. La eliminación de SAO total aprobada, pero no ejecutada (Cuadro 7) no incluye la eliminación aprobada en principio para los acuerdos plurianuales o de eliminación el nivel eliminación que se espera como resultado de la ejecución de los planes de gestión de refrigerantes y del establecimiento de bancos de halones. Además de la eliminación ya financiada, el Comité Ejecutivo ha aprobado en principio proyectos sectoriales y nacionales de eliminación para los que se liberan tramos anuales a condición de que se hayan logrado las reducciones previstas.

38. La eliminación en futuros tramos anuales abordará una cantidad significativa del consumo remanente identificado en el Cuadro 7. Además, los planes de gestión de refrigerantes para los países con bajo volumen de consumo (LVC) cubren el 85 por ciento del consumo de referencia de estos países y los planes de gestión de eliminación definitiva cubren el consumo básico remanente. No obstante, los datos en los proyectos que se han aprobado, pero que aún no se ejecutaron, no cubren todo este tonelaje. Además, la eliminación de SAO aprobada pero no ejecutada indicada en el Cuadro 7 no incluye una parte del consumo de halones para los países que ya han recibido un proyecto de banco de halones.

39. En el Cuadro 8, se representa el consumo remanente por sustancia que aún no ha sido abordado por el Comité Ejecutivo, una vez considerados los acuerdos plurianuales, los planes de gestión de eliminación definitiva, los planes de gestión de refrigerantes para los países de bajo volumen de consumo de SAO y los bancos de halones.

Cuadro 8

CONSUMO TOTAL REMANENTE DE SAO POR SUSTANCIA, SEGÚN LOS DATOS DE LOS PROGRAMAS DE PAÍS

(TENIENDO EN CUENTA LA ELIMINACIÓN QUE REPRESENTAN LOS PLANES DE GESTIÓN DE REFRIGERANTES EN PAÍSES DE BAJO VOLUMEN DE CONSUMO, LOS BANCOS DE HALONES, LOS PROYECTOS DE ELIMINACIÓN DEFINITIVA Y LOS ACUERDOS PLURIANUALES APROBADOS EN PRINCIPIO)

| Sustancia química | Consumo de SAO remanente (toneladas PAO) |
|--------------------------|---|
| CFC | 25,5 |
| CTC | 0,1 |
| Sustancia química | Consumo de SAO remanente (toneladas PAO) |
| Halones | 0,0 |
| MB | 1 117,9 |
| TCA | 0,0 |
| Total | 1 143,5 |

40. En el documento presentado a la 58ª Reunión del Comité Ejecutivo se indicó que quedaban pendientes 1 609 toneladas PAO según los datos más recientes de los programas de país, teniendo en cuenta los proyectos que se habían aprobado pero no ejecutado aún. La reducción de 465,5 toneladas PAO en el consumo es consecuencia de las aprobaciones de financiación en las 58ª, 59ª y 60ª Reuniones del Comité Ejecutivo y de los datos de consumo actualizados recibidos desde que se emitió el documento para su consideración en la 60ª Reunión. El consumo de SAO restante se basa en los 139 países que operan al amparo del Artículo 5 que notificaron datos de programa de país. Los cuatro países que no han notificado datos de los programas de país también pueden aspirar a recibir asistencia del Fondo. Según los datos notificados con arreglo al Artículo 7 para estos cuatro países, el volumen total de SAO remanente que aún debe ser abordado (tomando en consideración la eliminación que representan los planes de gestión de eliminación definitiva y los planes de gestión de refrigerantes en países de bajo volumen de consumo, los bancos de halones, los proyectos de eliminación definitiva y los acuerdos plurianuales aprobados en principio), asciende a 1 155,1 toneladas PAO (Cuadro 9). Esto indica una reducción respecto de la cifra de 3 073 toneladas PAO que se había notificado a la 58ª Reunión.

Cuadro 9

CONSUMO TOTAL REMANENTE DE SAO POR SUSTANCIA, SEGÚN LOS DATOS DE LOS PROGRAMAS DE PAÍS Y DEL ARTÍCULO 7

(TENIENDO EN CUENTA LA ELIMINACIÓN QUE REPRESENTAN LOS PLANES DE GESTIÓN DE REFRIGERANTES EN PAÍSES DE BAJO VOLUMEN DE CONSUMO, LOS BANCOS DE HALONES, LOS PROYECTOS DE ELIMINACIÓN DEFINITIVA Y LOS ACUERDOS PLURIANUALES APROBADOS EN PRINCIPIO)

| Sustancia química | Consumo de SAO remanente (toneladas PAO) |
|-------------------|--|
| CFC | 47,8 |
| CTC | 0,1 |
| Halones | 0,0 |
| MB | 1 107,2 |
| TCA | 0,0 |
| Total | 1 155,1 |

Datos sobre HCFC

41. En el Cuadro 10 figuran los niveles de consumo de HCFC según los datos más recientes disponibles. Se observa que el consumo de HCFC asciende a 441 738 toneladas métricas (29 101 toneladas PAO), principalmente de HCFC-22 (62,7 por ciento del total) y HCFC-141b (31,8 por ciento del total). Las 441 738 toneladas métricas de HCFC representan un aumento de 62 754 toneladas métricas sobre el volumen notificado (378 984 toneladas métricas) en la 58ª Reunión. Según una comparación, el Fondo ha eliminado 232 317 toneladas métricas (250 904 toneladas PAO) de consumo de SAO al 31 de diciembre de 2009. El nivel de este informe se basa en datos de 2009 para 52 países, de 2008 para 82 países y de 2007 para 5 países. Para los países que notificaron los datos de 2008 y de 2009, el consumo de HCFC disminuyó 0,3 por ciento.

Cuadro 10

NIVELES DE DATOS DE CONSUMO MÁS RECIENTE DE HCFC POR SUSTANCIA

| Sustancia química | Toneladas métricas | Toneladas PAO | Porcentaje del total |
|---|--------------------|-----------------|----------------------|
| HCFC-123 | 1 279,4 | 25,6 | 0,09% |
| HCFC-124 | 491,5 | 10,8 | 0,04% |
| HCFC-141b | 84 042,4 | 9 244,7 | 31,77% |
| HCFC-141b en polioles premezclados importados | 106,5 | 11,7 | 0,04% |
| HCFC-142b | 24 184,4 | 1 572,0 | 5,40% |
| HCFC-21 | 37,2 | 1,5 | 0,01% |
| HCFC-22 | 331 479,0 | 18 231,3 | 62,65% |
| HCFC-225 | 4,6 | 0,3 | 0,001% |
| HCFC-225ca | 86,2 | 2,2 | 0,01% |
| HCFC-225cb | 26,7 | 0,9 | 0,003% |
| Total general | 441 738,0 | 29 101,0 | 100,00% |

CARACTERÍSTICAS DE LOS PROGRAMAS DE PAÍS

42. El nuevo formato de notificación de datos sobre programas de país aprobado en la decisión 46/39 y revisado en la 60ª Reunión (decisión 60/4 b iv)) permite a las dependencias nacionales de ozono determinar las perspectivas de cumplimiento de manera cualitativa y cuantitativa.

Integridad de los datos

43. Este es el quinto año que se usa el nuevo formato para notificar los datos del programa de país; si bien se revisó en la 60ª Reunión en cuanto a los HCFC, la totalidad de los 52 países proporcionaron datos de 2009 usando el nuevo formato. No obstante, sólo 30 países usaron el formato revisado aprobado en la 60ª Reunión. Sin embargo, gran parte de los datos suministrados en el nuevo formato estaban incompletos en las tres secciones principales correspondientes a los ámbitos: cualitativo, cuantitativo y normativo. Solamente tres países, Bahamas, Egipto y Malasia, suministraron toda la información para las tres secciones. Solo cinco países notificaron datos de 2009 utilizando el sistema basado en la Web, que se puso en funcionamiento el 25 de abril de 2007.

44. Solo 52 de los 143 países requeridos suministraron datos de los programas de país de 2009 a tiempo para el análisis en este documento. Todos los países que presentaron solicitudes de financiación a la 61ª Reunión también presentaron datos de programa de país de 2008, excepto Timor-Leste.

Resumen de datos

Todas las SAO restantes

45. Cuarenta y dos de los 50 países que presentaron informes y que tienen planes de gestión de refrigerantes/planes nacionales de eliminación/planes de gestión de eliminación definitiva indicaron progresos o completaron la ejecución de sus planes de gestión de refrigerantes/planes nacionales de eliminación/planes de gestión de eliminación definitiva. Con inclusión de los países que notificaron datos anteriores a 2009, 102 de 129 países mostraron progresos en la ejecución de sus planes de gestión de refrigerantes/planes nacionales de eliminación/planes de gestión de eliminación definitiva o la completaron.

46. Incluidos aquellos países que notificaron datos anteriores a 2009, se encuentran en funcionamiento 14 281 máquinas de recuperación y 7 424 máquinas de reciclaje en total. Entre los países que emplean máquinas de recuperación y reciclaje, el 67,2 por ciento informó que las máquinas funcionaban 'satisfactoriamente' o 'muy bien'. Se ha recuperado un total de 232,4 toneladas PAO de CFC-11, que se han reutilizado en su totalidad, y se ha recuperado un total de 5 172 toneladas PAO de CFC-12, de las cuales se han reutilizado 2 999 toneladas PAO. No se recopilaron datos para las restantes SAO.

47. Los datos más recientes notificados para 2006-2009, considerados junto con los datos de los informes de años anteriores, indican que se ha impartido capacitación a 88 636 técnicos de servicio y mantenimiento de refrigeración, se ha certificado a 63 229 técnicos y se ha impartido capacitación a 3 807 instructores de técnicos en servicio y mantenimiento de refrigeración.

48. Ciento treinta de los 143 países que debían presentar informes han notificado sistemas de otorgamiento de licencias operativos (la totalidad de los 52 que notificaron los datos de 2009 tenían sistemas de otorgamiento de licencias operativos, de los cuales el 98 por ciento funciona 'satisfactoriamente' o 'muy bien').

49. Ciento doce países de los 131 que notificaron datos (incluidos los datos de los informes de años anteriores) indicaron que disponían de sistemas de cupos. Además, 125 países notificaron que requerían el

registro de los importadores. Se ha informado que se ha impartido capacitación a un total de 15 360 oficiales de aduanas. No resulta claro si se trata de datos anuales o acumulativos. En el Cuadro 11 se presenta un resumen de los costos de algunas SAO y los productos sustitutos.

Cuadro 11

PRECIO MEDIO DE SAO Y PRODUCTOS SUSTITUTIVOS

| SAO | Precio medio/kilo gramo (SEUA/kg) (2005 según informe a la 50ª Reunión) | Precio medio/kg (SEUA/kg) (2006 según informe a la 54ª Reunión) | Precio medio/kg (SEUA/kg) (2007 según informe a la 57ª Reunión) | Precio medio/kg (SEUA/kg) (2008 según informe a la 60ª Reunión) | Precio medio/kg (SEUA/kg) (Informe de 2009) | Cantidad de países donde los precios aumentaron | Cantidad de países donde los precios disminuyeron | Fluctuación (SEUA/kg) (Informe de 2009) | Cantidad de países que notificaron datos diferentes de cero para 2009 | Datos excluidos al calcular el valor medio (SEUA/kg) (Informe de 2009) |
|---|---|---|---|---|---|---|---|--|---|--|

* Se excluyeron todas las entradas con cero \$ EUA.

50. No se han proporcionado dichos datos para halones, metilbromuro o CTC.

51. El Cuadro 11 indica que los precios medios de CFC-12, CFC-113, CFC-114, HCFC-141b, HCFC-142b, HCFC-22, HCFC-245fa, HFC-356mfc, Isobutano (HC-600a), Pentano, R-404A, R-407C, R-502 y R-507A han disminuido y que más países experimentaron disminuciones de precios en lugar de aumentos. Sin embargo, coherentemente con los datos de 2005, 2006 y 2007, los precios medios de los productos sustitutos (como R-502) siguen siendo más altos que los de CFC-11 y CFC-12. Además, el HCFC-22, HCFC-141b y HCFC-142b siguen siendo mucho menos costosos que los CFC pertinentes, según esta muestra de datos.

HCFC

52. Este es el primer año que se utiliza el formato revisado que incluye información pertinente sobre la eliminación de los HCFC aprobado en la 60ª Reunión (decisión 60/4 b)iv)). Treinta de los 52 países proporcionaron datos de 2009 usando el nuevo formato con información sobre los HCFC.

53. Seis de los 30 países que notificaron datos informaron que tenían sistemas de cupos vigentes y 22 países notificaron que se requería el registro de los importadores. Se recuperó un total de 27,8 toneladas PAO de HCFC-22, de las cuales se reutilizaron 230,8 toneladas PAO. Se ha informado que se ha impartido capacitación sobre HCFC a un total de 875 oficiales de aduanas.

54. Hay en total 888 máquinas de recuperación y 318 máquinas de reciclaje en funcionamiento. Se ha certificado a 5 590 técnicos, se ha capacitado a 12 524 técnicos y se ha capacitado a 354 instructores de técnicos para recuperar y reciclar HCFC.

PARTE IV: PROYECTOS CON DEMORAS EN LA EJECUCIÓN E INFORMES DE SITUACIÓN ESPECIALES

55. Hay 19 proyectos en curso que se han clasificado como proyectos con demoras en la ejecución y están sujetos a los procedimientos del Comité para la cancelación de proyectos. Los proyectos con demoras en la ejecución son aquellos: i) que se prevé completar con una demora de más de 12 meses, y/o, ii) en los que no se ha efectuado ningún desembolso en un plazo de 18 meses después de la aprobación del proyecto. El desglose de los proyectos con demoras en la ejecución por organismo de ejecución y

bilateral, se presenta en el Cuadro 12 como sigue: PNUD (siete); PNUMA (tres); ONUDI (tres); el Banco Mundial (dos); Japón (tres) y Australia (uno). Las demoras se deben más frecuentemente a factores relacionados con motivos técnicos (9).

Cuadro 12

RESUMEN DEL PROGRESO DE LOS PROYECTOS CON DEMORAS EN LA EJECUCIÓN

| | Australia | Japón | PNUD | PNUMA | ONUDI | Banco Mundial | Total |
|---|------------------|--------------|-------------|--------------|--------------|----------------------|--------------|
| Cantidad de proyectos notificados | 1 | 3 | 7 | 3 | 3 | 2 | 19 |
| Cantidad de proyectos completados | | | 2 | 1 | | | 3 |
| Cantidad de proyectos con algún progreso | 1 | 3 | 4 | 2 | 3 | 2 | 15 |
| Cantidad de proyectos sin ningún progreso | | | 1 | | | | 1 |

Progreso en la solución de las causas de las demoras

56. En sus informes, los organismos de ejecución y bilaterales informaron que el progreso en superar las demoras había sido variable. Tres de los proyectos de la lista con demoras en la 60ª Reunión ya se han completado (Anexo III).

Proyectos con algún progreso

57. Quince proyectos han sido clasificados en la categoría “con algún progreso”, y los organismos de ejecución y bilaterales indicaron que se seguirían supervisando dichos proyectos (Anexo IV). Pese al progreso observado, cabe señalar que los proyectos aprobados por más de tres años deben continuar siendo supervisados en virtud de la decisión 32/4. Por consiguiente, estos proyectos no pueden ser retirados de la lista correspondiente a la supervisión antes de su terminación definitiva, independientemente de los progresos que puedan haberse logrado. Por lo tanto, se recomienda continuar con la supervisión de los mismos.

Proyectos sin progreso: notificación de posible cancelación

58. Por primera vez se ha notificado un proyecto que no registró ningún progreso, y en el que se ha alcanzado un acuerdo con el organismo respectivo en cuanto a la evaluación, que incluye la asistencia técnica para reducciones de metilbromuro y formulación de estrategias de eliminación regional para un país de bajo volumen de consumo (AFR/FUM/38/TAS/32), ejecutado por el PNUD. Conforme a los procedimientos existentes, la Secretaría del Fondo enviará avisos de posible cancelación respecto de este proyecto debido a que no se ha logrado ningún progreso.

Proyectos para los que se pidieron informes de situación adicionales

59. Los proyectos de fortalecimiento institucional, bancos de halones, capacitación aduanera, recuperación, reciclaje y demostración no están sujetos a los procedimientos para la cancelación de proyectos. Sin embargo, el Comité Ejecutivo ha decidido continuar supervisándolos según corresponda (decisión 36/14 b)). En su 60ª Reunión, el Comité Ejecutivo solicitó seis informes de situación adicionales. Dichos informes son necesarios cuando se carece de indicación alguna acerca de los progresos realizados desde el último informe y/o cuando se ha informado de la existencia de impedimentos adicionales a la ejecución. Se ha solicitado que se presenten informes de situación adicionales a la 61ª Reunión para dos proyectos (BHE/SEV/43/INS/19 y KUW/PHA/52/TAS/10).

Proyectos con cancelación automática

60. En la 60ª Reunión, el Comité Ejecutivo decidió cancelar cuatro proyectos si no se notificaba ningún progreso a la 61ª Reunión (decisión 60/4 c)). Tres proyectos se han cancelado automáticamente dado que no se había notificado ningún proyecto en la 61ª Reunión (Anexo V).

RECOMENDACIONES

61. El Comité Ejecutivo pudiera considerar:

a) Tomar nota:

- i) De la situación de la ejecución de los proyectos con demoras y las perspectivas de los países al amparo del Artículo 5 en relación con el cumplimiento de las medidas de control siguientes del Protocolo de Montreal, según se indica el documento UNEP/OzL.Pro/ExCom/61/6;
- ii) Con agradecimiento, de los informes de situación sobre proyectos con demoras en la ejecución presentados a la Secretaría por los Gobiernos de Australia, Francia, Japón y los cuatro organismos de ejecución, examinados en UNEP/OzL.Pro/ExCom/61/6;
- iii) De la terminación de 3 proyectos entre los 19 de la lista de proyectos con demoras en la ejecución;
- iv) De que la Secretaría y los organismos de ejecución podrían adoptar medidas establecidas de conformidad con las evaluaciones de la Secretaría (progreso o algún progreso), e informar y notificar a los gobiernos y organismos de ejecución, en su caso.

b) Pedir:

i) Informes de situación adicionales sobre los siguientes proyectos:

| Código | Organismo | Título del proyecto |
|-------------------|------------------|--|
| BHE/SEV/43/INS/19 | ONUDI | Prórroga del proyecto de fortalecimiento institucional (etapa II) |
| KUW/PHA/52/TAS/10 | PNUMA | Plan de gestión de eliminación definitiva para las sustancias del Grupo I del Anexo A (primer tramo) |

ii) De que deberían remitirse notas de posible cancelación respecto al siguiente proyecto:

| Organismo | Código | Título del proyecto |
|------------------|-------------------|---|
| PNUD | AFR/FUM/38/TAS/32 | Asistencia técnica para reducciones de metilbromuro y formulación de estrategias de eliminación regionales para países de bajo volumen de consumo, eliminación del uso de metilbromuro en la producción de flores cortadas y plátanos |

c) Considerar la cancelación automática de los siguientes proyectos en la 61ª Reunión.

| Código | Organismo | Título del proyecto |
|-------------------|------------------|---|
| ETH/REF/44/TAS/14 | Francia | Ejecución de la actualización del plan de gestión de refrigerantes: |
| KUW/HAL/45/PRP/07 | ONUDI | Preparación de un plan de eliminación de halones |
| LIB/HAL/47/TAS/26 | ONUDI | Plan para eliminar la importación y el consumo neto de halones en el sector de extinción de incendios |

Annex I

DETAILED ANALYSIS OF THE STATUS OF IMPLEMENTATION IN COUNTRIES SUBJECT TO DECISIONS OF THE PARTIES ON COMPLIANCE AND THOSE AT RISK OF NON-COMPLIANCE

1. Annex I presents the detailed analysis of the status of implementation in countries subject to decisions of the Parties on compliance and those at risk of non-compliance. The data tables in Appendixes I-VI indicate whether a country has received a total phase-out agreement for a specific controlled substance. The analysis of halons (Appendix II) indicates whether a halon banking activity has been approved. Halon banking guidelines require that regulations facilitating production and import bans are established within six months of the establishment of a reclamation centre (decision 18/22). The methyl bromide analysis (Appendix III) indicates further whether a country has received funding for a phase-out to meet the 2005 control measure. Appendixes IV and V present information on the carbon tetrachloride (CTC) and methyl chloroform (TCA) phase-out, respectively. Appendix VI provides information on latest HCFC consumption only, as the baseline will not be established until after 2010.

ANALYSIS OF COMPLIANCE FOR CFCs (Appendix I)

2. Countries have been grouped into two categories: (a) those whose latest consumption exceeds the 85 per cent baseline reduction target of 2007 that applies until December 2009; and (b) those whose latest consumption exceeds the 2010 100 per cent phase-out target.

(a) Countries at risk of not achieving the 85 per cent CFC baseline reduction

3. This category consists of three countries, including one LVC country, which may need to achieve additional CFC phase-out amounting to 1,411 ODP tonnes by 2007 in order to comply with the 85 per cent reduction target. Of these three countries, one was to receive projects with phase-out in the 2010 business plans.

4. Of the three countries, Vanuatu is one of the LVC countries that has phase-out agreement with the Executive Committee as part of the Pacific Island Country (PIC) strategy.

5. The remaining two countries that may require additional actions to achieve the 85 per cent reduction are Bangladesh and Iraq. All countries currently eligible for Fund assistance have national CFC phase-out agreements with the Executive Committee, which contain a phase-out schedule that is consistent with the targets in the Montreal Protocol. All of the countries that are at risk have received support from the Executive Committee to address their compliance needs.

(b) Countries whose latest consumption exceeds the 2010 phase-out target

6. This category consists of 84 countries, including 49 LVC countries, which may need to achieve additional CFC phase-out amounting to 5,678 ODP tonnes by 2010 in order to comply with the 100 per cent reduction target. Of these 84 countries, 25 have phase-out projects included in the 2010 business plans.

7. Of the 84 countries, the Executive Committee has approved national CFC phase-out agreements for 78 countries including 45 LVC countries. Two countries (the Republic of Korea and the United Arab Emirates) have agreed not to receive funding from the Multilateral Fund. The remaining four countries do not have projects for complete phase-out of CFC or included in the 2010-2014 business plans including Angola, Ethiopia, Somalia and Timor-Leste. The CFC terminal phase-out management plan for these countries will be integrate into HPMPs according to decision 60/5(d).

ANALYSIS OF COMPLIANCE FOR HALONS (Appendix II)

8. Seventy-five countries have reported no consumption of halons between 1995 and 2009.

9. Sixty-one countries have received support for halon banking activities or phase-out agreements. This includes those countries participating in regional halon banks. Halon banking is presumed to be the last funded activity in the halon consumption sector for most countries but there are some halon phase-out activities that are part of multi-sectoral phase-out agreements.

10. Countries have been grouped into the following two categories: (a) those whose latest consumption exceeds the 50 per cent reduction target of 2005 that applies until December 2009; and (b) those whose latest consumption exceeds the 2010 100 per cent phase-out target.

(a) Countries at risk of not achieving the 50 per cent baseline reduction for halons

11. This category consists of one non-LVC country (Iraq) that may need to phase out additional halons amounting to 3.9 ODP tonnes in order to comply with the 50 per cent reduction targets. The latest consumption for Iraq in 2008 is 39.1 ODP tonnes.

(b) Countries whose latest consumption exceeds the 2010 phase-out target

12. This category consists of eight countries that may need to phase-out additional halons amounting to 1,811 ODP tonnes by 2010 in order to comply with the 100 per cent reduction targets. These countries have received support from the Multilateral Fund, except the Republic of Korea and the United Arab Emirates. The Republic of Korea and the United Arab Emirates have agreed not to receive funding from the Multilateral Fund.

ANALYSIS OF COMPLIANCE FOR METHYL BROMIDE (Appendix III)

13. This section presents the analysis for compliance with methyl bromide control measures. It should be noted that all data reported and used in this analysis relate to controlled use only, which means that the data exclude quarantine and pre-shipment (QPS). All of the 144 Article 5 countries that have ratified the Copenhagen Amendment have reported complete baseline data. Of these 144 countries, 58 reported zero for both the baseline consumption and the latest consumption and one where 2008 consumption data is not available.

14. Ninety-nine Article 5 countries have received support from the Multilateral Fund for methyl bromide activities and/or projects. This includes projects that will lead to a complete phase-out of methyl bromide in 59 of these countries, partial phase-out in an additional 10, and other forms of assistance received by 30.

15. Countries have been grouped into the following two categories: (a) those whose latest consumption exceeds the 20 per cent reduction target of 2005 that applies until December 2014; and (b) those whose latest consumption exceeds the 2015 100 per cent phase-out target. Appendix III identifies those countries that have not ratified the Copenhagen Amendment.

(a) Countries whose latest consumption exceeds the 20 per cent MB baseline reduction target

16. This category consists of the following two countries: Iraq and Turkmenistan. These countries may need to meet additional combined reduction amounting to 1.34 ODP tonnes in order to comply with the 20 per cent reduction targets. Iraq already has methyl bromide preparation project approved at the 58th Meeting and Turkmenistan has approved project that will lead to complete phase-out of methyl bromide.

(b) Countries whose latest consumption exceeds the 2015 phase-out target

17. This category consists of 35 countries that may need to meet additional combined reduction amounting to 2,993 ODP tonnes by 2015 in order to comply with the 100 per cent reduction targets. Of the 35 countries, 25 countries have approved projects that will lead to complete phase-out of methyl bromide. Eight countries may need additional assistance from the Multilateral Fund to achieve the phase-out of methyl bromide by 2015. The remaining two countries (South Africa and Singapore) are currently not eligible to receive funding from the Multilateral Fund. It should be noted that South Africa could receive funding for HCFC phase-out.

CARBON TETRACHLORIDE (CTC) (Appendix IV)

18. This section presents the analysis of compliance with CTC control measures. All data reported and used in this analysis are those related to controlled use only, which excludes feedstock. Reported CTC consumption was not differentiated by specific end use, such as solvents, process agents and laboratory use.

19. Of the 146 countries with reported baseline data, 90 reported zero both for the baseline and the latest consumption.

20. Countries have been grouped into the following two categories: (a) those whose latest consumption exceeds the 85 per cent reduction target that applies until December 2009; and (b) those whose latest consumption exceeds the 2010 100 per cent phase-out target. Appendix IV notes those countries that have not ratified the London Amendment.

(a) Countries whose latest consumption exceeds the 85 per cent CTC baseline reduction target

21. Two countries might not achieve compliance with the 85 per cent reduction. These countries would need to phase out a total of 1.42 ODP tonnes to meet the 85 per cent reduction by 2005.

22. The Multilateral Fund has provided funding for CTC phase-out agreements or projects in one of the two countries (Iraq). Ecuador is the only country that may not need additional assistance to meet the 100 per cent reduction target for CTC since its consumption is for laboratory uses.

(b) Countries whose latest consumption exceeds the 2010 phase-out target

23. This category consists of 15 countries that may need to phase-out additional CTC amounting to 942 ODP tonnes to meet the 100 per cent reduction by 2010. Thirteen of the 15 countries have received funding for CTC phase-out agreements or projects from the Multilateral Fund. The Republic of Korea has agreed not to receive CTC funding from the Multilateral Fund. Ecuador may not need additional assistance to meet the 100 per cent reduction target for CTC since its consumption is for laboratory uses.

METHYL CHLOROFORM (TCA) (Appendix V)

24. This section presents the analysis for compliance with TCA control measures. Of the 146 countries that have reported baseline data, 103 reported zero both for the baseline and the latest consumption.

25. Countries have been grouped into three categories: (a) those whose latest consumption exceeds the 30 per cent reduction target that applies until December 2009; (b) those whose latest consumption exceeds the 70 per cent reduction target of 2010; and (c) those whose latest consumption exceeds

the 2015 100 per cent phase-out target. Appendix V specifies those countries that have not ratified the London Amendment.

- (a) Countries whose latest consumption exceeds the 30 per cent TCA baseline reduction target

26. All countries are in compliance with the 30 per cent TCA baseline reduction target.

- (b) Countries whose latest consumption exceeds the 70 per cent TCA baseline reduction target

27. This category consists of two countries: Bangladesh and the Republic of Korea. These countries may need to phase out additional TCA amounting to 62.5 ODP tonnes by 2010 in order to comply with the 70 per cent reduction targets. Bangladesh has received funding for agreement or project for complete phase-out of TCA. The Republic of Korea is not eligible for funding from the Multilateral Fund.

- (c) Countries whose latest consumption exceeds the 100 per cent TCA baseline reduction target

28. This category consists of nine countries that may need to meet additional combined reduction amounting to 401 ODP tonnes by 2015 in order to comply with the 100 per cent reduction target. Eight of those nine countries have received funding for TCA phase-out agreements or projects from the Multilateral Fund. The remaining country (the Republic of Korea) is not eligible to receive TCA funding from the Multilateral Fund.

HCFCs (Appendix VI)

29. Appendix VI includes an analysis of the latest consumption data on HCFCs and indicates whether the country had received HPMP preparation funding, the number of investment project approved, the number of demonstration projects approved, total phase-out approved in ODP tonnes and activities planned in the 2010 business plans. The baseline data will not be available until 2011 when both of the baseline years (2009 and 2010) will have been reported. All countries have received HPMP preparation funds or have submitted requests to the 61st Meeting. A new column is added to the appendix to indicate HPMP approvals and the duration covered by the HPMP (such as, HPMP approved to achieve up to the 10 per cent reduction in 2015 or to achieve up to the 35 per cent reduction in 2020, for example).

Annex II

INFORMATION ON COUNTRIES SUBJECT TO DECISIONS OF THE PARTIES ON COMPLIANCE

| Party | Decisions | Compliance issue | Action | Fund Secretariat Comments | Achieved/Resolved/Regulatory Measures Operational |
|----------------------------------|------------------|--------------------|---|--|---|
| Albania | XV/26 | CFC phase-out | To phase-out CFC consumption by 1 January 2009 | 2008 CFC consumption is Zero ODP-tonne. 2009 CFC consumption not available in A7 data. | Not available |
| Armenia | XVIII/20 | MB phase-out | To maintain methyl bromide consumption to Zero ODP-tonne from 2007 | 2009 consumption is Zero ODP-tonne. Country is in compliance. | Yes per A7 data |
| Armenia | | ODS license system | To monitor its system for licensing the import and export of ozone-depleting substances, including import quotas | The status of establishment of licensing system as at May 14, 2010 indicates that licensing system is in place. | Yes |
| Bangladesh | XXI/17 | CFC phase-out | To reduce CFC consumption to no greater than 140 ODP-tonnes in 2009 and Zero ODP-tonne in 2010. | CFC consumption is 127.6 ODP tonnes in 2009. The country is compliance with the action plan but not with control measures | Yes per action plan. |
| Bangladesh | XVII/27 | TCA phase-out | With a based line of 0.9 ODP-tonne and 30% reduction, the target is 0.63 ODP tonne. In 2010 methyl chloroform consumption should be reduce to 0.2600 ODP tonnes and Zero ODP-tonne by 1 January 2015. | TCA consumption is 0.5 ODP tonnes in 2009 and is within targets | Yes per CP data |
| Belize | XIV/33 | CFC phase-out | To phase-out CFC consumption by 1 January 2008 | 2008 consumption is Zero ODP-tonne. | Yes per A7 data |
| Bolivia (Plurinational State of) | XV/29 | CFC phase-out | To phase-out CFC consumption by 1 January 2010 | 2008 consumption is 2.6 ODP-tonnes for a target of 11.4 ODP tonnes. 2009 CFC consumption not available in A7 data. | Not available |
| Bosnia and Herzegovina | XV/30 and XXI/18 | CFC phase-out | To reduce CFC consumption no greater than zero ODP-tonnes in 2009 and 2010. | UNEP reported that the country introduced ban on CFC imports from 1 January 2009. Country reported CFC consumption of 1.2 ODP tons for 2008 and is in compliance. CP data indicates a consumption of Zero ODP-tonne in 2009. | Yes per CP data |
| Bosnia and Herzegovina | XV/30 | MB phase-out | To phase-out methyl bromide consumption by 1 January 2007 | 2009 consumption is Zero ODP-tonne. The country is in compliance. | Yes per CP data |

| Party | Decisions | Compliance issue | Action | Fund Secretariat Comments | Achieved/Resolved/Regulatory Measures Operational |
|---------------------------|-----------------------|--------------------|--|--|---|
| Botswana | XV/31 and ImpCom 37/6 | MB phase-out | To phase-out methyl bromide consumption by 1 January 2005; to establish a licensing system for methyl bromide, including quotas. | 2008 consumption is Zero ODP-tonne. 2009 consumption not available in A7 data. | Not available |
| Botswana | XV/31 and ImpCom 37/6 | ODS license system | To monitor its system for licensing the import and export of ozone-depleting substances, including import quotas | The status of establishment of licensing system as at May 14, 2010 indicates that licensing system is in place. | No |
| Chile | XVII/29 | MB phase-out | To reduce methyl bromide consumption to 170 ODP-tonnes in 2005 and Zero ODP-tonne by 1 January 2015. | 2008 consumption 164.4 ODP-tonnes for a target of 170 ODP-tonnes. 2009 consumption not available in A7 data. | Not available |
| Chile (Methyl chloroform) | XVII/29 | TCA phase-out | To reduce methyl chloroform consumption to 1.934 ODP tonnes in 2010 and Zero ODP-tonne by 1 January 2015. | 2008 consumption is Zero ODP-tonne. 2009 consumption not available in A7 data. | Not available |
| Dominica | XVIII/22 | CFC phase-out | To reduce CFC consumption to Zero ODP-tonne from 2008 | 2009 consumption is Zero ODP-tonne. | Yes per A7 data |
| Ecuador | XX/16 | MB phase-out | To reduce methyl bromide consumption to 52.8 ODP-tonnes in 2008 and in each subsequent calendar year until 2014 and Zero ODP-tonne by 1 January 2015 | 2008 consumption is 51.0 ODP-tonnes. 2009 consumption not available in A7 data. | Not available |
| Equatorial Guinea | | ODS license system | To monitor its system for licensing the import and export of ozone-depleting substances, including import quotas | The status of establishment of licensing system as at May 14, 2010 indicates that licensing system is in place. | Yes |
| Eritrea | | ODS license system | Report establishment of licensing system | The status of establishment of licensing system as at May 14, 2010 indicates that Eritrea has not a licensing system in place. However, UNEP indicated that the licensing system/regulations/legislation is now established and updated. | Yes per IA |
| Guatemala | XVIII/26 | MB phase-out | To reduce methyl bromide consumption to 361 ODP-tonnes in 2007, 320 ODP-tonnes in 2008 and Zero ODP-tonne by 1 January 2015 | 2009 consumption is 239.9 ODP-tonnes. Country in compliance. | Yes per A7 data |
| Guinea-Bissau | XVI/24 | CFC phase-out | To reduce CFC consumption to 3.941 ODP tonnes in 2007, 2008, 2009 and CFC phase-out consumption by 2010 | 2008 consumption is 1.4 ODP-tonnes. 2009 consumption not available in A7 data. | Not available |

| Party | Decisions | Compliance issue | Action | Fund Secretariat Comments | Achieved/Resolved/Regulatory Measures Operational |
|----------------------------------|---------------------|--------------------|--|---|---|
| Haiti | XIX/26 | ODS license system | To monitor its system for licensing the import and export of ozone-depleting substances, including import quotas | The status of establishment of licensing system as at May 14, 2010 indicates that licensing system is in place. | Yes |
| Holy See (the) | | ODS license system | To monitor its system for licensing the import and export of ozone-depleting substances, including import quotas | The status of establishment of licensing system as at May 14, 2010 indicates that licensing system is in place. | Yes |
| Honduras | XVII/34 | MB phase-out | To reduce methyl bromide consumption to 207.5454 ODP-tonnes by 2008 | 2009 consumption is 136.1 ODP-tonnes. Country is in compliance. | Yes per A7 data |
| Iraq | | ODS license system | To monitor its system for licensing the import and export of ozone-depleting substances, including import quotas | The status of establishment of licensing system as at May 14, 2010 indicates that licensing system is in place. | Yes |
| Kenya | XVIII/28 | CFC phase-out | To reduce CFC consumption to 30 ODP-tonnes in 2007, 10 ODP-tonnes in 2008 and Zero ODP-tonne in 2009 | 2008 consumption is 7.5 ODP tonnes. 2009 consumption not available in A7 data. | Not available |
| Kyrgyzstan | XVII/36 | Halon phase-out | To phase-out halons consumption by 1 January 2008 | 2009 consumption is Zero ODP-tonne. Country is in compliance. | Yes per CP data |
| Libyan Arab Jamahiriya (the) | XVII/37 | Halon phase-out | To phase-out halons consumption by 1 January 2008 | 2008 consumption is Zero ODP-tonne. UNEP reported that effort to secure participation of Lybia to network activities in 2009 were not successful. 2009 consumption not available. | Not available |
| Maldives | XV/37 | CFC phase-out | To reduce CFC consumption to Zero ODP-tonne in 2008 and 2009; CFC consumption phase-out by 1 January 2010. | 2009 consumption is Zero ODP-tonne. Country is in compliance. | Yes per CP data |
| Mexico | XVIII/30 and XXI/20 | CTC phase-out | To reduce carbon tetrachloride consumption to 9.376 ODP-tonnes in 2008 and Zero ODP-tonne in 2009 | 2009 consumption is Zero ODP-tonne. Country is in compliance. | Yes per A7 data |
| Micronesia (Federated States of) | XVII/32 | CFC phase-out | To phase-out CFC consumption by January 2006 | 2008 consumption is Zero ODP-tonne. 2009 consumption not available in A7 data. | Not available |
| Namibia | XV/38 | CFC phase-out | To reduce CFC consumption to 2.0 ODP-tonnes in 2008; 1.0 ODP-tonnes in 2009 and CFC consumption phase-out by 1 January 2010. | 2009 consumption is Zero ODP-tonne. Country in compliance. | Yes per CP data |

| Party | Decisions | Compliance issue | Action | Fund Secretariat Comments | Achieved/Resolved/Regulatory Measures Operational |
|--------------|-----------|--------------------|--|---|---|
| Nepal | XVI/27 | CFC phase-out | To reduce CFC consumption to 4.05 ODP-tonnes in 2007, 4.05 ODP-tonnes in 2008 and 4 ODP-tonnes in 2009, Zero ODP-tonne in 2010 | 2008 consumption is Zero ODP-tonne. 2009 consumption not available in A7 data. | Not available |
| Nigeria | XIV/30 | CFC phase-out | To reduce CFC consumption to 510 ODP-tonnes in 2007, 300 ODP-tonnes in 2008 and 100 ODP-tonnes in 2009. To phase-out CFC consumption by 1 January 2010 | 2008 consumption is 16.5 ODP-tonnes. 2009 consumption not available in A7 data. | Not available |
| Paraguay | XIX/22 | CFC phase-out | To reduce CFC consumption to 31.6 ODP-tonnes in 2007, 2008, 2009 and Zero ODP-tonne in 2010 | 2009 consumption is 10.8 ODP-tonnes. Country is in compliance | Yes per CP data |
| Paraguay | XIX/22 | CTC phase-out | To reduce carbon tetrachloride consumption to 0.1 ODP-tonne in 2007, 2008 and 2009. Zero ODP-tonne in 2010 | 2009 consumption is Zero ODP-tonne. Country is in compliance | Yes per CP data |
| Saudi Arabia | XXI/21 | CFC phase-out | To submit to the Secretariat, as a matter of urgency and no later than 31 March 2010, for consideration by the Implementation Committee at its next meeting, a plan of action with time-specific benchmarks to ensure the Party's prompt return to compliance | According to the Ozone secretariat, the action plan was reported in April 12, 2009. | Yes |
| Somalia | XX/19 | Halon phase-out | To reduce halon consumption to 9.4 ODP tonnes in 2008, 9.4 ODP tonnes in 2009, Zero ODP tonnes in 2010 | 2008 consumption is Zero ODP-tonne. 2009 consumption not available in A7 data. | Not available |
| Tonga | XIX/26 | ODS license system | To monitor its system for licensing the import and export of ozone-depleting substances, including import quotas | The status of establishment of licensing system as at May 14, 2010 indicates that licensing system is in place. | Yes |
| Turkmenistan | XXI/25 | CTC phase-out | To request Turkmenistan to submit to the Secretariat, as a matter of urgency and no later than 31 March 2010, for consideration by the Implementation Committee at its next meeting, a plan of action with time-specific benchmarks to ensure the Party's prompt return to compliance. | The action plan was submitted | Yes |
| Uganda | XV/43 | MB phase-out | To phase-out methyl bromide consumption by 1 January 2007 | 2008 consumption is Zero ODP-tonne. 2009 consumption not available in A7 data. | Not available |

| Party | Decisions | Compliance issue | Action | Fund Secretariat Comments | Achieved/Resolved/Regulatory Measures Operational |
|--------------|------------------|-------------------------|---|--|--|
| Uruguay | XVII/39 | MB phase-out | To reduce methyl bromide consumption to 8.9 ODP-tonnes in 2009 and 6.0 ODP-tonnes in 2010; Phase-out by 2013. | 2008 consumption is 8.4 ODP-tonnes. 2009 consumption not available in A7 data. | Yes per A7 data |
| Vanuatu | XXI/26 | CFC phase-out | To submit to the Secretariat, as a matter of urgency and no later than 31 March 2010, for consideration by the Implementation Committee at its next meeting, a plan of action with time-specific benchmarks to ensure the Party's prompt return to compliance | UNEP indicated that the Action Plan to return compliance was submitted before 31 March 2010 following a high-level mission of UNEP CAP/ROAP in Feb 2010. 2008 consumption is 0.7 ODP-tonne while the target is Zero ODP-tonne. | Yes per IA |

ANNEX III
COMPLETED PROJECTS

| Agency | Code | Project Title |
|---------------|--------------------|---|
| UNDP | CHI/SOL/41/TAS/154 | Technical assistance to phase-out ozone depleting solvents |
| UNDP | URU/ARS/43/INV/42 | Phase-out of CFC consumption in the manufacture of aerosol metered-dose inhalers (MDIs) |
| UNEP | SOM/SEV/35/TAS/01 | Formulation of national phase-out strategy |

ANNEX IV

PROJECTS THAT ARE CLASSIFIED AS “SOME PROGRESS”

| Code | Agency | Project Title |
|--------------------|-----------|---|
| AFR/SEV/45/TAS/33 | UNEP | Sub-regional project on harmonization of legislative and regulatory mechanisms to improve monitoring and control of ODS consumption in English-speaking Africa |
| ALG/REF/44/INV/62 | UNIDO | Conversion of CFC-11 to HCFC-141b and CFC-12 to HFC-134a technology in the last group of commercial refrigerator manufactures (refrigeration sector terminal project) |
| ARG/REF/18/INV/39 | IBRD | Elimination of CFC in the manufacturing plant of domestic refrigerators of Neba S.A. |
| ASP/SEV/50/TAS/52 | Australia | Additional support for the regional strategy for 11 Article 5 countries in the Pacific (PIC strategy) |
| COL/PAG/48/INV/66 | UNDP | Phase-out of CTC as process agent in the elimination of nitrogen trichloride during chlorine production at Prodesal S.A. |
| CPR/SEV/43/TRA/413 | UNEP | Policy training for local authorities (third tranche) |
| CUB/ARS/41/INV/23 | UNDP | Phase-out of CFC consumption in the manufacture of aerosol metered-dose inhalers (MDIs) |
| DOM/FUM/38/INV/33 | UNIDO | Phase-out of methyl bromide in melon, flowers and tobacco |
| FIJ/FUM/47/TAS/17 | UNDP | Technical assistance project to install alternatives, achieve compliance and phase-out methyl bromide |
| MAL/FUM/43/TAS/151 | UNDP | Technical assistance programme to install alternatives and phase-out all remaining non-QPS uses of methyl bromide |
| OMA/HAL/46/TAS/12 | UNIDO | Halon consumption phase-out through a technical assistance programme and a halon recycling |
| SRL/PHA/43/TAS/26 | Japan | National compliance action plan: incentive programme for commercial and industrial refrigeration end-users |
| SRL/PHA/43/TAS/27 | Japan | National compliance action plan: MAC recovery/recycling and retrofit |
| SRL/PHA/43/TAS/28 | Japan | National compliance action plan: recovery and recycling programme |
| THA/HAL/32/INV/134 | IBRD | Terminal halon-1211 & halon-1301 phase-out project for fire equipment manufacturers and suppliers converting to ABC powder, CO ₂ , HFC-227ea and inert gases |

ANNEX V

PROJECTS WITH AUTOMATIC CANCELLATION

| Code | Agency | Project Title |
|-------------------|---------------|--|
| ETH/REF/44/TAS/14 | France | Implementation of the RMP update |
| KUW/HAL/45/PRP/07 | UNIDO | Preparation of a halon phase-out plan |
| LIB/HAL/47/TAS/26 | UNIDO | Plan for the phase-out of import and net consumption of halons in the fire fighting sector |
